

# Number Explorer Missions

Make up some more funny Odd Block Club games. How about singing One Potato, Three Potato?

Write the numbers 1 to 10 on some paper, then snip them out and muddle them up. Ask your grown up to time you and see how quickly you can put the numbers into piles of odd numbers and even numbers.

Find some building blocks and have a go at making Odd Blocks and Even Tops! Add one block onto two blocks. Add one block onto four blocks, keep going. Then take each top block off and you'll make Even Tops!

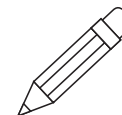

## Play Together

Find the Odd Hop shapes on the extra sheet and put them on the floor. Have fun hopping from each odd number in order. Then try hopping from nine back to one!

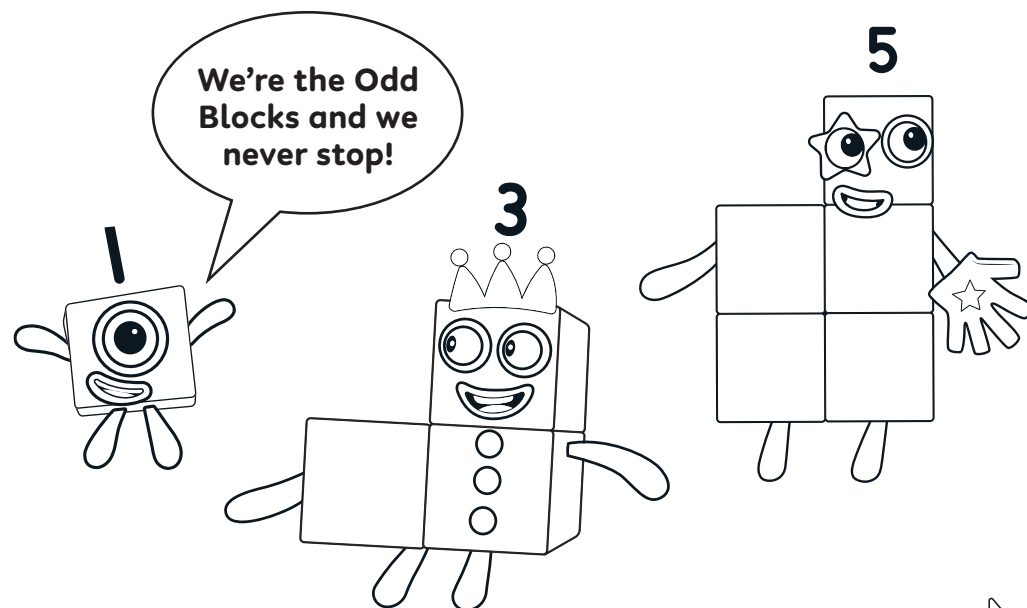

For your next mission, find the episode 'Five Makes a Wish'

# Join the Odd Blocks Club

This mission belongs to \_\_\_\_\_

Welcome to the club! Come and join the fun and games.

1 to 10

Odd Numbers

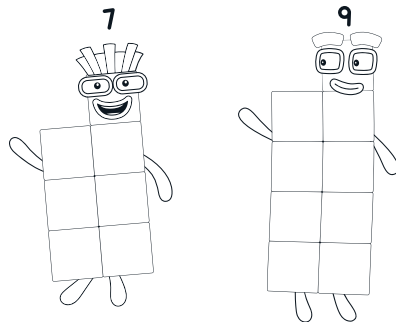

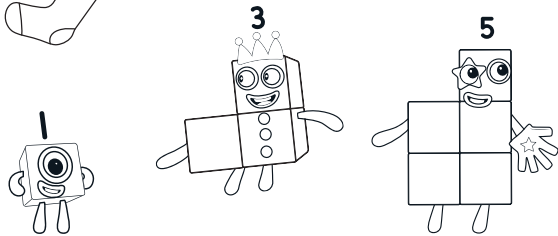

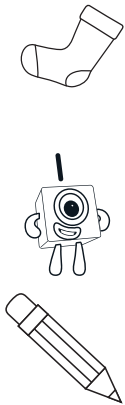

The Odd Blocks Club

# Play Odd Hop

Match each Odd Block to their number. Hop your finger to the number first, then draw a line.

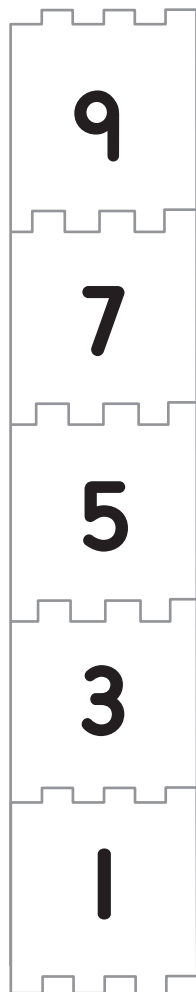

Can you spot 3 odd socks on this page?

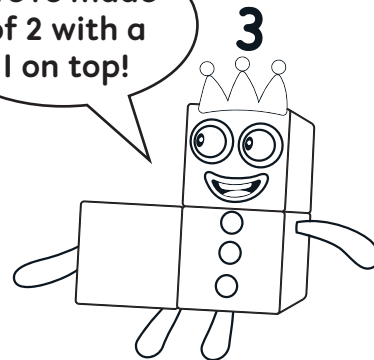

**Tip!**

1 is the first odd number. Then each odd number is 2 more than the odd number before!

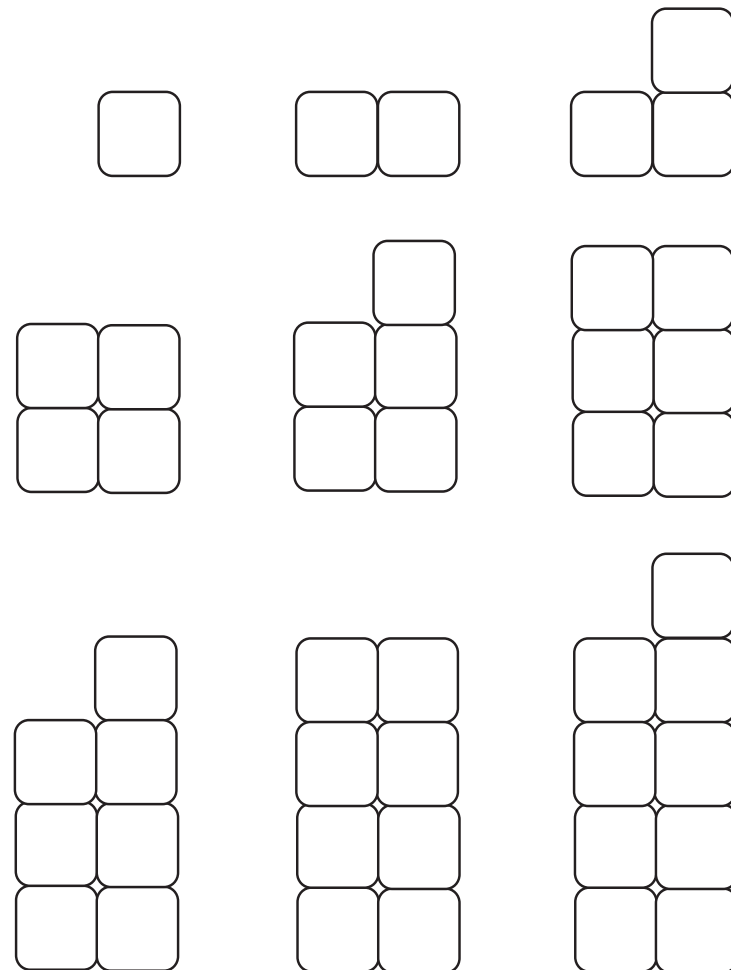

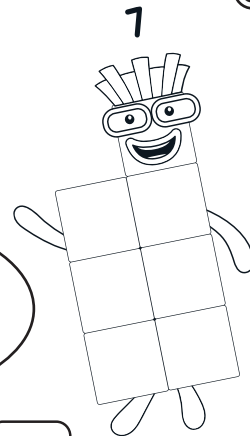

We're made of 2 with a 1 on top!

# Spot the Odd Blocks

Find the snip outs on your extra sheet. Can you put the Odd Blocks on their shapes?

Even numbers have flat tops when they stand 2 wide.

Look! Odd Blocks have an odd block on top.

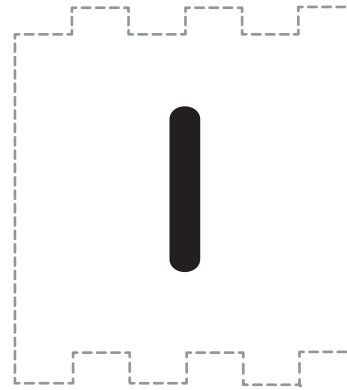

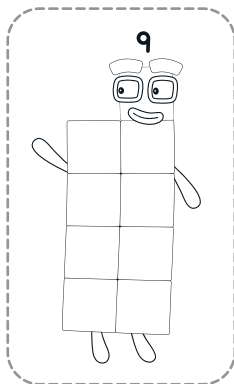

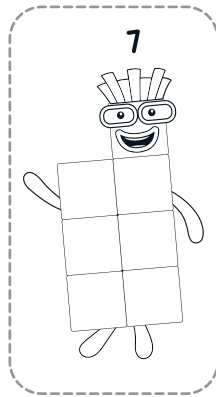

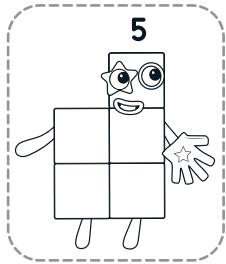

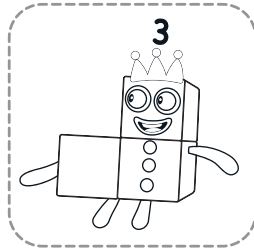

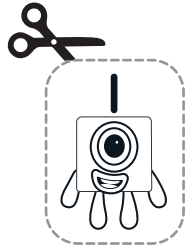

# Club Games

Colour in and snip out everything on this sheet for your Odd Block club games.

Use these shapes to play Odd Hop.

Spot the Odd Blocks on page 3.
