Dealerships
Tax Planning

ABOUT

Carol Henley joined HHM in 2017 as a Dealership Specialist. She works on audit and review engagements and spends much of her time in the field, completing year end engagements for tax returns or performing agreed-upon procedures. With nearly 25 years' experience of direct automotive dealership management experience with additional six years of public accounting experience for automotive dealers, she is well-equipped to exceed our clients' needs.

Prior to joining HHM, Carol worked many positions within automotive dealerships from office manager to assistant controller. A born leader, she has also been a top trainer in the accounting department over six dealerships. She understands that training takes time but knows the true value of teamwork and development. Carol says, "I appreciate the value of teamwork both inside and outside of the dealership and realize that the approach to solving a problem is not always who or what caused the problem, but how we can prevent it from happening again."

Like her work ethic, Carol has participated in vigorous boot camps, pushing her limits. She also enjoys spending her free time with her two daughters and granddaughter.
