

Number Explorer Missions

Play squares and squares! It's just like noughts and crosses but you and your grown-up take turns to draw pink squares or yellow squares in the boxes. The first to make a row of 3 wins!

Can you find the number 4, four times when you are out and about?

Can you create some square art? Dip square blocks in paint and stamp squares just like the Numberblocks' stampoline shapes. Can you print Nine? How about Sixteen?

Play Together

You're in Square Club! Cut out the Square Club badges and go looking for Square Club members. Pop a badge on square objects and square numbers like 1, 4, 9 and 16.

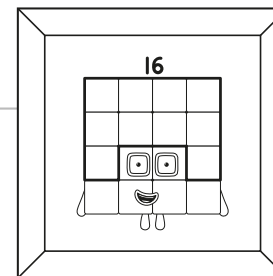

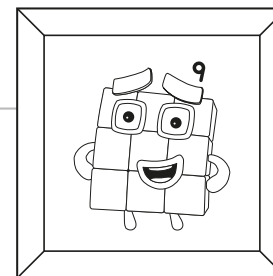

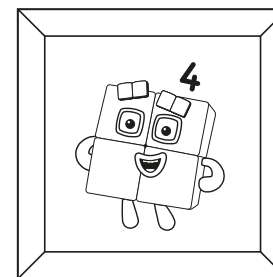

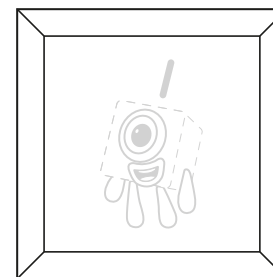

There's a badge especially for you to keep, too!

For your next mission, find the episode 'Seventeen'

Square Club

Welcome to Square Club

Can you draw the littlest member of Square Club?

Say the Square Club motto...

"Even when we're different sizes, you can always recognise us. We're as tall as we are wide, we're the same turned on each side!"

Numbers to 20

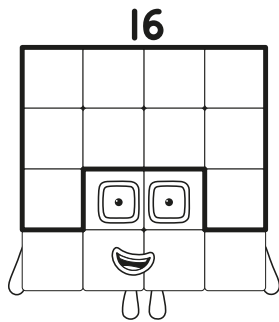

Square Numbers

Square Club

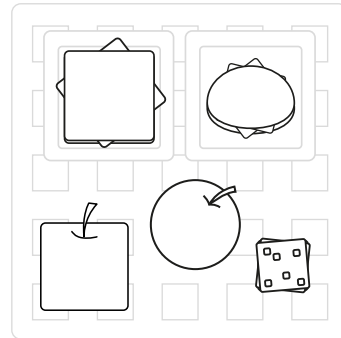

A square meal

2

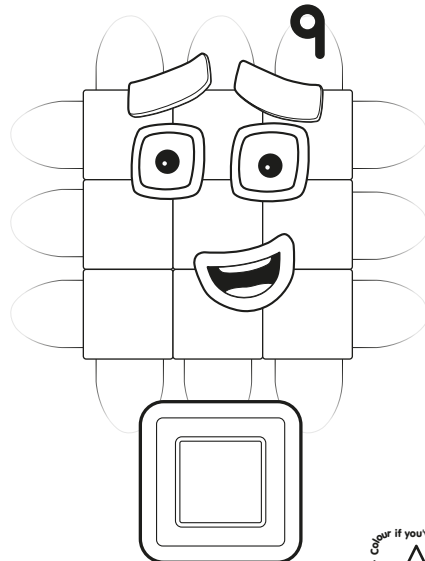

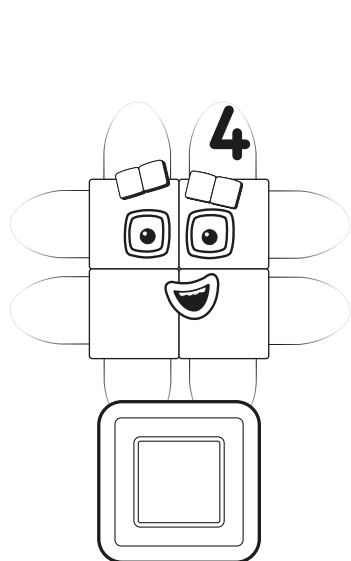

The first rule of Square Club is no round things!

Quick! Cross out the round food!

Square numbers

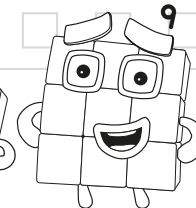

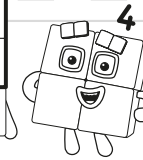

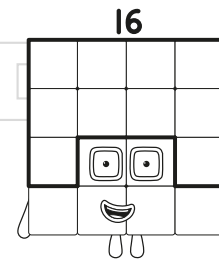

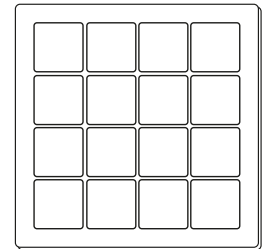

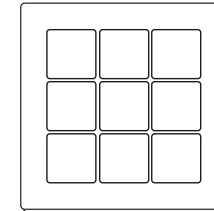

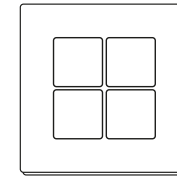

How many rays tall and wide is each Numberblock? Colour a Square Club badge next to each square.

Match up!

3

Draw lines to match each Numberblock to their stampoline shape.

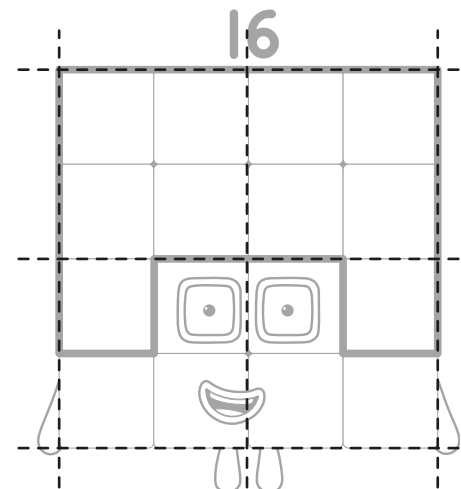

How many corners does each shape have?

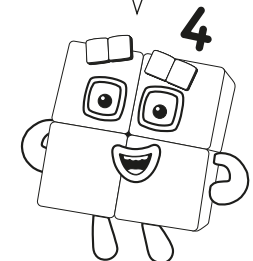

Squares in a square!

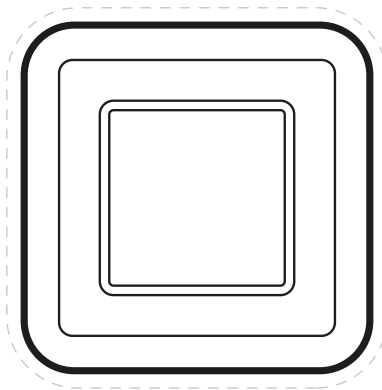

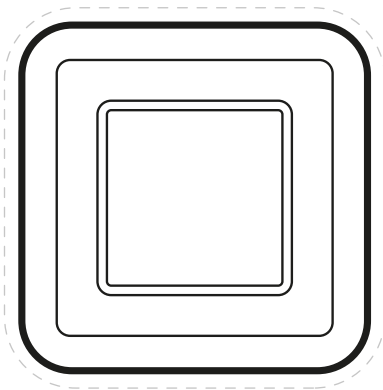

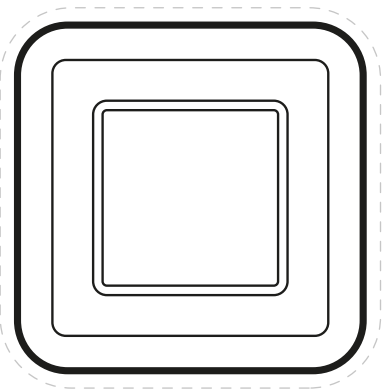

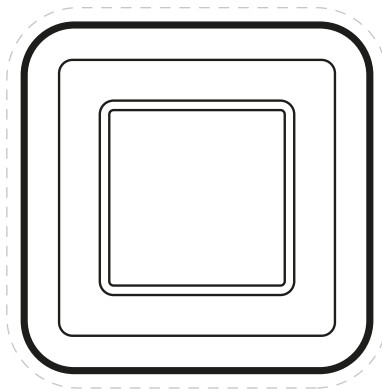

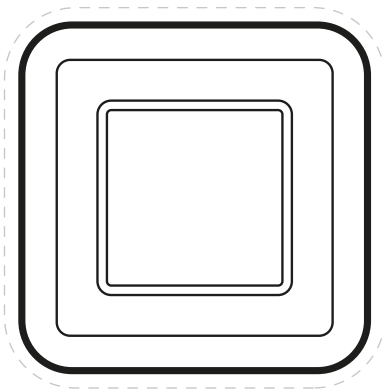

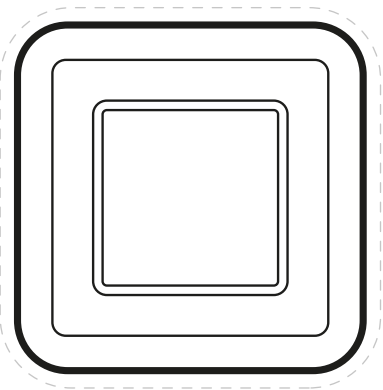

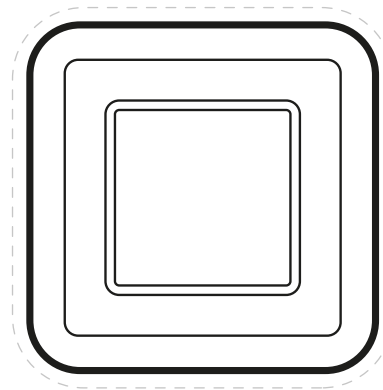

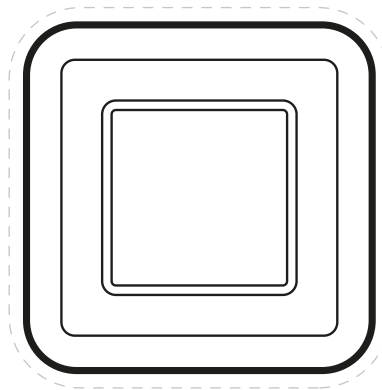

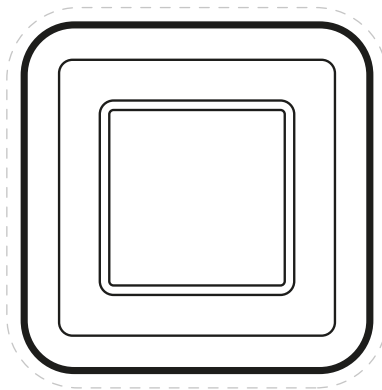

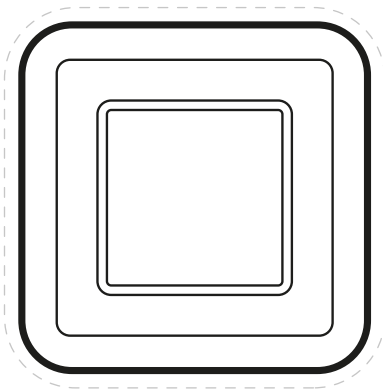

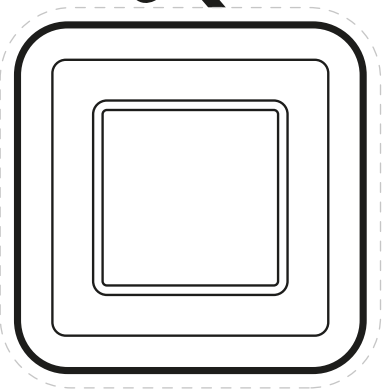

Can you find 4 Fours hiding inside Sixteen?
Draw lines to split him up

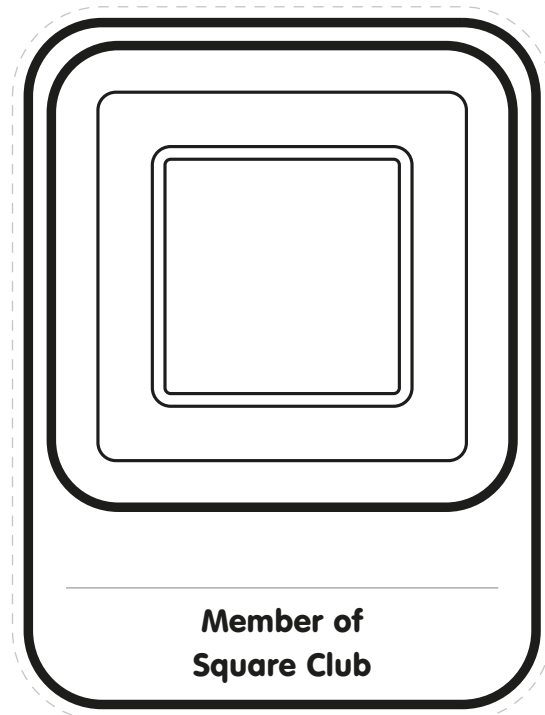

What could be more square?

You're in Square Club

This one is for you
