

Number Explorer Missions

Find a pair of socks. How many socks is that? Find another pair. How many now? Keep finding pairs until you have 10 pairs of socks. Check by counting in twos.

Look out for pairs of things at home or when you are out. Cheer when you've found ten pairs of things.

Try making 10 jumps, counting in twos each time. "2, 4, 6 ..." can you get all the way to 20?

Go back the way you came. See if you can count backwards in twos starting from 20. "20, 18, 16..." Can you get back to 2?

Play Together

Tremendous Twos. Cut out the Numberblocks and use them to help your little learner with the questions. When you're done, you can use your Numberblocks to practise the two times table.

For your next mission, find the episode 'Circus of Threes'

Two Times Shoe Shop

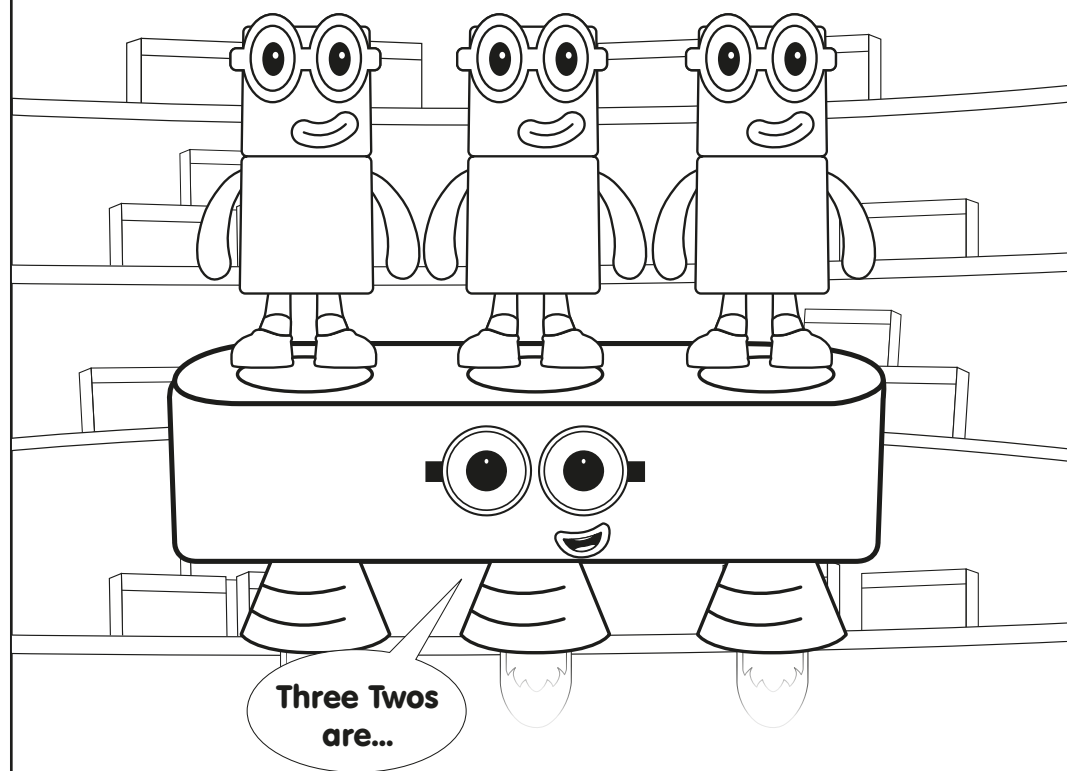

This mission belongs to _____

How many Twos can you see? How many blocks are there altogether? Shout it out!

Three Twos are...

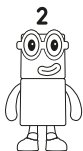

Numbers to 100

Two Times Table

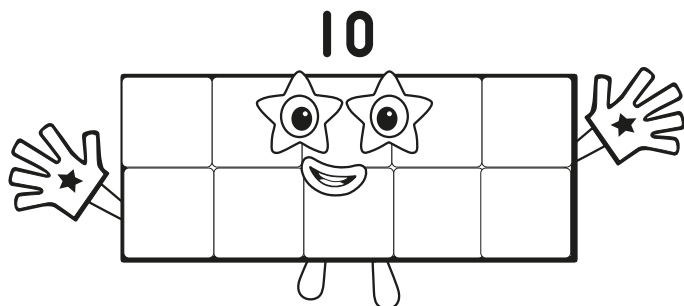

Two Times Shoe Shop

Cut out your Numberblock Twos and use them to help you answer the questions.

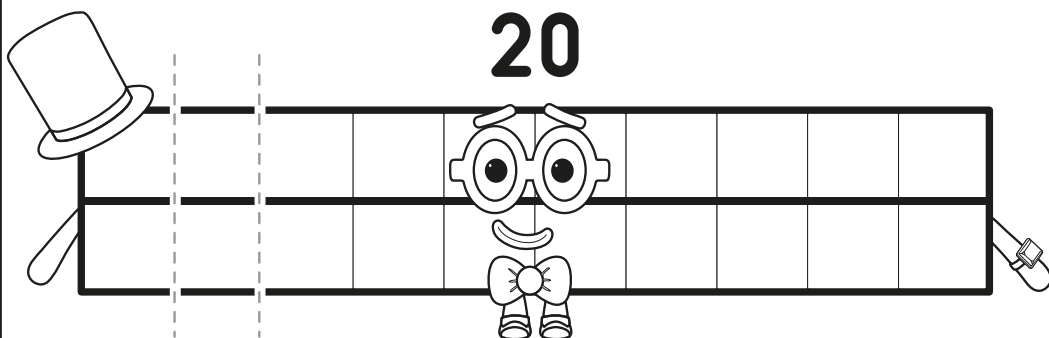

How Many Twos?

How many Twos make Ten? Find out by making your own Ten with the Numberblock Twos!

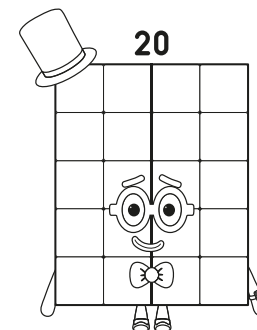

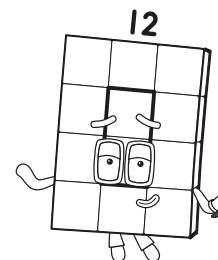

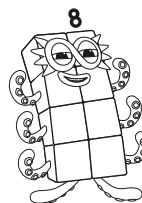

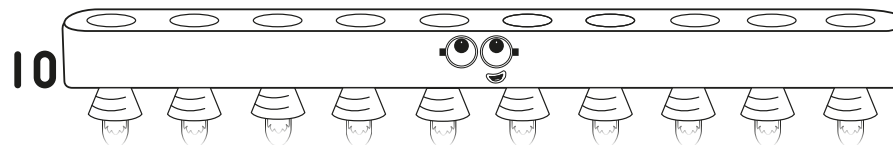

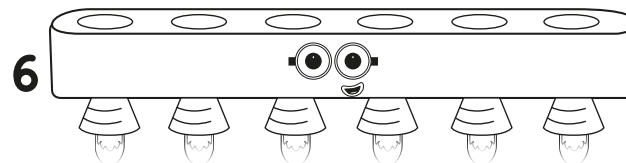

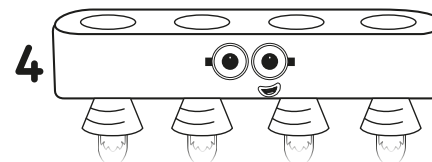

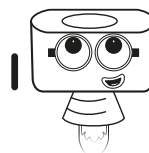

Split Up

Draw lines to split Twenty into Twos. Use your Numberblock Twos and check if you got it right!

Build it Up

Put Twos on each of the Two Times Tables to match the Numberling.

Draw a line to match each Numberblock to their Times Table.

Tremendous Twos
