HISTORIC DR. PEPPER WAREHOUSE

The rehabilitation of the Dr. Pepper Bottling Plant at 416 S Dawson Street in downtown Raleigh's warehouse district perfectly balances historic preservation with the needs of today's office tenants.

The 1935 Art Moderne building required a complete renovation—including all new plumbing, electrical and mechanical systems—as well as the careful restoration of historic elements. Today's tenants can appreciate the historic wood floors, masonry walls, skylights, steel trusses, original wood decking, steel and aluminum windows and the original wood staircase—all restored to the Secretary of the Interior's Standards for Historic Rehabilitation.

**DOWNTOWN RALEIGH
ECONOMIC DEVELOPMENT
STRATEGY**

As Downtown Raleigh continues to experience exceptional growth, The City of Raleigh and the Downtown Raleigh Alliance have embarked on a bold plan for investment in our downtown community to ensure Raleigh remains a leading market force for decades to come. The plan focuses on cultivating community, connectedness, and catalyzing downtown's growth as a cultural and business destination.

Key aspects of the plan include: Connecting key destinations to and through downtown with multi-modal infrastructure that will better serve residents, tenants, and visitors.

Reimagining Fayetteville Street as "North Carolina's Main Street" creating opportunity for enhancing our retail and tenancing strategy to attract new storefronts and additional investment.

NEARBY PARKING

Hybrid Options: Account holders can order more parking passes than they are paying for if they do not expect the entire team to be in at the same time. For example, if a company has ten employees, but only expects five people to come per day, they can distribute ten parking passes but only pay for five monthly parking permits. If a sixth parker enters the deck, the account is charged the daily rate for the additional parker.
