

# Number Explorer Missions

Have your own race too! Line up a path in your home or at the park, and pretend to be zooming like Forty-two and Forty-eight. Ready, set, RACE!

Pretend you have a teleporting belt, just like Forty-two! Where will you teleport to? Perhaps your bed? Or maybe even into space? You choose!

Draw out a longer obstacle course for Numberblocks Forty-two and Forty-eight from your extra sheet. They could zoom over a card bridge or through a book tunnel, or maybe even under a card gate! What else?

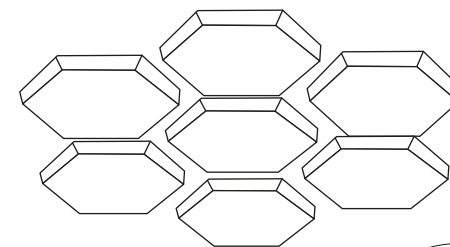

Find your extra sheet to discover fun facts about Numberblocks Forty-two and Forty-eight!

For your next mission, find the episode 'The Rolling Sixes'

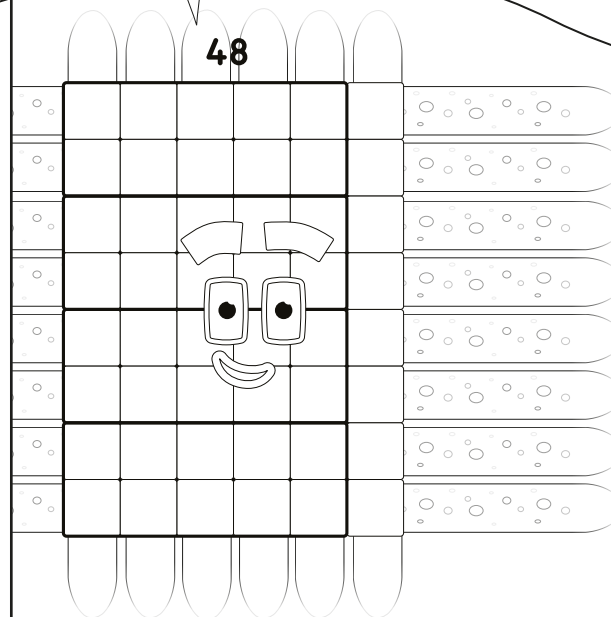

# Rescue Racers

This cool quest belongs to...

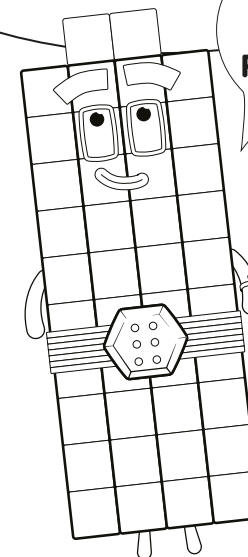

I'm Forty-eight, activate!

Toodle-oo from Forty-two!

Get to know Forty-two and Forty-eight!

Level 4

Meet Forty-two and Forty-eight

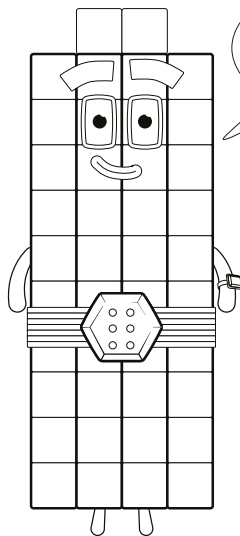

Rescue Racers

# Rectangle friends

2

Look at how Forty-two and Forty-eight are made.

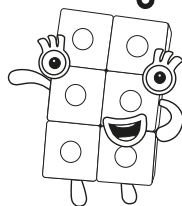

42

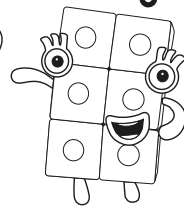

Forty-two is made of...

Super Sixes or...

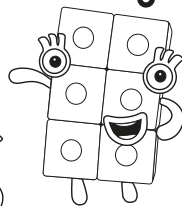

6

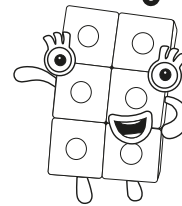

6

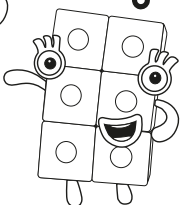

6

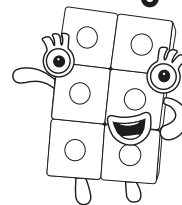

6

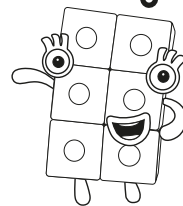

6

6

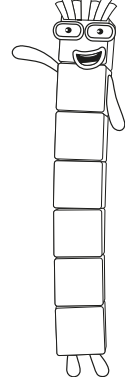

6

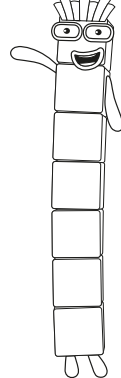

...lucky Sevens!

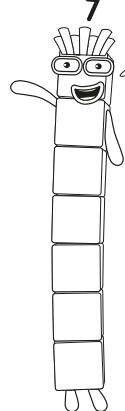

7

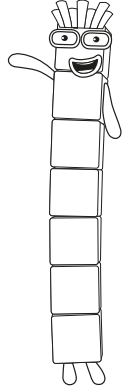

7

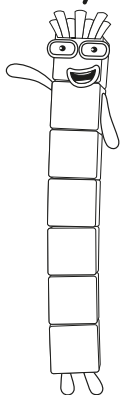

7

7

7

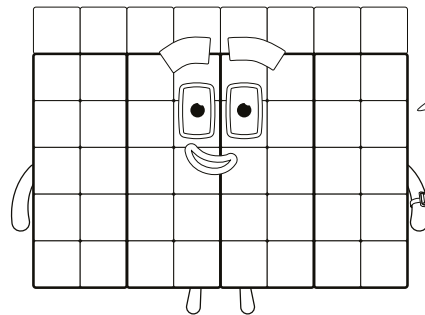

Draw a circle around all of the Sixes and another circle around all of the Sevens.

How many Sixes did you group?

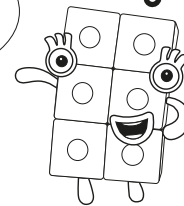

How many Sevens did you group?

48

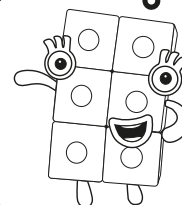

Forty-eight is made of...

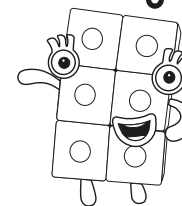

6

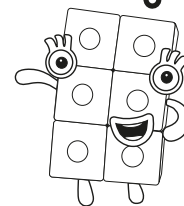

6

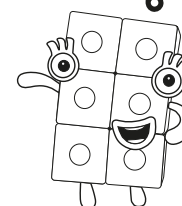

6

6

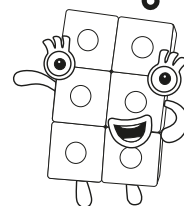

6

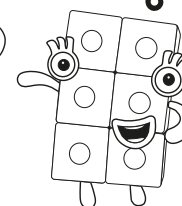

Chunky Sixes or...

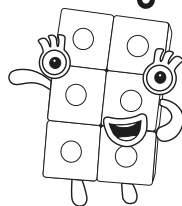

6

6

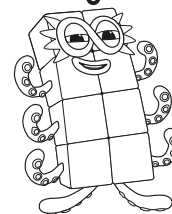

6

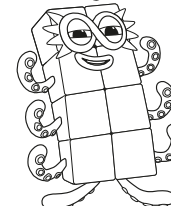

...chunky Eights.

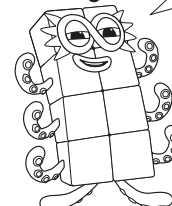

8

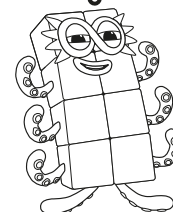

8

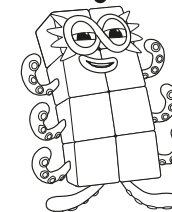

8

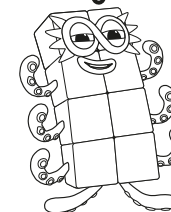

8

8

8

Draw a line to group all the Sixes and Eights.

How many Sixes did you group?

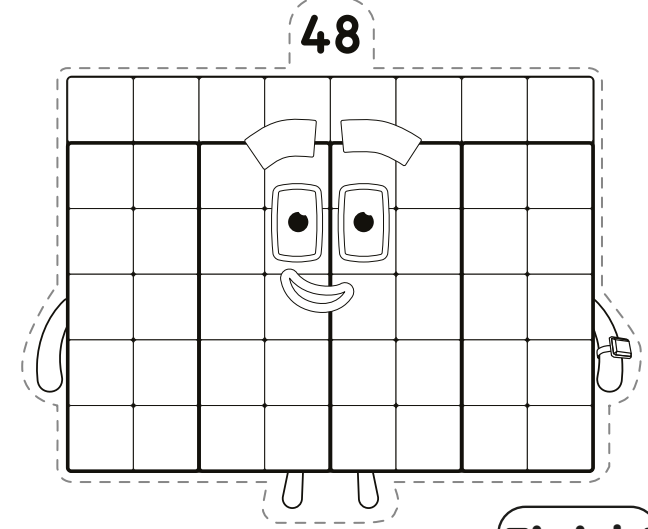

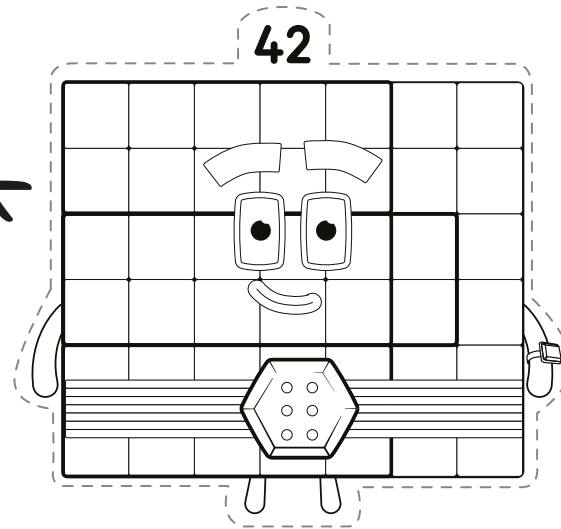

How many Eights did you group?

# Race the rays

Play a fun rays racing game with  
Forty-two and Forty-eight

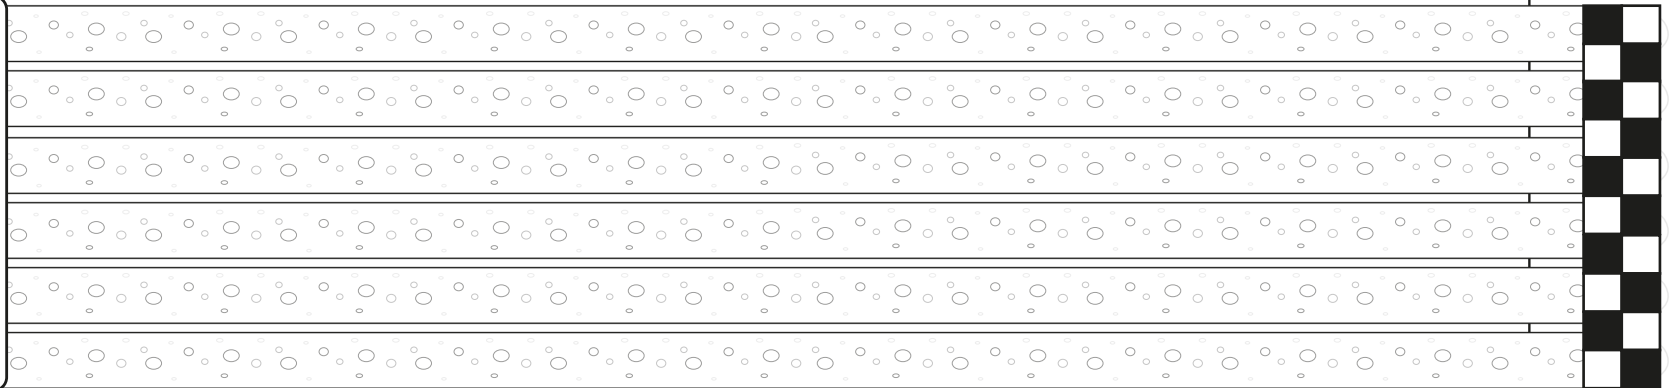

## How to play

1. Snip the friends and place them on start!
2. Choose who will be Forty-two and who will be Forty-eight.
3. Use a straw to see who can blow the Numberblock to the end the fastest! The best of 3 wins!

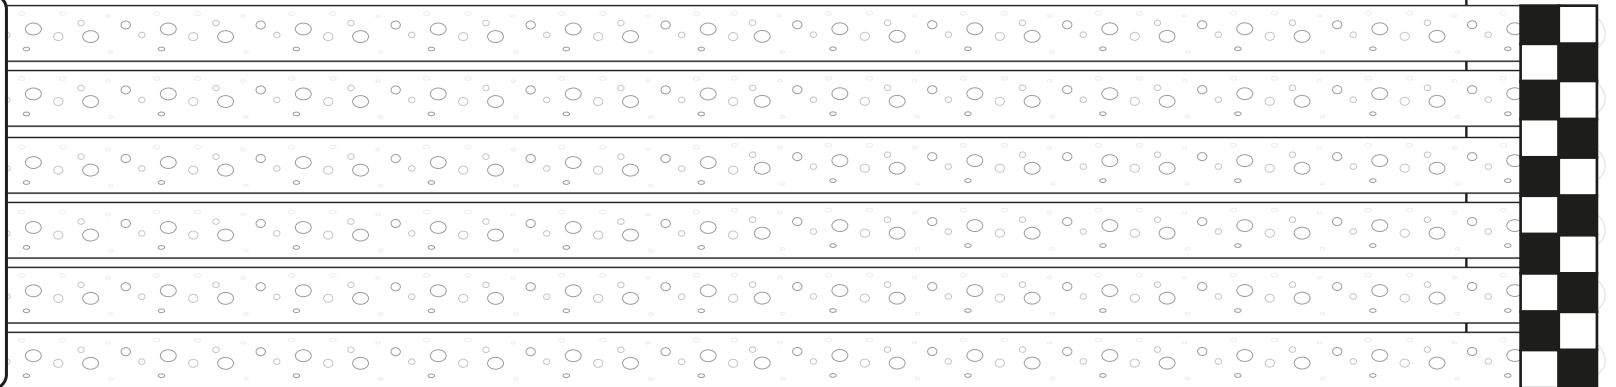

**Start!**

Place Numberblock  
Forty-two in their 6  
by 7 array here.

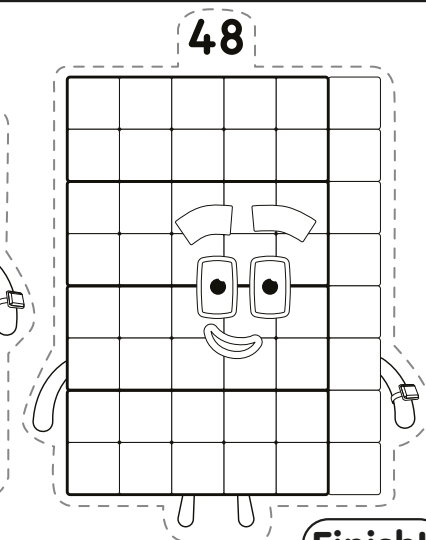

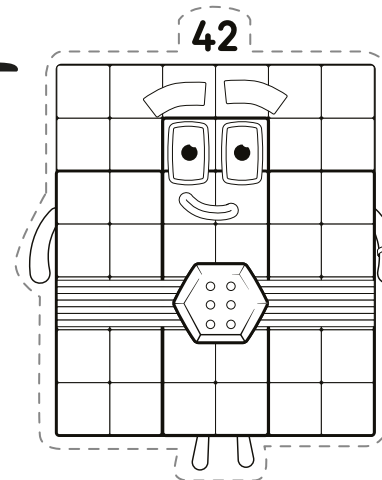

**Finish!**

Place Numberblock  
Forty-eight in their 6  
by 8 array here.

# Race the rays

Now try racing using these tracks instead!

Start!

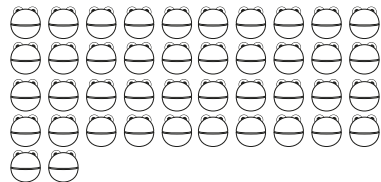

Place Numberblock  
Forty-two in their 7 by  
6 array here.

Finish!

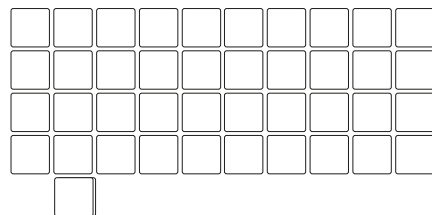

Place Numberblock  
Forty-two in their 7 by  
6 array here.
