

Colour Explorer Missions

Create a green go sign and a red stop sign from card. Place some of your toys in 2 or 3 lines. Use the green sign to let one line move, then red to stop them. Now it's the next line of toys' turn to go!

The world is full of colour, and you can have fun with it! Pop some messy paint clothes on. Unfold a cardboard box and place it on the pavement. Now blob different coloured paints on the card and have fun moving it around. What happens if you squirt the paint from high up? What a masterpiece!

Try marble painting! Place white paper at the bottom of a cardboard box. Blob in different colours of paint. Drop a marble or a pebble into the box, and tilt the box from side to side to create patterns in the paint.

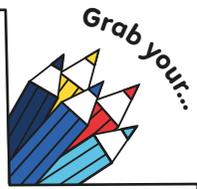

Play Together

Play red light, green light with your friends or family. Have the players stand in a line behind you. You face a wall in front, and when you say 'green light' the players can move towards you. When you say 'red light', they have to stay very still! Turn around to check. If anyone moves, they're out. Keep going until you're the only one left, or one of the players reaches you!

For your next mission, find the episode 'It's a Grey Day'

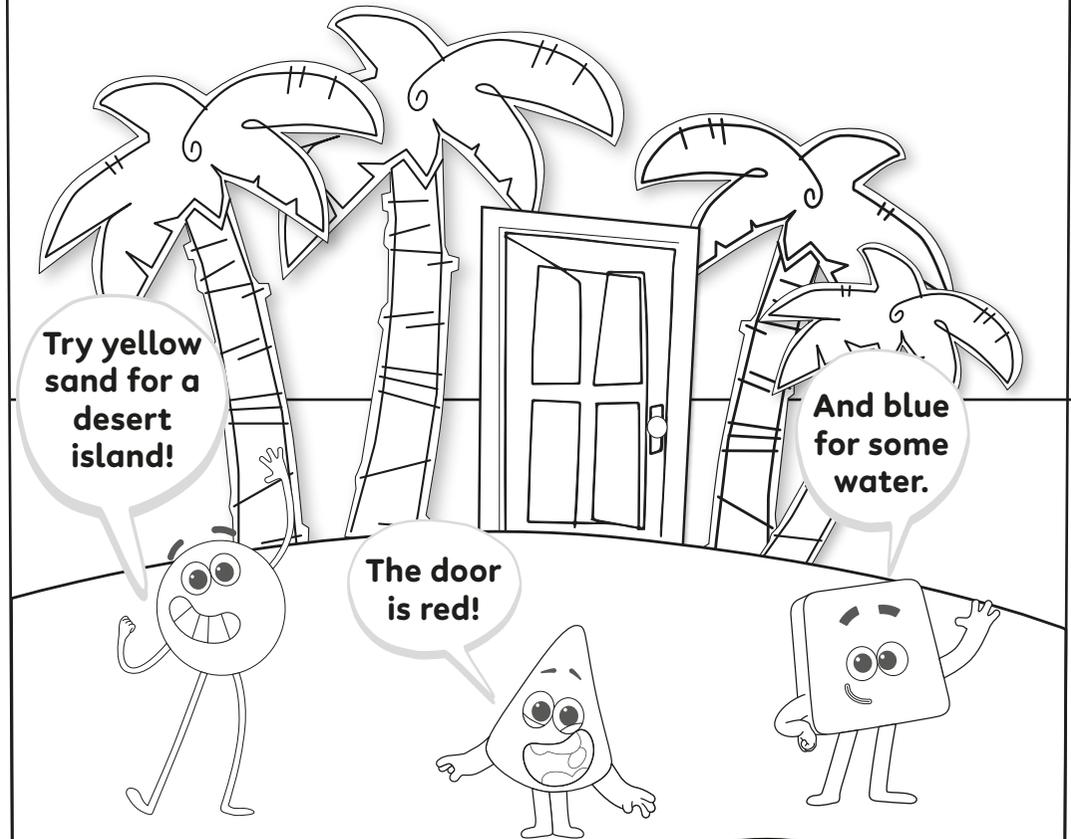

Fun with Colours

This fun quest belongs to...

Help Red, Yellow and Blue colour in the world around them.

Level 5

Fun with Colour

Fun with Colours

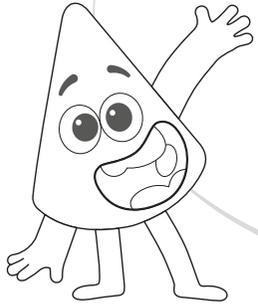

A colourful world!

Follow the trail, then doodle and colour along the way.

START

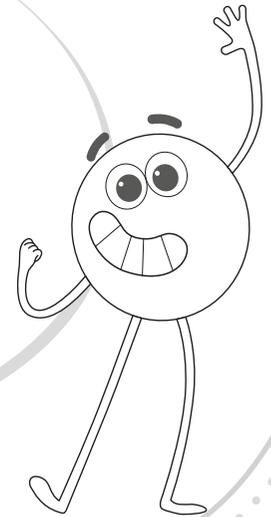

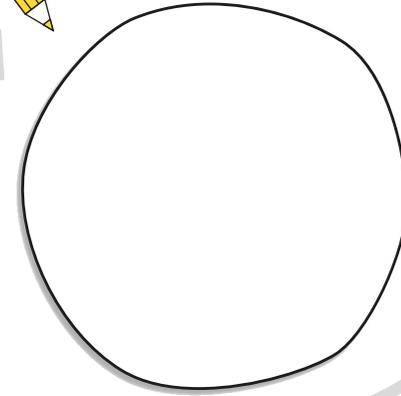

Red!

Doodle a red toy here.

Yellow!

Colour a bright sun here.

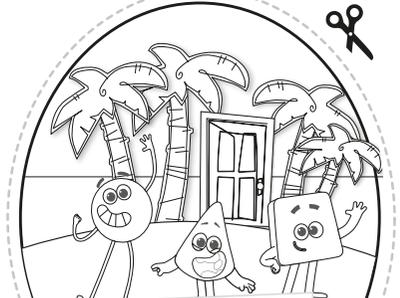

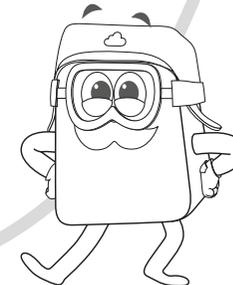

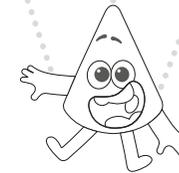

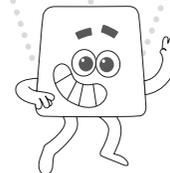

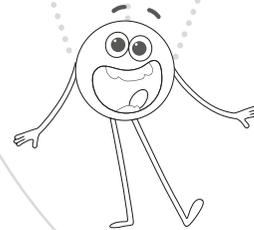

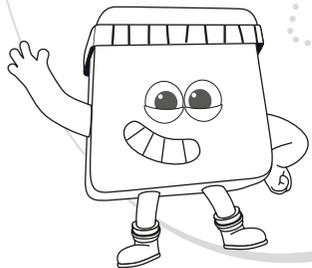

Sky blue!

Draw some sky blue parachutes for the friends.

FINISH

Dark blue!

Squiggle to turn these shapes into sea creatures

I'm a mega colour fan!
