

?? I wonder..??

Find your ice cream snip-outs on the extra sheet. Stick the cone at the bottom of a piece of paper. Then have fun adding as many ice cream scoops as you like. Will you make a pattern with the colours? Say "again!" each time you stick on a scoop!

When you're out and about, see if you can find a snail. Look closely at its shell, can you see a pattern that repeats again and again?

Can you think of more patterns that happen in nature? How about animals, such as a zebra? What patterns do they have? Can you have a go at drawing them?

Well done!
