

# Colour Explorer Missions

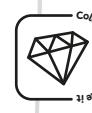

Experiment with more colour mixes. What happens if you mix red, yellow and black? How about purple and orange?

Use the colour combinations below to paint a picture with lots of shades of brown. You could make brown leaves falling from a tree, a yummy chocolate milkshake or a funny muddy puddle.

Collect some things around your home, like a red apple, a green pear, a yellow banana, a purple toy, an orange, a blue book and a black remote. Hold 2 or 3 items up and say: Red and green make brown! How many combinations can you think of that make brown?

You can make brown in lots of different ways, using different amounts of paint! Try mixing these colours!

Blue, red and yellow

Green and red

Orange and black

Purple and yellow
