

Number Explorer Missions

Jump or hop up and down 12 times

Spot 12 things that are rectangles when you are out and about

Hold up Ten fingers. How many more fingers would you need to make 12?

Spot the number 12 next time you go for a walk

Play Together

Amazing Arrays! Pop the Numberblobs onto Numberblock 12's amazing arrays templates, and have fun seeing how many shapes you can make! Did you know, an array is an orderly arrangement of objects in equal rows or columns.

For your next mission, find the episode 'The Way of the Rectangle'

Twelve

This mission belongs to _____
