OEM Services

TIPCO works in concert with world-class manufacturers to specify and fabricate hose assemblies that meet the individual needs of all our OEM accounts. With a dedicated OEM Fabrication facility in Curtis Bay, Maryland, TIPCO offers:

ISO 9001-2015 Certified Quality Management System

- Customized Hose Assembly Kitting
- Danfoss E-Cert Distributor
- Customized Part Numbering
- Bar Coding
- Proprietary Designing
- Complete Hose Testing & Certification
- Customer Dedicated Inventory
- Customized Packing
- Engineering & Drawings
- Contract Manufacturing

Metal Hose Fabrication

With five ASME Section IX certified fabrication facilities across the country (Virginia, New York, Oregon and two in Texas), our team of specialists can help design the perfect metal hose solution. Our capabilities include:

ASME Section IX Certified

- Custom Design Assistance
- Reverse Engineering
- Material Selection
- On-Site Consultation & Product Specification
- Stainless Steel Hose Stocked from 1/4" - 6"
- Wide Range of Stainless and Carbon Steel Fittings
- Metal Chlorine Hose
- Kit Assembly

The TIPCO E-Store has more than just online ordering.

- Shop based on your customer-specific pricing
- View live inventory across all TIPCO locations
- View spec data and item images
- View open orders
- View order history
- Create custom catalogs
- View invoice history
- Pay invoices online
- Request quotes

Vendor Managed Inventory (VMI) Services

Inventory management/storage is a significant cost for your business. If floor space and shelf space are valuable assets in your facility and/or you are looking for ways to maximize your employee time, let our VMI Services Team help. Taking on the inventory "risk", our VMI Team will manage your stock effectively and efficiently, giving you the freedom to focus on your core business.

VMI

Vendor Managed Inventory
SERVICES

Our VMI Pledge

- Lower Overall Inventory Costs
- Smaller Footprint
- Clean, Efficient & Organized
- Reduced Administrative Costs
- More Reliable Delivery
- More Accurate Inventory Management
- Build Closer Supplier/Customer Relationships
- Bin Barcoding for Efficiency
- Better Inventory Control
- On-Time Reports
- E-Store Order Entry Available with Confirmation

The Designed-For-You service offers a dedicated expert to support your business. Trade hassle, high overhead costs, and long product lead times for streamlined ordering and substantial documented savings from TIPCO VMI Services.

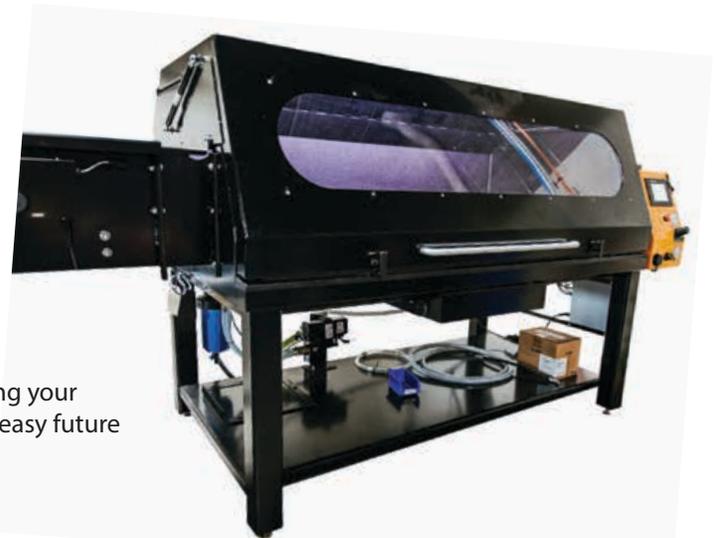

Hose Testing

We ensure the highest quality and safety standards through our comprehensive hose testing process, performed in accordance with NAHAD (National Association of Hose Assembly Distributors) guidelines. Our testing includes:

- **Pressure Testing:** Evaluating the hose's ability to withstand operational pressures.
- **Leak Testing:** Identifying any leaks to safeguard against system failures.
- **Durability Assessment:** Analyzing the hose's material integrity and performance under various conditions.

Upon completion, you will receive a detailed test certificate confirming your hoses' performance. Our test data is securely stored in TESSALINK for easy future reference.

- Comprehensive hose assembly testing
- Testing for a range of hose diameters
- Hydraulic hose, air hose, and expansion joint testing
- Experienced hose testing experts present during the process
- Compliance with recognized standards for hydrostatic testing
- Documentation maintained for seven years
- Unique serial number assigned to each tested hose
- Hydrostatic Test Certificate provided upon completion of testing
