

Number Explorer Missions

Draw a nature picture with your grown-up. Find a scene you like, and draw one half each!

With a grown-up, try slicing an apple or a banana into equal parts. Can you see that all the parts together makes 1 whole?

Find 12 pebbles. Can you split the pebbles into two piles, so both piles are the same? How about 3 equal piles? Now try splitting them into 4 equal piles.

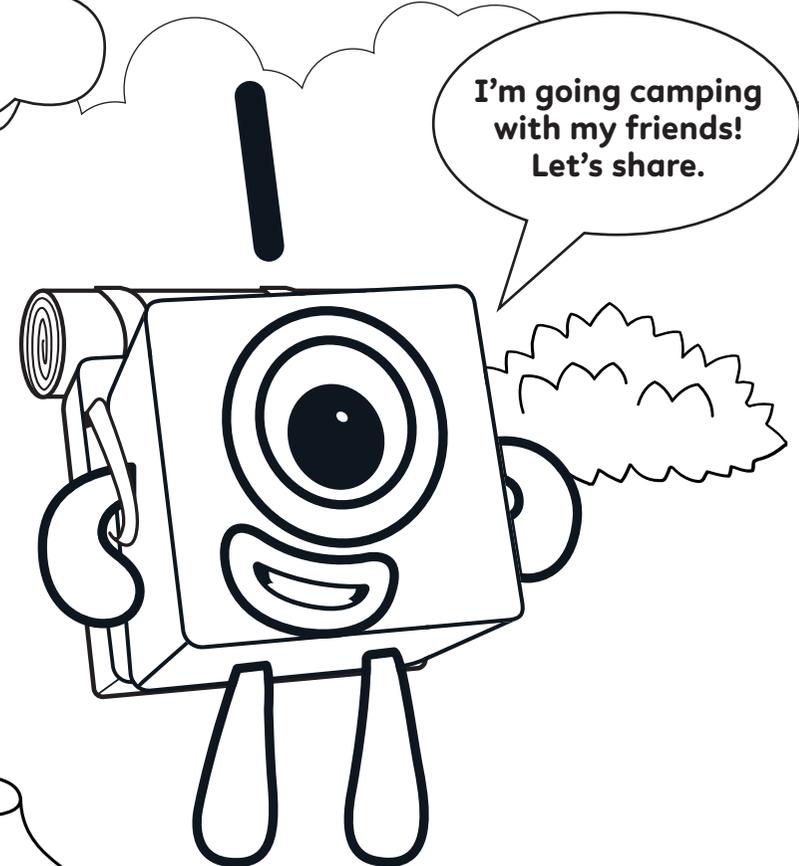

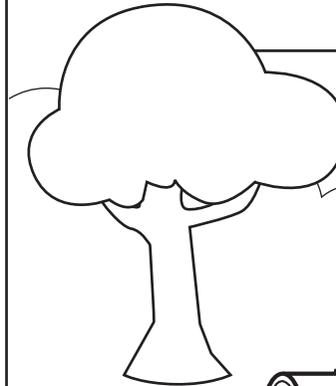

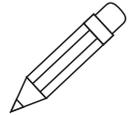

Play Together

Use blankets and pillows to make your own tent inside! Can you split the tent equally between you, your grown-up and your teddies?

For your next mission, find the episode 'The Mystery of Fraction Island'

Happy Campers

This mission belongs to _____

Level 5

Equal parts

Happy Campers

Let's share!

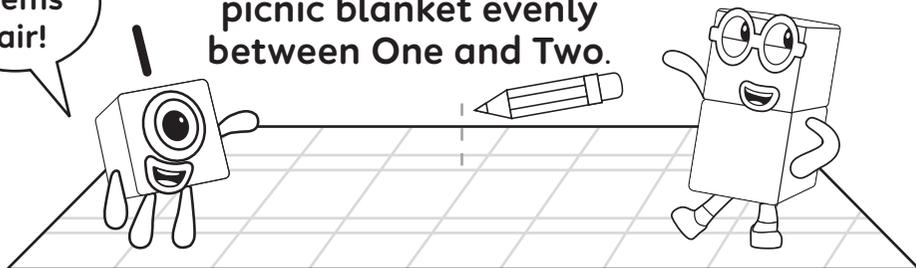

Can you help the Numberblocks share things fairly?

2

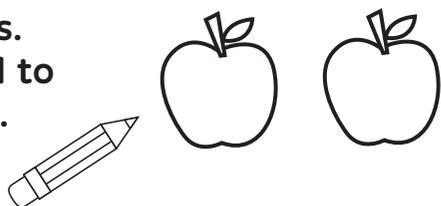

This seems fair!

Draw a line to split the picnic blanket evenly between One and Two.

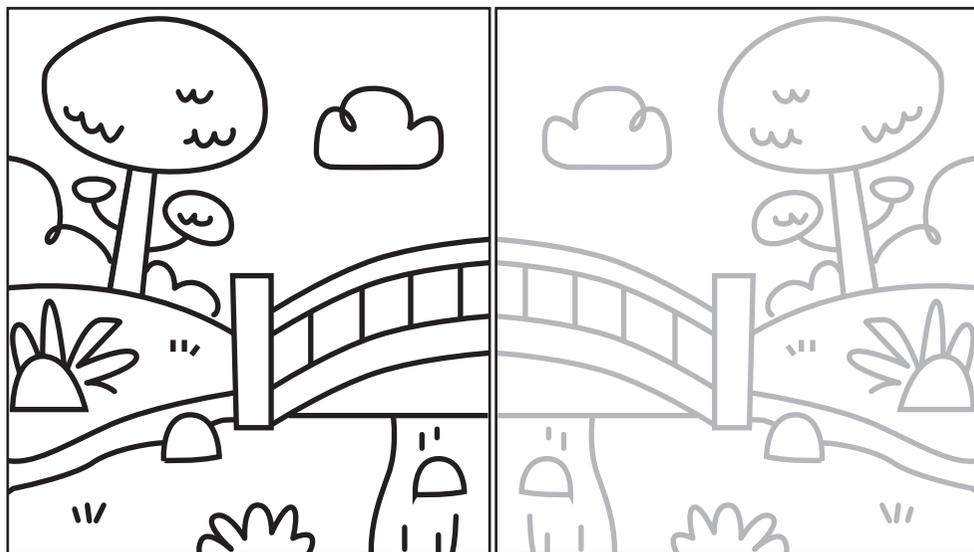

2

There are 2 apples. Draw a line to give 1 to One and 1 to Two.

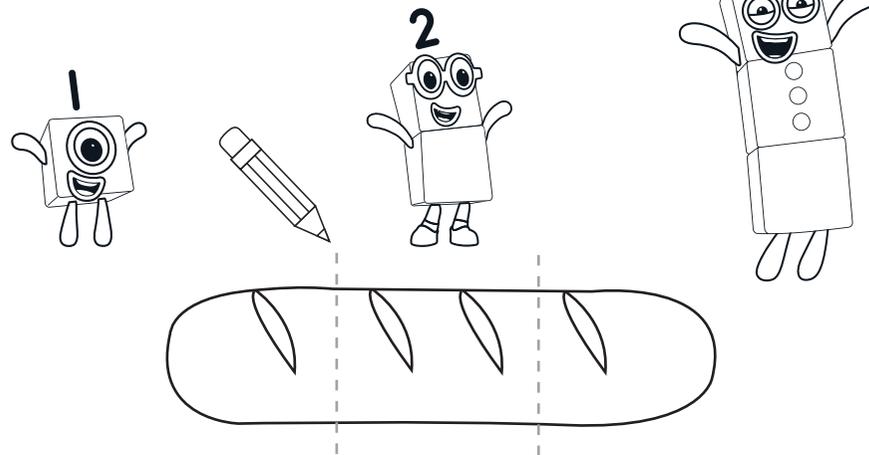

One and Two have drawn 2 halves of a picture! Can you trace over the grey lines to make 1 whole picture?

Can you split the yummy baguette into 3 equal parts?

3

Look, Four has 1 big tent! Can you count how many equal spaces it is split into?
