LAW2CM
BY FYB PTY LTD

FYB Law2CM captures matters, clients and documents from Lawcadia into OpenText Content Manager

Using FYB Law2CM provides the following benefits:

▸ Automatic transfer of information and documents from Lawcadia into Content Manager with the right folder structure to meet internal requirements

▸ Ensures your organisation is meeting its record keeping compliance requirements for the storage and management of documents and records within Content Manager

▸ Reduces the duplication of information stored in multiple places, increasing data integrity and providing efficiencies to users for the retrieval of information

▸ Accessing documentation stored in Content Manager directly from the Lawcadia platform

What is Lawcadia?

Lawcadia is a cloud-based platform that in-house legal teams and their law firms use for matter management, legal intake & triage and legal spend management.

What is Content Manager?

The Content Manager solution is a governance-based enterprise content document and records management system designed to help organisations manage their business content from creation to disposal.

Version 2.0.X Features

▸ Automated creation of matter (case) folders in Content Manager with access controls set to reflect the Matter Permissions in Lawcadia

▸ Automated creation of matter sub folder structure

▸ Automated transfer of documents from Lawcadia into relevant matter folders in Content Manager

▸ Create locations in Content Manager from client and contact information stored on Lawcadia

▸ Case documents stored in Content Manager will be visible/accessible within Lawcadia

Prerequisites

▸ Content Manager 10.x, 10.1x, 23.x

▸ Lawcadia

▸ Microsoft Internet Information Services (IIS) 10

▸ .NET Framework 4.7.2

▸ Access to Law2CM requires the user to have a valid Content Manager License

▸ A Lawcadia account with administrator access to Content Manager. This account must be able to connect to the Lawcadia API

▸ Account used to run the app pool will need to be an Active Directory/Domain account

▸ The web application will need to be HTTPS-protected and able to communicate with your Lawcadia instance

▸ Law2CM must be installed on a Content Manager workgroup server

▸ Please ensure you are using a compatible browser:
  - Google Chrome
  - Mozilla Firefox
  - Microsoft Edge

Terms and Conditions

▸ Subscription pricing

See how seamlessly the Law2CM connector can integrate Lawcadia with Content Manager.
