

OVERVIEW

WHO IS BRENNAN?

WHO WE ARE

No matter the industry, Brennan provides high-performance critical flow components to keep your systems operating at their best. With over 120,000 fittings, adapters, and accessories, we stand behind our commitment to Availability, Quality, Support, and Innovation—because with Brennan, you're not just getting a product; you're making connections with a trusted partner.

At Brennan, you're not dealing with a massive corporate ladder—we move fast, we get things done, and we always put our customers first. We've built our reputation on trust, adaptability, and deep market expertise. No matter the challenges, we'll be here—listening, adjusting, and leading the way. Together, we keep moving, making the right adjustments for a stronger future.

MISSION STATEMENT

We are driven to serve our customers. As customers' needs change, we present new and unique ideas, offering customized solutions as their best partner. Brennan's mission is to provide best-in-class products, leveraging our extensive inventories with a responsive, consultative approach. At Brennan, we hold ourselves accountable to the highest standards of corporate behavior to the benefit of our business, employees, strategic partners, and customers.

David M. Carr, President CEO

OUR HISTORY

Since 1953, Brennan has been an industry leader in critical flow components worldwide. The Carr Family has led the company since 1959, with David M. Carr now serving as President & CEO.

- Over 70 years in business
- From 200 products to over 150,000 today
- From one location to 20+ distribution and manufacturing centers globally.

WHY BRENNAN?

QUALITY

- Certified to the highest standards
- Aerospace quality manufacturing
- Traceability on all fittings down to raw material
- Authoritative prints for consistent worldwide production
- Precision machining, robot equipment, lights-out production

AVAILABILITY

- 16 distribution centers worldwide
- Roughly 4 times as many fittings than competitors
- 150,000+ different types of adapters
- Build-to-print engineered specials
- Global footprint to support needs of global OEMs

INNOVATION

- CAD system: 10K+ files, 150+ formats: Instant engineering data
- Cross reference tool: Replace competitor products easily
- eCommerce: Easy access to information & ordering
- Pressure rating tool
- Brand new ERP system utilizing AI tools.

SUPPORT

- Lead generation and sales support for distributors
- Educational materials (blog, whitepapers, Brennan University), technical resources
- Thread identification training materials
- Literature, catalogs, product guides
- Engineering support

Order Errors are costly, inefficient and can lead to downtime. **BI Verify**, our proprietary semi-automated weight counting order verification system, reduces the occurrence of errors to near zero.

Many fittings look similar, but vary in weight. The scales and software used in our distribution centers ensure you are receiving the correct parts by verifying the weight of each part.

CAN YOU SEE THE DIFFERENCE?

We're using algorithms that are 99.9999% accurate to verify you'll receive the correct parts in Your shipment everywhere and every time.

BI Identify helps you confirm correct parts and eliminate wrong parts during your purchasing process. If you need non-off-the-shelf parts, our engineering department can customize standard fittings or create something completely new specifically for your application.

ID DETECTED

We're using state-of-the-art technology, unparalleled dedication, industry leading expertise and support to always make the right connection.

BI★PERFORM

Superior quality is at the core of everything we do, as shown through the **BI Perform** standards of reliability and efficiency. With precision-engineered fittings designed for optimal performance, we ensure every connection supports your operations flawlessly.

Our commitment to excellence means you can trust Brennan to provide solutions that not only meet but exceed your expectations, keeping your operations running smoothly and efficiently.

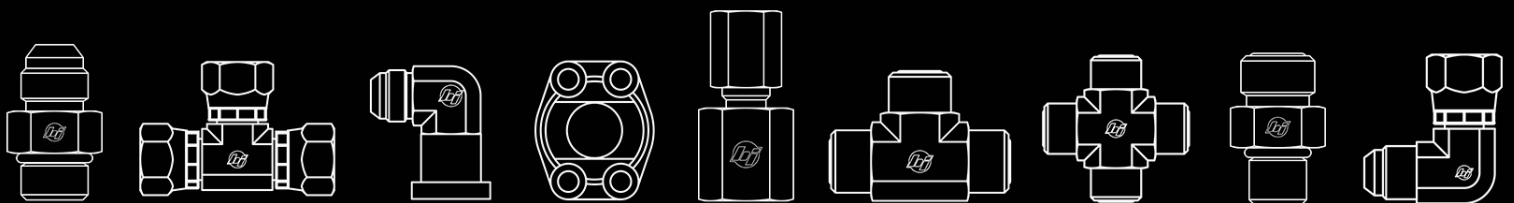

We're committed to reducing the pain points and increasing your operational performance with our expert service and support.

Alleviate logistics issues and supply chain disruptions. Eliminate stock out issues with our Safety Stock Agreement, **BI Supply**.

By partnering with Brennan, we will guarantee availability of your safety stock. So if you need it, you will have it.

We're leveraging our strategically placed manufacturing and distribution centers to guarantee support to your organization.

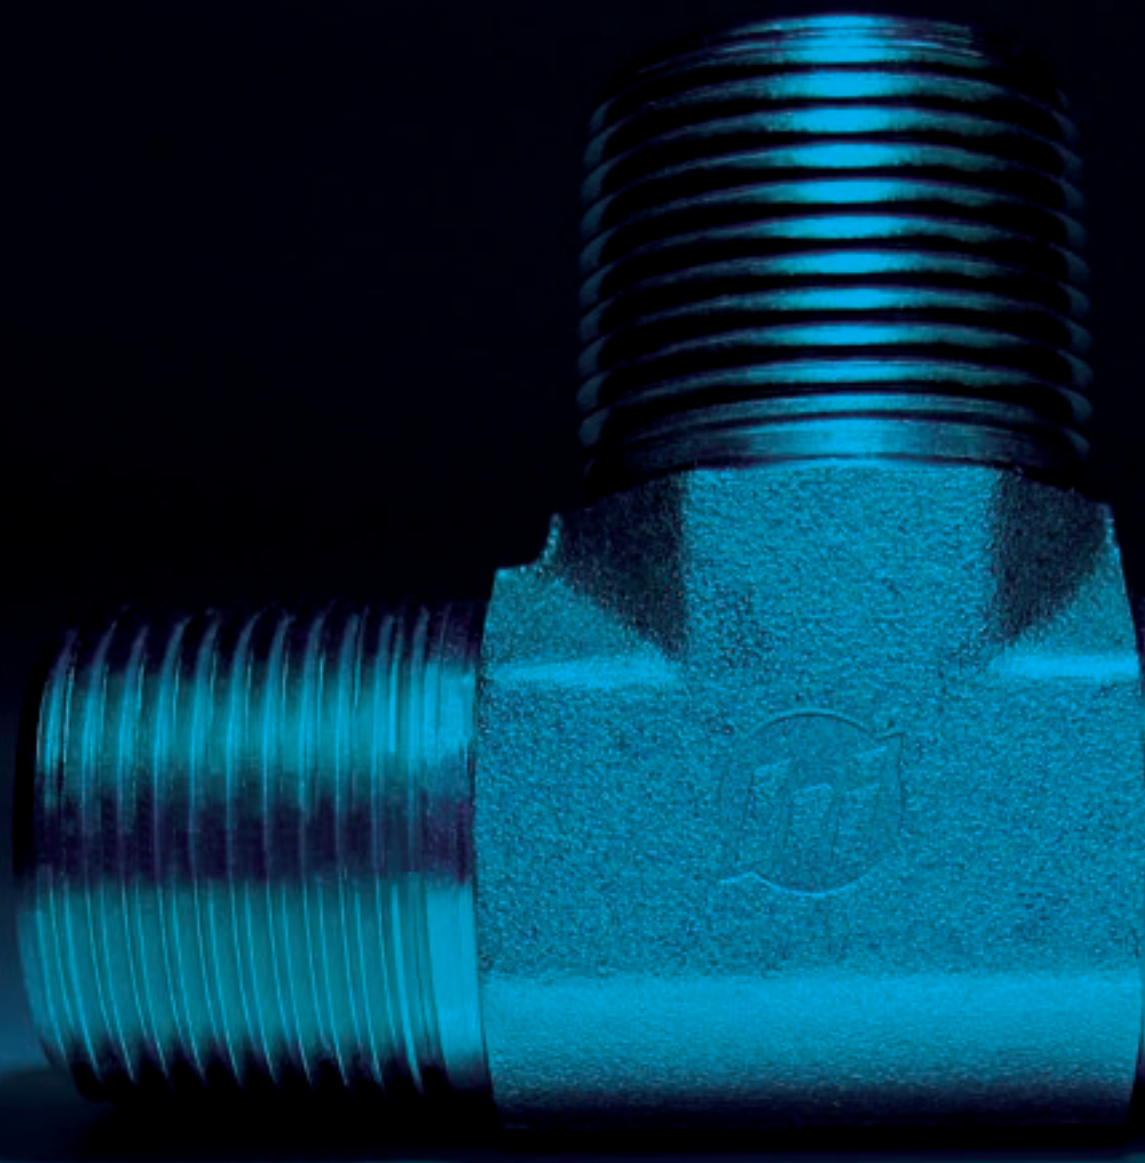

QUALITY

We manufacture to the highest quality standards, meeting or exceeding requirements like DIN, ISO, ITAR, ASTM, NADCAP, AS9100 and others. This ensures that your hydraulic systems are built to last and gives you confidence that you're getting high quality products when you buy from Brennan.

Brennan Industries is committed to providing innovative solutions for fluid conveyance systems with a focus on performance, safety, and reliability. Our extensive line of fittings and adapters offers precision-engineered components to meet the demands of even the most challenging industrial applications. Designed with durability and compatibility in mind, Brennan products ensure seamless connections that optimize the efficiency of your hydraulic and pneumatic systems.

PRODUCT TYPES

- Hydraulic Fittings
- Adapters
- Compression Fittings
- O-Ring Face Seal (ORFS) Fittings
- Flare Fittings
- Swivel Fittings

Brennan is more than just hydraulic fittings and adapters, we also offer a wide variety of complimentary products.

If we don't currently manufacture it today, our sales and engineering teams can work with you to develop a solution.

PRODUCT TYPES

- Thread ID Kits - Available as Co-Branded or Private Labeled
- Cap & Plug Kits
- Hose and Tube Clamps
- Push-To-Connect Pneumatic Fittings

RHINO is dedicated to revolutionizing the way you protect and enhance your equipment. Our product line features a wide range of high-quality protective sleeves and accessories designed to withstand the toughest conditions. From rugged tool sleeves to durable equipment covers, Rhino ensures that your valuable gear remains in peak condition, no matter where your adventures take you.

PRODUCT TYPES

- Nylon Sleeves
- Rhino Guards
- Spiral Wraps
- Vinyl Wraps
- Shrink Tubing
- Cinch Straps
- Drip Proof Plugs
- Firesleeve
- Safety Straps
- Rhino Kits

Ham-Let stands at the forefront of precision engineering with its extensive range of instrumentation valves. Designed for the most demanding industrial applications, our valves offer unmatched performance and reliability, ensuring your systems operate smoothly and efficiently.

PRODUCT TYPES

- Fittings
 - Let-Lok, One-Lok, Dielectric, Pipe, Flare
- Process Valves
 - Ball, Needle, Toggle, Metering, Check, Excess Flow, Relief, Metering Ball, HPA- Pneumatic Actuators
- Manifolds
 - 1 Way, 2 Way, 3 Way, 4 Way, 5 Way, Accessories
- Ultra Clean Valves
 - Ultra Fast, High Pressure, Low Pressure, Metering, Multi-Port Monoblock, Surface Mount

Versa leads the industry with cutting-edge solutions for flow control. Our comprehensive range of valves and fittings are engineered to meet the highest standards of quality and performance, offering superior control, reliability, and efficiency for a wide array of applications.

PRODUCT TYPES

- Brass DOT
- Brass- Flare
- Brass- Compression
- Black & Galvanized Fittings
- Sweat Fittings
- Valves
- Clamps
- Truck and Trailer

We ensure full batch traceability for our stainless steel products, providing confidence in their quality. Our pressure ratings exceed industry standards, ensuring reliability and durability even under extreme conditions. Additionally, Brennan holds certifications from trusted organizations like ABS, BV, DNV GL, Lloyd's Register, and more, validating the excellence of our products.

PRODUCT TYPES

- Metric Compression Tube Fittings
 - Carbon & Stainless
 - Straight
 - Elbow
 - Tee
- Cutting Ring Fittings

DIN FITTINGS

DIN 2353 METRIC BITE-TYPE FITTINGS AND ADAPTERS BY VOLZ

COTERFLEX[®]

Coterflex tubing is your go-to solution for high-performance fluid and gas transfer. Known for its exceptional durability, flexibility, and resistance to harsh environments, Coterflex ensures reliable performance even under extreme conditions. Whether you're working in chemical processing, oil and gas, or any demanding industrial application, Coterflex provides the quality and reliability you need to keep operations running smoothly.

PRODUCT TYPES

- Hydraulic Hose
- Hose Fittings
- Reusable Hose
- DIN Connections
- Brass Connections
- Special Connections
- Push-In Fittings
- Adapters
- Hydraulic Tubes
- Quick Couplings
- Valves
- Galvanized Pipe Fittings
- Hydraulic Filters
