

CLINICAL SUMMIT 2026

Join us at the beautiful **Bicester Hotel Golf & Spa** in Oxfordshire with your fellow Run3D clinicians for an immersive two-day Run3D User Group Meeting designed to support, inspire, and elevate your clinical practice

SEPTEMBER 17 & 18

THURSDAY | FRIDAY

ACCELERATE YOUR CLINICAL RUN3D

This event features a half day workshop on Thursday, followed by a full day of hands-on sessions on Friday, bringing together both new and experienced Run3D users. Throughout the programme, we will cover all key components of Run3D and explore practical, real-world applications to enhance workflows, support troubleshooting and clinical decision-making, strengthen marketing and sales efforts, and improve overall clinic performance. The meeting is designed to be hands-on, encouraging active participation and learning through practice.

This is an enhanced version of our previous user group event, featuring added experiences such as use of the hotel's golf and spa facilities, dedicated time to network with colleagues, and an overnight hotel stay.

SUMMIT AGENDA OVERVIEW

THURSDAY 17 SEPTEMBER

- 12PM - Buffet Lunch on arrival
- **Part 1 : The Foundations - Sales and Marketing**
- Free activity time
- Run3D Partner Private Dinner and Drinks
- Overnight stay / accommodation at The Bicester Hotel

FRIDAY 18 SEPTEMBER 2026

Overnight hotel guests are welcome to use facilities such as pool and gym. Spa and golf will have an additive charge

10 am Start on Day 2

- **Part 2 : Technical Understanding, Advanced Trouble Shooting**
- **Part 3: Interpretation training**
- **Part 4: What's next?**
 - Rehabilitation? Orthotics? What happens after the data?

Event Finish 5pm

Schedule is a preliminary schedule and is subject to change. More details of the schedule will be revealed closer to the event

LEARNING OBJECTIVES

Marketing and Sales

How to sell Run3D effectively to your patients

- Are you telling them something or are you selling them something?
- What is the ideal patient for gait analysis? Who benefits and who does not?
- How can you market your service in your clinic effectively and see results

Technical Understanding

What happens when technology doesn't do what is expected?

- We'll take you through trouble shooting Run3D, whether you are the most advanced clinic, or a first time user, we will make it feel easy. Less panic, more results.

Interpretation training

How do you make sense of all that data?

- This result interpretation workshop will equip you with all the tools you need to understand a Run3D Report

What's Next?

What happens after you've collected the results?

- Orthotics? Rehabilitation? Footwear? Surgery? Gait Retraining? We'll finish off the summit with what to do after you've done a Run3D assessment.
