

Number Explorer Missions

4

Give your grownup 10 high fives

Walk 10 steps forward, counting in 5s as you go: "5, 10, 15, 20..." Will you end up at 50?

Can you spot a 5 and an 0 when you're out and about? Can you spot them together?

Make 10 handprints with paint, or draw around your hand ten times. How many fingers can you count altogether?

Play Together

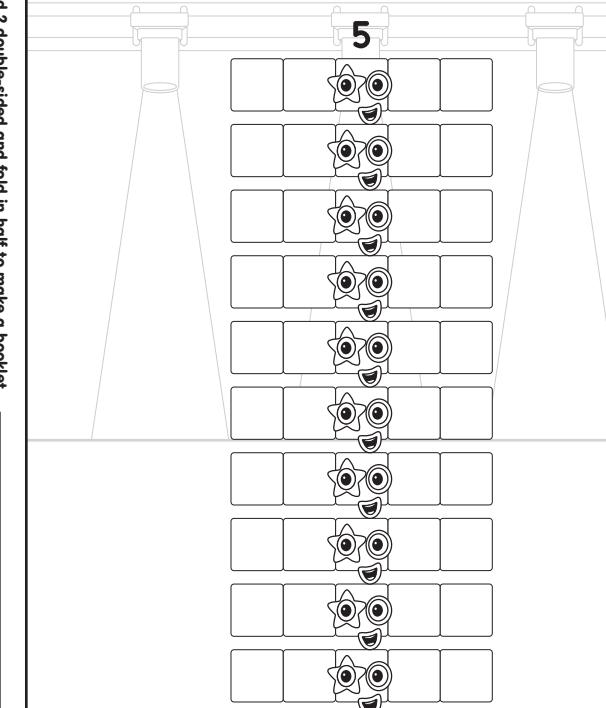

Fifty Grid! Find the grid on the extra sheet and then try this fun idea. Get two different coloured pens and take turns colouring in a row of 5. Count how many 5s you did. Who did the most? Or did you both do the same?

For your next mission, find the episode 'How Rectangly'

Fifty

This mission belongs to _____

How many Fives can you see?
How many blocks can you count altogether?

Level 4

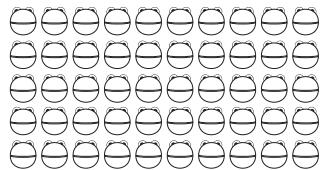

Meet Fifty,
Counting in 5s

Fifty

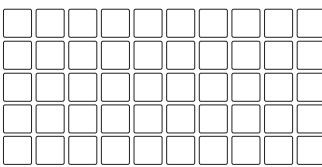

Fact File

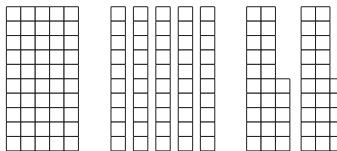

50 is this many:

Fifty has
50 blocks:

Fifty is... 50 ones, 5 Tens,
Twenty-Five and
Twenty-Five

Superstar counting

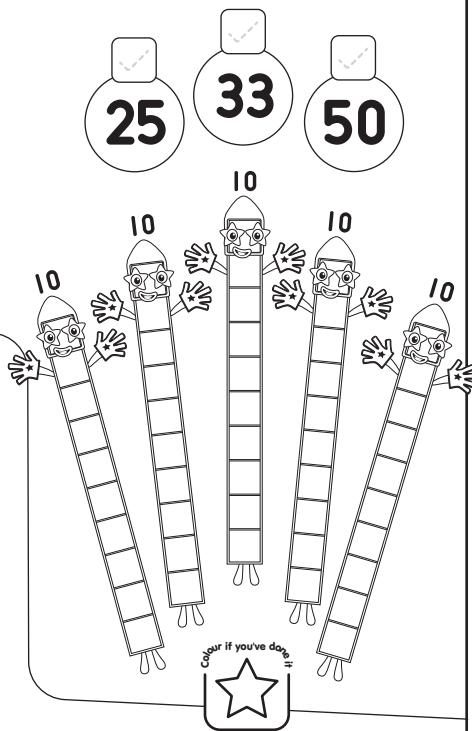

2

How many blocks are there altogether? Tick the right number!

Draw the blocks

How many more Numberblock Fives do you need to make Fifty? Draw the right number of blocks.

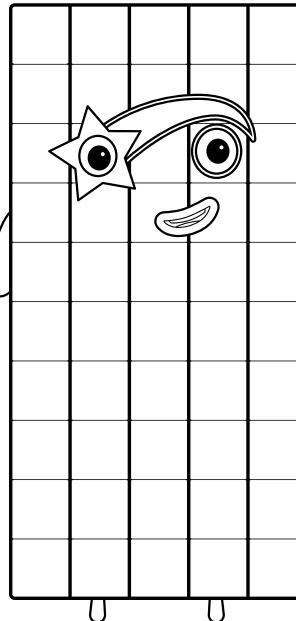

Find it!

3
