

# Colour Explorer Missions

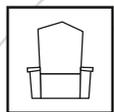

Go on your own colourful journey to discover all the wonderful colours out there! Bring the cut-outs from your extra sheet with you. Can you see any of the colours you've met so far?

Use all the colours you've met to make one big mural! Let all the colours shine! You could group similar colours together or mix them all up... or both!

Find clothes in all different colours. You could wear one yellow and one red sock, a green hat, a purple top and blue trousers. What else can you find? The more colours the better, and be silly with it!

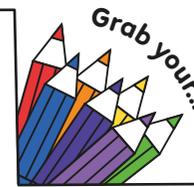

Can you remember the names of all the colours you've met so far? Where might you find them? Deep Blue is deep under the sea, and Sky Blue is high up the sky! Who else?

For your next mission, find the episode 'It's a Colourful Christmas'
