

Number Explorer Missions

Use a shoe box to make your own theatre! Stick the Numberblocks from your extra sheet to lollysticks, and you're ready to put on a show!

Try counting in fives to see all the friends that make up the Five Times Table. You could use your hands or the Numberblocks cut outs on the extra sheet to help you. Remember, they always end on 5 or 0. 5, 10, 15, 20, 25, 30, 35, 40, 45 and 50.

It's showtime! Put on your own talent show! Invite your grown-up to watch. What's your special skill? Can you jump on one leg or hula hoop? Or maybe you can count backwards from 20.

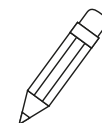

Have some quiet drawing time, and doodle the All-star Line-up. Use the gridded paper on your extra sheet and use the lines to guide you.

For your next mission, find the episode 'Rescue Racers'

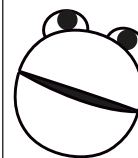

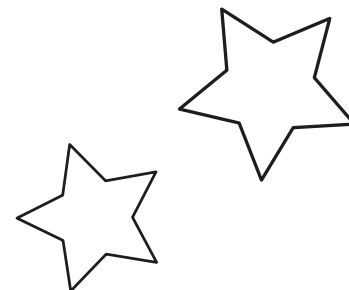

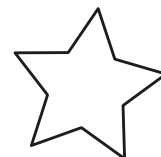

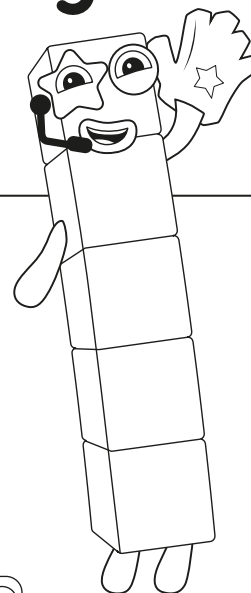

All-star Line-up

This starry adventure belongs to...

Five is hosting a talent show for the Numberblobs! Colour her in!
