

Colour Explorer Missions

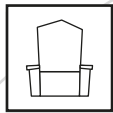

Experiment making lighter and darker greens. What happens if you mix more white to the green? How about more black?

Draw a pond, and use the different greens you've made to fingerprint lilypads. Can you use your other fingers to print little frogs on top of them? Doodle a happy face for each one.

Go on a nature walk and spot lots of different greens. Ask your grown-up to take pictures as you go, so you can make a green library to look back at.

Try this tongue twister:
Giggling Green gives great gifts!

Cut out and wear your special badge!

I made different greens!

This cool quest belongs to...

Black and White help to make colours lighter and darker.

Green is life, life is green!

Who are these colour friends?
Shout out their names!

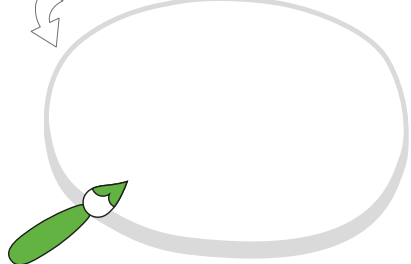

Level 3

Making colours lighter or darker

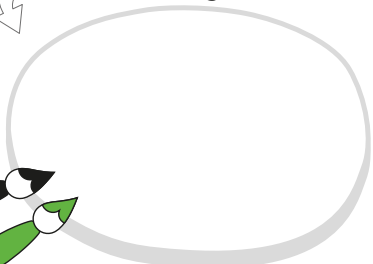

Shades of the Forest

Pop some newspaper down. Grab an apron and some green, white and black paint.

Blob on some green paint here. Ooh so bright!

Blob some green paint here, with a tiny blob of black. Mix to see a darker green.

Blob some green paint here, then add a little blob of white. Mix to see a lighter green.

Use these shades to paint your picture!
