Biome Word Search

Coniferous trees have long, skinny leaves called needles. Many trees keep their needles all winter! Instead of hard-shelled nuts, conifer seeds come in cones. Find the coniferous biome words in the puzzle below.

cedar tree

tamarack

red squirrel

spruce tree

fir tree

red pine

red fox

white pine

pinecone

raven

American toad

boreal owl

Canada lynx

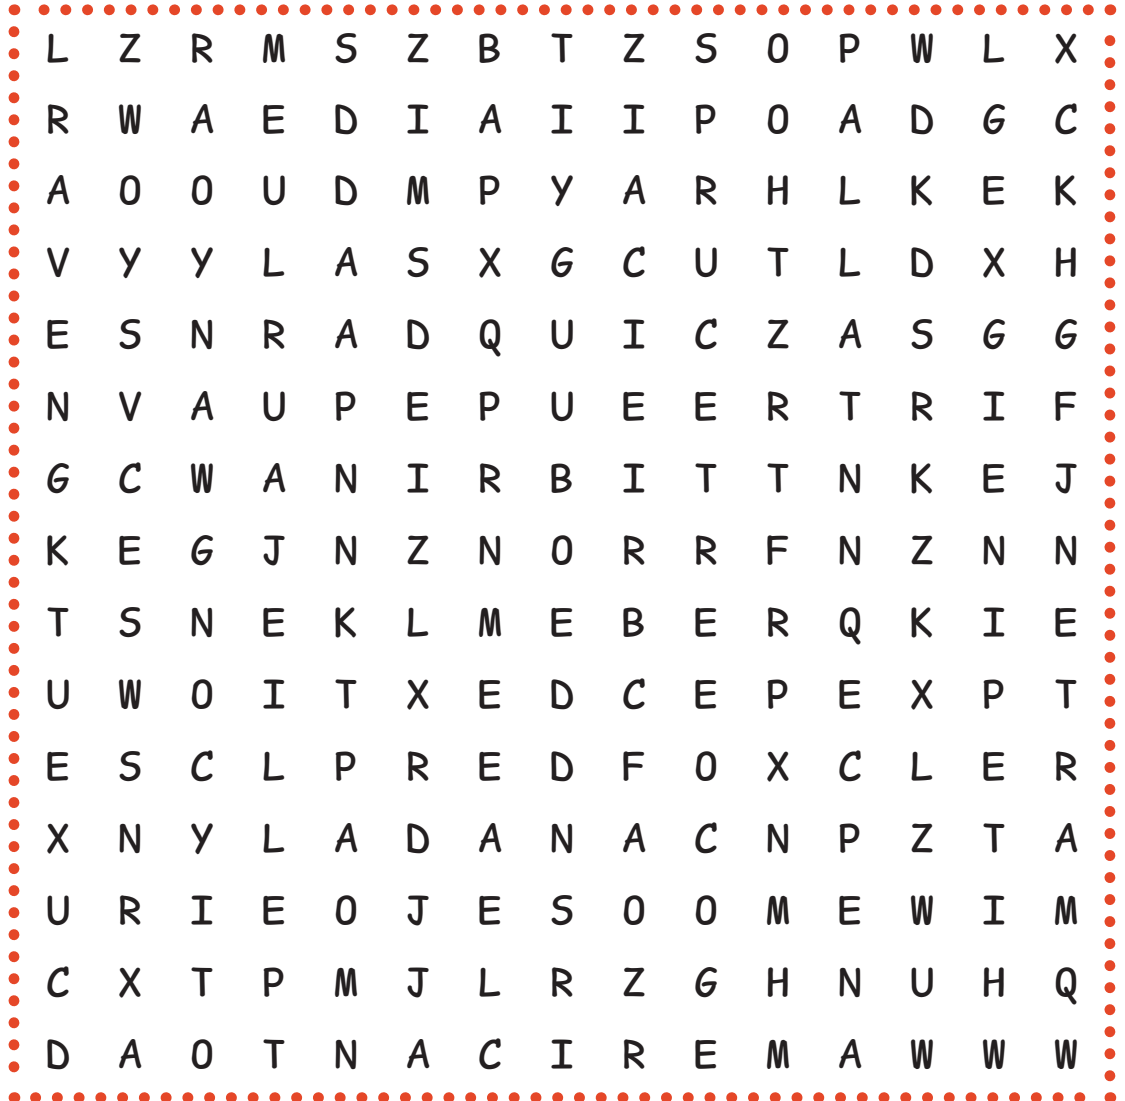

marten

porcupine

moose

HINT

Words can go in any direction and share letters as they cross over each other.
