

Number Explorer Missions

Ask your grown-up to help you write out the days of the week at the bottom of a piece of paper. When you eat a piece of fruit, draw its picture above that day. See which fruit you had most at the end of the week!

Try this idea too! On another piece of paper, choose something for your grown-up to fill in on the days of the week - they could draw a picture each time they have a hot drink!

Play Together

Make a pictogram to see which colours your family or friends like. Add a scribble or a picture of as many colours as you like at the bottom of a piece of paper. When someone chooses a colour scribble or draw above their choice. If someone else chooses the same colour, scribble or draw above the first one, then you'll easily see that two people like that colour. Which colour is the most popular?

For your next mission, find the episode 'I'll Vote for That'

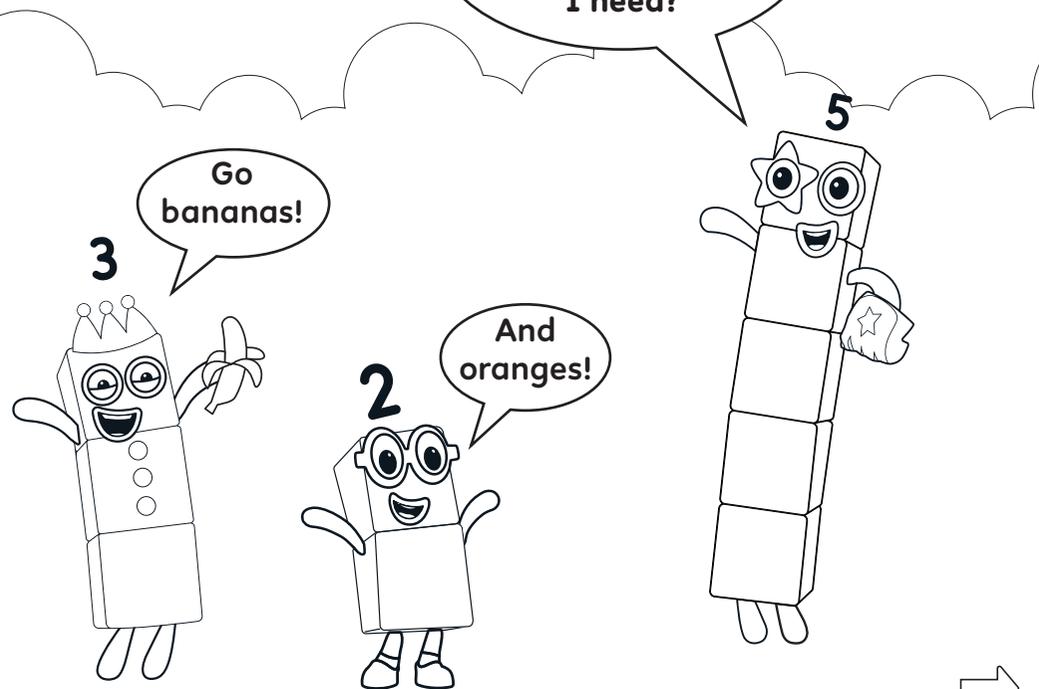

Five's Fruit Festival

This mission belongs to _____

Help Five work out how much fruit she needs for the festival.

I'm having a fruit festival! How much of each fruit will I need?

Level 2

Pictograms

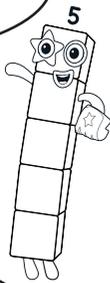

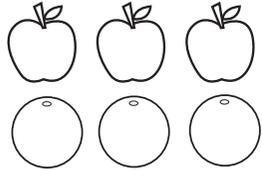

Five's Fruit Festival

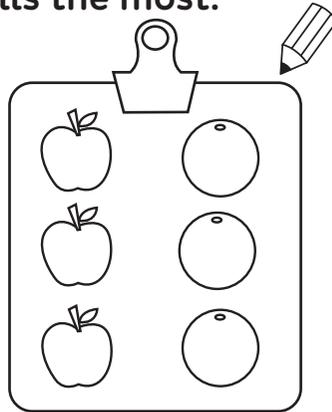

Fruit Shop

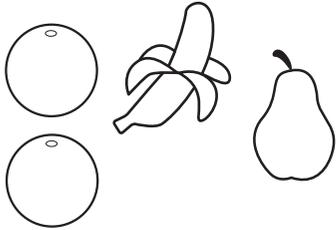

Three apples and three oranges please.

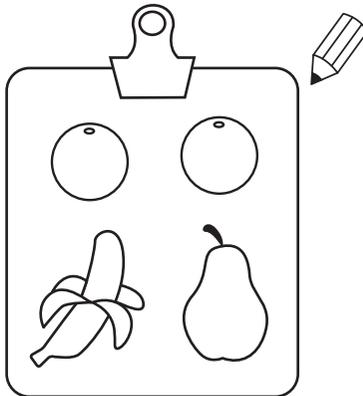

Colour in the fruit.

Two oranges, one, pear and one banana please.

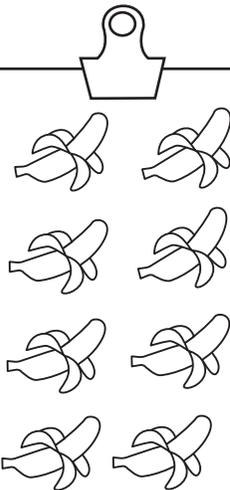

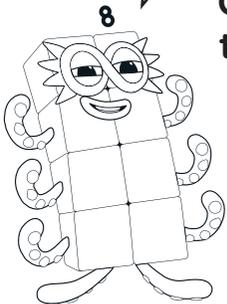

Colour in the fruit.

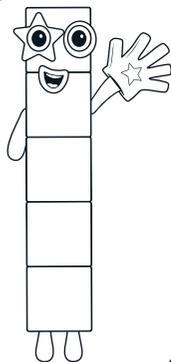

Eight bananas please!

Colour in the fruit.

But I can't tell which fruit I need the most of for the fruit fair!

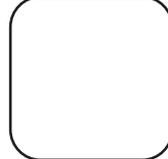

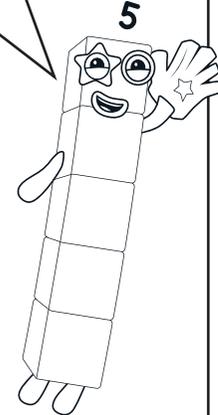

2

Pictogram

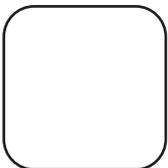

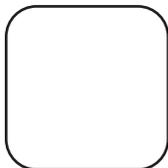

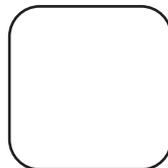

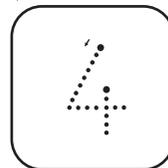

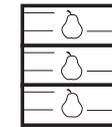

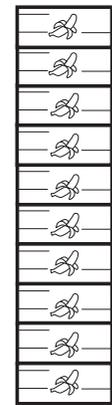

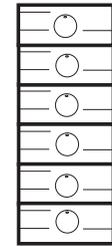

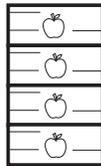

Write how many of each fruit is on the chart.

So, I need apples, oranges, lots of bananas and not many pears for the fair!

Write the number of crates in each stack to make sure Five has enough for the fruit fair.

Are there lots of bananas?

Yes!
