

Number Explorer Missions

With your grown-up, and the clock on the extra sheet, practise telling the time. When the big hand is pointing at 12, it means it's 'something' o'clock. The little hand tells you what hour we're on.

Make the clock on your extra sheet to help you tell the time too. When did you wake up? What time did you eat breakfast? What else?

Can you compare the clock from your snip out, with a digital clock on a phone? What do you notice?

Can you find any clocks when you're out and about? How about on a town hall, or in a shop? Maybe you can see one in the car?

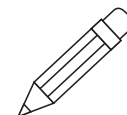

Play Together

Play time bingo with your grown-up. Ask them to write out a few times on a bingo card. They then read out the times and you have to find them on your card and cross them out. Once you've filled your whole card, shout 'bingo!'

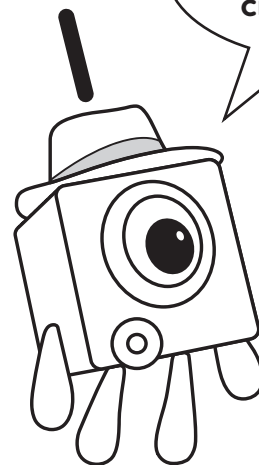

For your next mission, find the episode 'The Great Bug Race'
