

Number Explorer Missions

Make your own obstacle course using cushions and blankets between two places in your home, like the sofa and the kitchen table.

Have a look at a map. Can you spot landmarks or things you know? What do you notice about the size of everything? What icons are used to show a bus stop or a shop?

Snip out the Octoblock mask from your extra sheet and tie a jumper over your shoulders for a cape. Pretend to come to the rescue and help your grown-up with some jobs, like setting the table or tidying up your toys. What else can you do? Octoblock, go!

Play Together

Play Octoblock says with your grown-up. If you say 'Octoblock says...' followed by an action, your grown-up has to do that action. If you just say an action, without 'Octoblock says...' at the start, they should stand still! If they move when they're not supposed to, you've won the game!

For your next mission, find the episode 'Shape Party'.
