

Number Explorer Missions

Can you say Five's rhyme?
1, 2, 3, 4 standing straight,
and here comes 5 to make the gate!

Find some twigs and use them to count things when you're out and about! How many white cars can you see in 5 minutes? How about red? Remember you can use the sticks to count in 5s.

Count and tidy your toys! As you put each toy away, draw a stick in a note book to keep track of how many you have of each one.

Play Together

Add it up! Find some pebbles and place them in a bowl. Use a big spoon to spoon some out. Can you quickly group the pebbles into 5s to count how many you spooned out? Now switch and let your grown-up have a go!

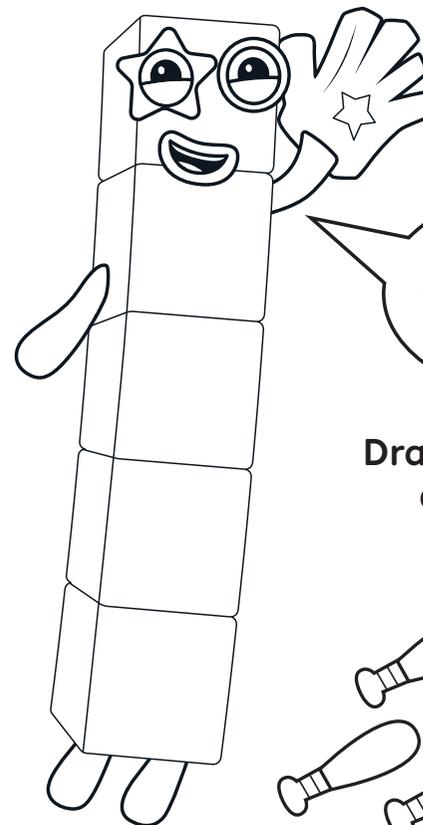

For your next mission, find the episode 'Five's Fruit Festival'

Quick Counting

This mission belongs to _____

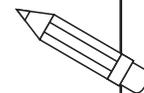

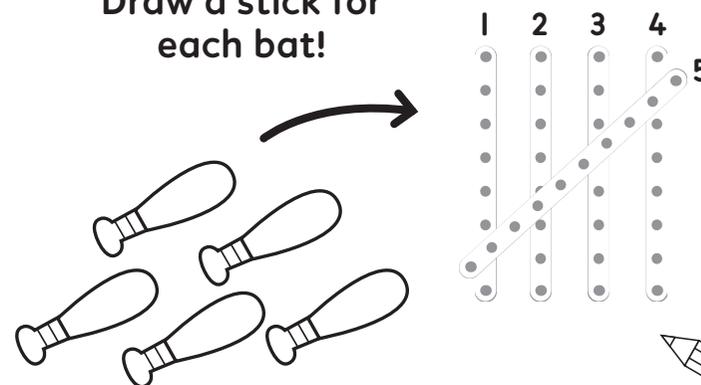

5

Did you know you can count quickly using a stick system?

1, 2, 3, 4 standing straight, and here comes 5 to make the gate!

Draw a stick for each bat!

Level 4

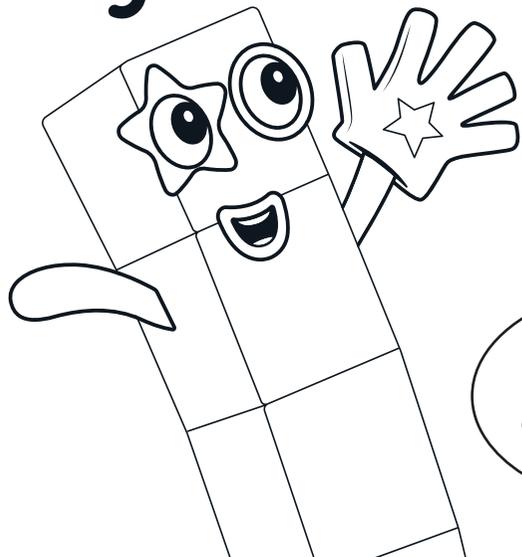

Data handling

Back in the Box!

Back in the box!

5

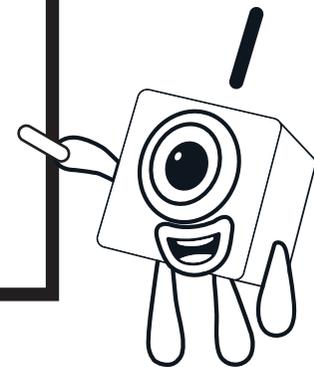

Snip out the toys on the extra sheet. Pop them in the correct boxes.

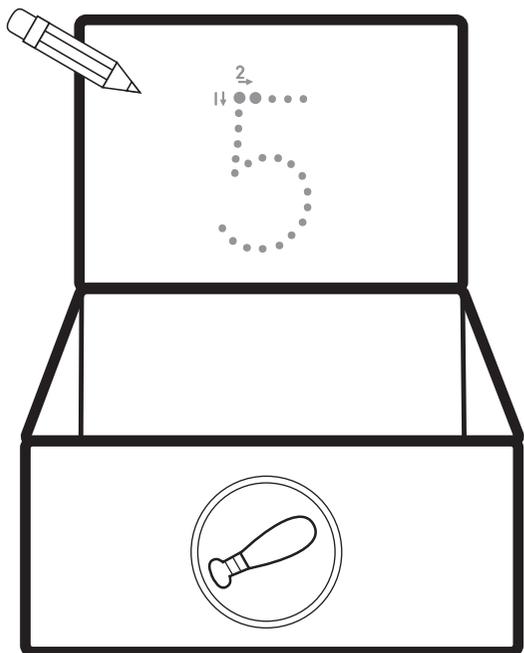

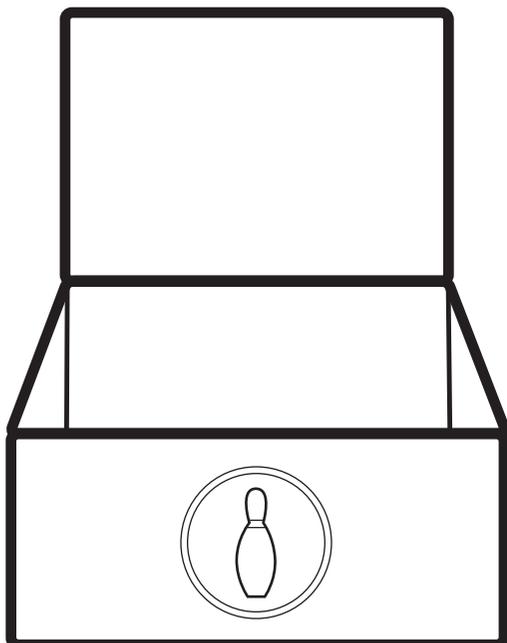

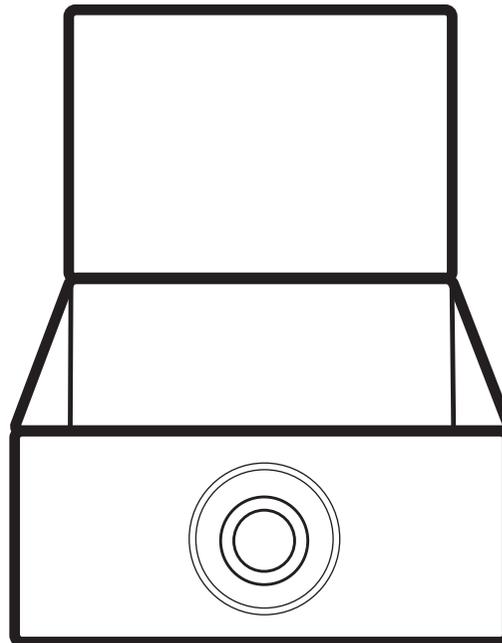

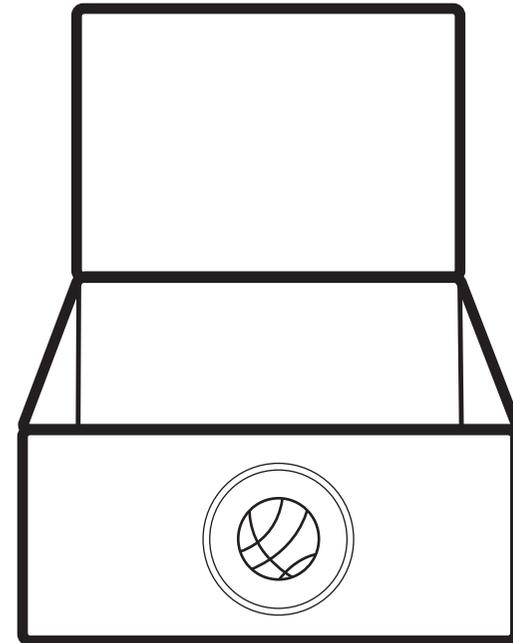

Draw a stick on the board for each toy you put in a box!

Don't forget to say Five's rhyme!

Look at the board and add up the total amount. Write the number on the toy box lid!

Snip-outs

Colour and cut out the toys, then sort and count them inside your booklet!
