

Number Explorer Missions

Do 5 little jumps, counting as you go: "1, 2, 3, 4, 5" complete the pattern!

Now do 5 big jumps, counting in tens as you go: "10, 20, 30..." Complete the pattern!

Draw a house for 10 Numberblobs. Now draw another. How many Numberblobs are there altogether?

Add another house and another ten. How many now? Keep going! Can you get to 50 Numberblobs?

Play Together

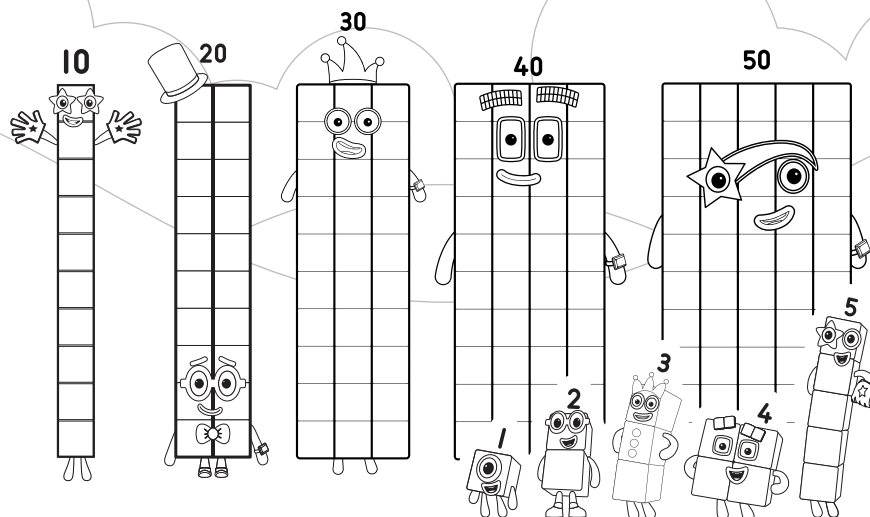

How Many Tens? Cut out your Numberblock Tens and set them aside. Take turns with your little learner rolling a 6-sided dice and challenging each other to put together that many Tens. Count the number of blocks each time. WILD card! If you roll a 6, choose which number you want to make. EXTRA! If your little learner is confident, ask them what the difference is between each number you make.

For your next mission, find the episode 'Fifty'

Land of the Giants

This mission belongs to _____

Who can you see? Who comes next? Shout the names!

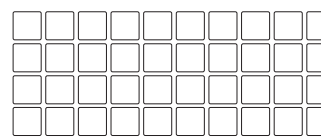

Fact File

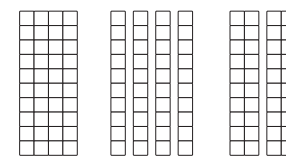

40 is this many:

Forty has
40 blocks:
