

Reorder Faster. Organize Smarter. New eStore Tools Are Here.

shop.tipcotech.com

Thanks for being a TIPCO customer! We're always looking for ways to make ordering faster and easier for you. This month we've rolled out **four new features** designed to help you organize inventory, prevent stockouts, and save time on every reorder — so your team can spend less time managing parts and more time getting work done.

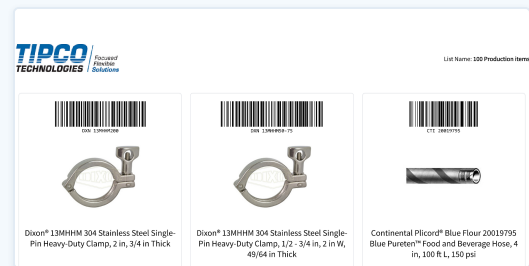

ORGANIZE & LABEL

Barcode Bin Labels

Create scannable labels for bins, shelves, or workstations so your team can scan items directly into your cart — no more hunting for part numbers.

RECOMMENDED Avery 5260 address labels (1" x 2-5/8", 30 per sheet).

Scan Books

Keep a printed book of reorder labels right at the point of use. Scan and reorder instantly — perfect for techs on the floor.

BUILD & REORDER FASTER

TIPCO TECHNOLOGIES Focused Fleet Solutions			List Name: 100 Production Items
Image	Item Description		Your Price

CONTINENTAL Plicord® BLUE FLOUR 20019795 BLUE PURETIN™ FOOD AND BEVERAGE HOSE, 4 IN, 100 FT L,			

Itemized Catalog Lists

Download clean, itemized product lists with images, part numbers, and your custom pricing. Perfect for quick reference at the point of use.

Catalogs List Upload

Name of new Catalogs List

Name of new Catalogs List

Datafile

[Choose File] No file chosen

File must be in .xlsx format.

Upload can support up to 100 item rows

Click Here to download sample file

For duplicate items on a list, select an option below:

☒ Combine ☐ Separate ☐ Remove

Combine: Quantity will be combined

Separate: Will be processed according to given input

Remove: Duplicates will be filtered out

SUBMIT

Upload Catalogs via Spreadsheet

Build your reorder catalog in minutes by uploading a simple spreadsheet — no manual SKU entry required.

How to Print Labels, Catalog Lists, or Scan Books

- 1 Open your eStore catalog.
- 2 **Select** Print.
- 3 **Choose** Itemized List, Labels, or Scan Book.
- 4 **Choose** whether to display the TIPCO part number or MPN (Manufacturer Part Number).
- 5 **Select** Print Page.

How to Build a Catalog List with a Spreadsheet

shop.tipcotech.com/how-to-upload-a-catalogs-list

- 1 **Add items to a catalog first.** As you browse the store, click  or  on any product. You need at least one catalog before you can build or upload a list.
- 2 **Go to** My Account and select My Catalogs.
- 3 **Select** Create My Catalogs List.
- 4 **Select** 'Click Here' to download the sample file/template. You must use this template to upload your list.
- 5 **Open** the template and complete the two required columns: Item ID and Quantity.
- 6 **Enter** the product Item ID/SKU and the quantity of units needed for each item.
- 7 **Name** your My Catalogs list. Keep the naming convention consistent so lists are easy to identify later.
- 8 **Select** Choose File and pick the file to upload. (You do not need to click Upload after the file is selected.)
- 9 If you see the message "**No exact matching found for these item IDs,**" review your list and confirm each Item ID matches the product detail page exactly.
- 10 If you can't find an item, **contact the eStore Team** for assistance. You can still add the list to your cart — items not found simply won't be included.
