

Number Explorer Missions

Find three plates. Put one above the others. On the bottom plates, put five snacks on one plate and one snack on the other. Now move all the snacks to the top plate. Count how many there are. Try it again with different amounts of snacks!

Draw two racetracks outside on the ground with chalk. Add a finish line. Now race two cars on one track and three cars on the other track. When they reach the finish line, count all of the cars, then swap the cars and the tracks. Count them each time they reach the finish line!

Find your party snip outs on the extra sheet and make a fun party picture. Add to the picture by drawing a party hat on each Numberblob so there are 10. Draw more cakes so that the Numberblobs have one each!

Play Together

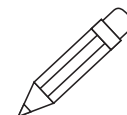

Make up some more missions for the Numberblocks with your grown-up. Ask them to send you on a mission to find one thing for Numberblock One. Then two things for Two, keep finding until you reach 10 and find 10 things for Numberblock Ten!

For your next mission, find the episode 'The Best House Band in Numberland'
