Product Code: 1095-09

WESTMINSTER
GROUP PLC

WESTMINSTER

Key Features

X-Ray Scanner Testing & Calibration

Multiple X-Ray Test Pieces for Evaluation of multiple areas

Lightweight

Portable

Meets FAA, DHS, TSA and Transport for Canada standards

Ruggedised Case

Overview

The WG ASTM F792-OE Step Wedge Test Object Case is used to calibrate and evaluate performance levels of X-Ray screening systems for objective evaluation to score technical capabilities of the system per the new F792-17e1 standards.

To meet the new requirements for testing sophisticated X-Ray systems, the new ASTM F792-OE test object is manufactured to strictly comply with the FAA, TSA, Transport Canada and DHS requirements.

We also have the previous versions of original ASTM Step wedges which is required and can accommodate larger kits for vehicle or container screening compliance.
