

# Number Explorer Missions

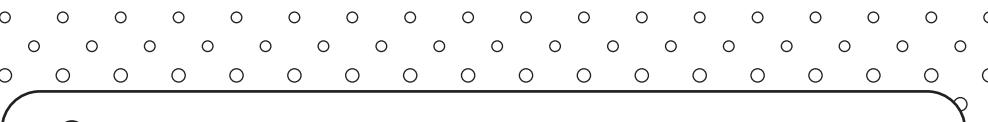

Count 5 steps forward.  
How many more steps do you need  
to get to 10?

Count 6 hops. Keep hopping until  
you get to 10. How many more hops  
did you count?

Hold up 10 fingers. Now fold 2  
down, how many fingers are left?

## Play Together

Ten steps. Find a place with a lot of space. Ask your little learner to shout out a number between 1 and 10. Count that many steps forward and ask your little learner to help you figure out how many more steps you need to get to 10. Take turns shouting out numbers and counting steps (your little learner should figure out the difference to 10 each time.)

For your next mission, find the episode 'Flatland'

# Ten Again

This mission belongs to

---

Print pages 1 and 2 double-sided and fold in half to make a booklet

Level 2

Pairs of numbers  
that total 10

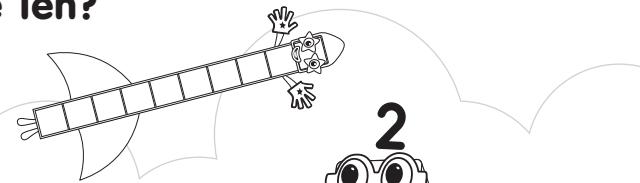

Ten Again

## Get ready!

Cut out all your Numberblock Ones and use them to help you answer the questions.

### Who is it?

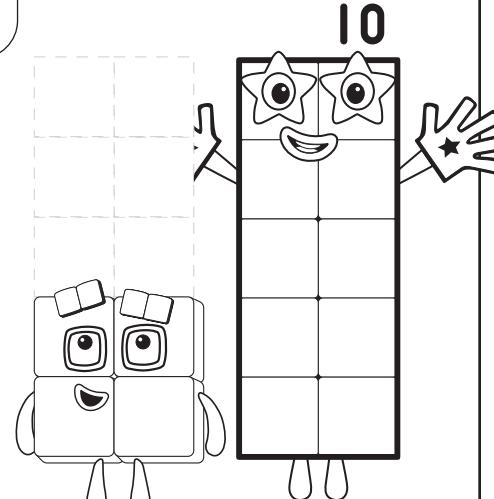

Which Numberblock does Two need to make Ten?  
Shout it out!

### Draw the Blocks

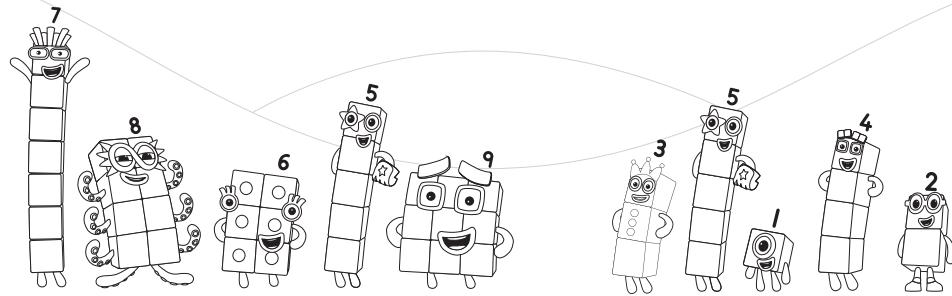

How many more does Four need to make Ten?

Draw the right number of blocks above Four.

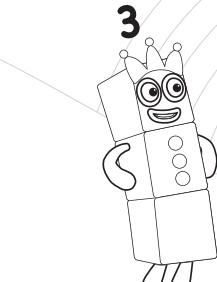

## Match up!

Draw lines to match the Numberblocks that can make Ten together.

### Count and draw!

Which Numberblock does 3 need to help them make Ten? Draw them!
