THE BRANDS YOU **TRUST**, TAILORED TO YOUR NEEDS

Since 1991 our family has dedicated itself to the plastic container industry, providing the perishable protein market an alternative, zero waste, food grade container solution.

Meaningful relationships with our clients have been instrumental in developing best practice methods and proven lowest cost of ownership in the reusable container marketplace.

With over 30 years of experience and input from our leading manufacturers, we offer industry best products in a class of their own. Our team of trained personnel are ready to consult with you on your particular application and identify cost savings and bottom line accountability.

We invite you to join the Trident SPS family! Every container purchased reduces the consumption of limited-use plastic, cardboard and wood.

BONAR INSULATED BOXES

Built to handle the roughest environments

Featuring **Wall-Lock Technology** which provides superior structural integrity, resulting in better performing and longer lasting products.

Wall-Lock connects the inner and outer walls of the fish box to prevent the common industry problem of “delamination,” where the inferior foam separates and breaks down over time, so now customers can feel confident that their catch is safely protected from ice melting prematurely.

ECONO PALLETS

100% Recycled Plastic Shipping Pallets

Econo offers a variety of pallets made from recycled Polypropylene or prime FDA polypropylene.

Whether you want to send out some export pallets or have a revolutionary testable, rackable and stackable plastic pallet, look no further than Our Econo pallets. Recycled plastic helps control material costs while reducing environmental waste and provides cost advantages over users of virgin resin.

100% recyclable - talk to us about our buyback program

Econo Nestable

DESCRIPTION	WEIGHT	DIMENSIONS	CAPACITY
Export, Nestable	12-16 lbs	L: 48 in W: 40 in H: 5 in	Static: 25,000 lbs Dynamic: 2,000 lbs Racking: N/A

Econo Rack

DESCRIPTION	WEIGHT	DIMENSIONS	CAPACITY
Mult-use rackable in house pallet	18 lbs	L: 48 in W: 40 in H: 5 in	Static: 10,000 lbs Dynamic: 2,500 lbs Racking: 2,500 lbs

Rackable in 42" Open Pallet Racks

BONAR PLASTIC PALLETS

Quality, the best value.

Bonar offers a variety of pallets made from recycled Polyethylene or prime FDA virgin Polyethylene.

We offer a recycled, warehouse pallet that is extremely durable and meant to last in your plant for a long time. With Sanipal you will find pure high quality materials in a one piece rotationally molded design. Tested for hygienic compliance and compatible with all standard handling and conveying systems.

100% recyclable - talk to us about our buyback program

Sanipal 1.0

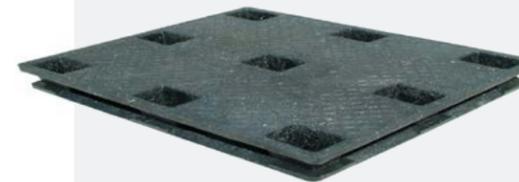

DESCRIPTION	WEIGHT	DIMENSIONS	CAPACITY
Industrial Sanitary Pallet	45 lbs	L: 48 in W: 40 in H: 6.25 in	Static: N/A Dynamic: 3,000 lbs Racking: 1,500 lbs

The Sanipal is molded from high quality, virgin FDA compliant resin in a one piece rotationally molded design.

Tested for hygienic compliance and compatible with all standard handling and conveying systems. This pallet will out perform almost every other pallet at temperatures below 32 degrees Fahrenheit

Kodiak Pallet

DESCRIPTION	WEIGHT	DIMENSIONS	CAPACITY
In-plant pallet	64 lbs	L: 48 in W: 40 in H: 6 in	Static: 30,000 lbs Dynamic: 4,500 lbs Racking: 800 lbs

The Kodiak is a heavyweight warehouse pallet. Rotationally molded from 100% recycled materials in the USA.

Reinforced in high impact areas, the Kodiak performs in all heavy duty applications.

IPL HANDHELD

Leading Injection-molded Plastic Products

Our StackNest with a loading capacity of 70 liters/150 pounds or

85 liters/180 pounds both of these Super Duty totes are designed to withstand thumps and shocks.

When empty, with a single 180° pivot, the StackNest can nest and takes up minimal space. The components of its plastic makes it the champion of temperature variations.

Not all containers are built the same. These totes and trays set the industry standard for tough, food grade use that is capable of withstanding the harshest environments. We mold each of these container with a UV inhibitor to withstand the rigors of sun and temperature.

100% recyclable – talk to us about our buyback program.

StackNest 70 L

REUSABLE

Our reusable plastic containers (RPC) products are made to be sustainable and resistant to harsh conditions.

CUSTOMIZABLE

Branding is somewhat important nowadays, for that reason we offer a wide variety of printable solutions in order to customize our products to your image.

COMPATIBLE

At Trident we understand that you may already have an existing RPC fleet, which is why we insure our products are compatible with most models on the market.

RECYCLABLE

Our reusable plastic containers are made of 100% plastic, do not hesitate to contact us if you want to recycle your old containers.

MONSTERCOMBO® BINS

Single Wall Bulk Bins - Powerfully Tough

MonsterBin's have been the workhorse of the protein processing industry for over 30 years. Multi-Use Single wall bulk containers are perfect for your cold-chain storage. The rotationally moulded design help these bins excel under cold temperature impact. Made from USDA/FDA compliant HDPE material. We believe these bins hold up to the touch challenges facing the handling and transport of your food products.

Monster Bins are available in heights from 30" up to 62" high. Talk to one of our consultants about finding the perfect height for your operation

These Monster Bins come in 4 different base styles. The molded in 4-Way series, featuring 4-way forkliftable entry. Molded in 2-Way series, a more affordable option featuring 2-way forklift entry. Replaceable 4-Way base so any damages to the base are easily and affordable replaced. Replaceable 4-way Rotatable base for any rotating dumper options.

Note: The 4-Way replaceable and rotator series are the only MonsterBins with a smooth interior.

2900 SERIES REPLACEABLE/ROTATABLE

SPECIFICATIONS:

Monster bins are available in heights from 33" up to 62" high. Multiple versions of pallet base designs are available.

2700 SERIES 4-WAY

SPECIFICATIONS:

Monster bins are available in heights from 33" up to 62" high. Multiple versions of pallet base designs are available.

OPTIONS & ACCESSORIES

MONSTERCOMBO® BINS

Optional stacking lid

Optional Drain hole/Plug

2800 SERIES 2-WAY

SPECIFICATIONS:

Monster bins are available in heights from 33" up to 62" high. Multiple versions of pallet base designs are available.

*capacity and dimensions are subject to height of container. Please contact us for more info/drawings.

ROADSHOW DISPLAY KIOSK

Bonar Plastics

Durable, portable, easy to clean display kiosks will last through many years of use. Kiosks require no mechanical refrigeration, so can be placed anywhere.

Each Roadshow Display Kiosk is manufactured with FDA compliant materials. These durable, portable, easy to clean kiosks will last through many years of use. Kiosks require no mechanical refrigeration, so they can be placed anywhere. Every Kiosk comes with a no-leak plug that ensures a tight fit. Nylon wear foot pads help protect floors.

- Boxes are stackable 3 high (without sneeze guard and/or lid) saving valuable floor space.
- Base units are double wall constructed using quality polyethylene and thick polyurethane foam insulation.
- Bases are available in three colors: Red, Blue and Dark Green.
- Ice tray is just as durable and is designed specifically for the kiosk.
- The optional 2-piece sneeze guard is manufactured from high quality acrylic

Display Kiosk

WEIGHT	OUTSIDE DIMENSIONS	INSIDE DIMENSIONS	QUANTITY
190 lbs	L: 48 in W: 40 in H: 28 in	L: 46 in W: 28 in H: 24 in	Pallet: 2 FTL: 56

TRA TOTE

QUANTITY	WEIGHT	DIMENSIONS	CAPACITY
Pallet: 9 FTL: 210	84 lbs	L: 53 in W: 50 in H: 29 in	Gallons: 180 Liters: 680 Load: 1,000 lbs

Available in standard 1,000 pound capacity or a heavy duty, 1,500 pound capacity, this tote is 90% nestable and stacks 3-high with the lid while protecting your products 100%.

SANI-BOX

QUANTITY	WEIGHT	DIMENSIONS	CAPACITY
Pallet: n/a FTL: n/a	115 lbs	L: 48 in W: 40 in H: 31 in	Gallons: 24 Liters: 180 Load: 1,500 lbs

The Sani-Box eliminates the sidewall seams, gaps, holes and other bacteria traps associated with other plastic bulk boxes. Sani-Box is the only bulk box on the market with a self-draining bottom to ensure any leftover interior residue drains completely without having to tilt, tip or dump the container during the cleaning process.

Best of all, the Sani-Box comes equipped with an impact resistant double wall seamless HDPE construction, which maximizes asset useful-life-to-cost ratios, so you can be assured optimum sanitary service for years to come.

BUSHEL BOX

QUANTITY	WEIGHT	DIMENSIONS	CAPACITY
Pallet: 170 FTL: 4760	4.5 lbs	L: 24 in W: 16 in H: 10.5 in	1.9 cubic feet 14.25 gallons 55 liters

Our new Bushel Box holds just over a bushel - comes with 6 1/4 inch drain holes and is perfect for keeping your catch fresh

When it comes to shipping totes in the food processing industry, look no further than the Bushel Box. The Bushel Box container is a third-generation design. Increased radii in critical low-temperature impact areas result in increased cycles with far less breakage. More importantly, these design improvements translate into a reduction in foreign matter contamination in your supply chain. Bushel Box design benefits include ergonomic handles for easier lifting. Improved rim design for strength and sanitation. Detachable lids that will fit both sizes. Cross-stack functional for stable load movement on pallets without the need for shrink-wrapping

TRIDENT

CONSULTATIVE APPROACH

Custom tailored material handling solutions that help you pick the right container the first time- maximizing its life and your operational efficiency.

SOURCING

Competitive pricing to match large scale distribution at the quantities & timing that work for you

RECYCLING

Trident SPS Buy Back Program that pays you for the resin we can re-grind from your broken containers to close the loop on sustainability ultimately reducing the environmental impact on waste and the ocean that is the life blood of your business
