

Number Explorer Missions

Make five towers of 10 with different coloured building blocks. Take away one tower and say how many blocks are left. Try taking different amounts of towers away and saying what's left.

Find the Tens on your extra sheet. Quickly line some up, see if you can say how many there are, just by looking!

Ask your grown-up to say a number that's more than 10. Can you say how many tens it has?

Play Together

Play a 'Forest of Tens' game with the Tens on your extra sheet. Choose a room to be the forest and ask your grown-up to hide the Tens. Then search around and see if you can find them all! Don't forget to wear your badge on your forest adventure.

For your next mission, find the episode 'All The Numbers I can Be'

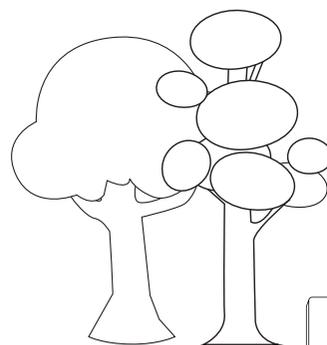

The Forest of Tens

This mission belongs to _____

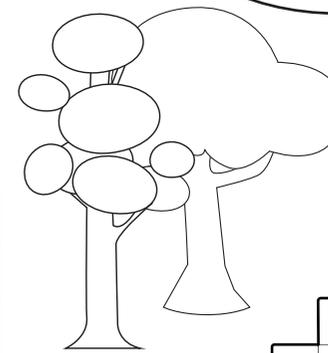

What do Numberblocks Thirty-Six and Forty-Five need to find again and again?

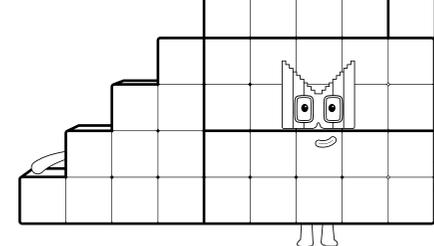

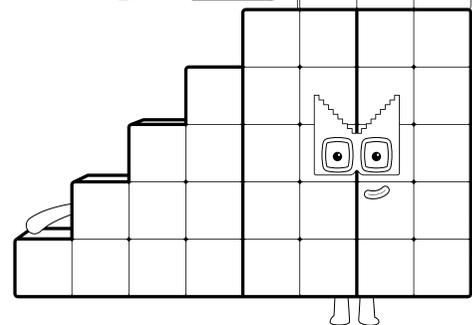

We're on a special quest for Numberblock Ten!

36

45

Level 4

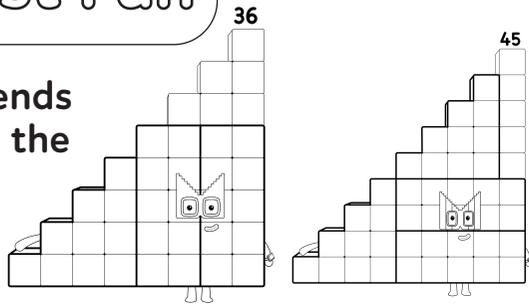

Composition of Numbers

The Forest of Tens

Forest Fun

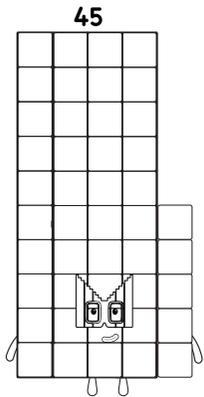

Help the friends get through the forest.

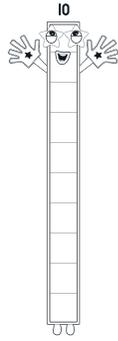

We're looking for something again and again!

2

Write the numbers to help Forty-Five find the way.

$45 - 10 = \square$

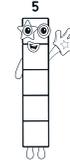

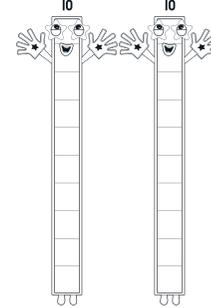

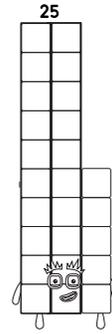

Stick on the Numberblock!

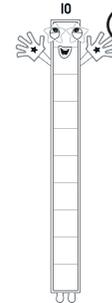

$25 - 10 = \square$

Stick on the Numberblock!

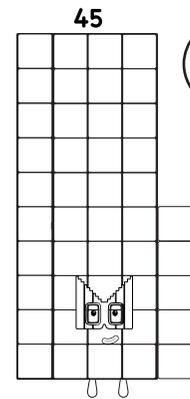

Who did you see again and again?

Me!

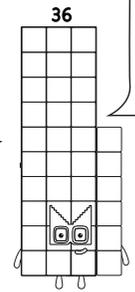

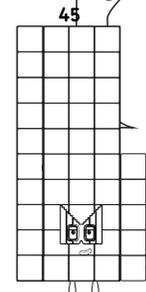

Write the number.

That's right, we saw lots of tens!

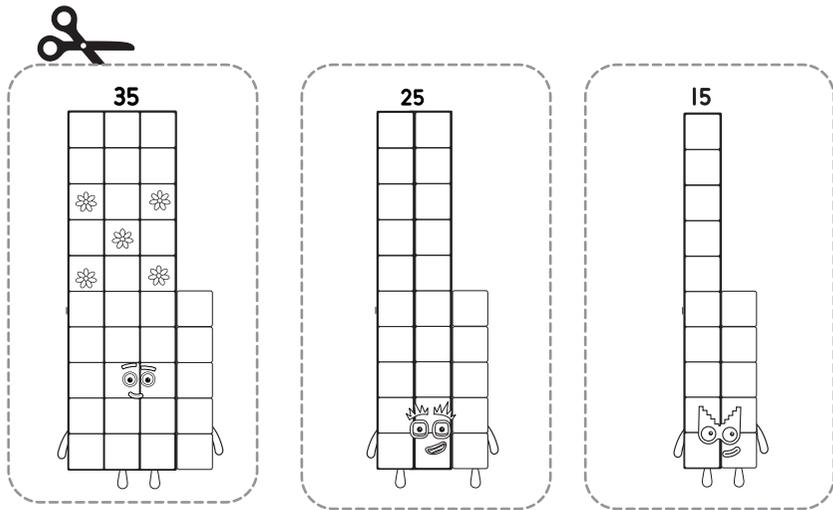

You've made it to the Tens Together Festival! Colour in the picture.

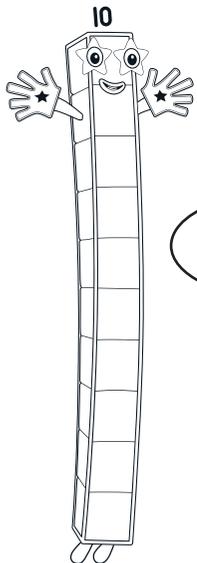

It's Time for Ten

Colour in and snip out these Numberblocks. Stick them on pages 2-3.

Snip out your badge and add sticky tape to the back so you can wear it.

Well done

Make your own Forest of Tens game. Find the instructions on page 4.
