

Aviation Security Manager (ASM) - Refresher

WESTMINSTER
GROUP PLC

Our 2-day ASM refresher course is designed for staff that are already certified as an ASM and are due to refresh

Overview

Our course will utilise your own existing knowledge and experiences and will incorporate other best practises from throughout the Avsec industry. It will provide you with a greater informed decision-making capability to define, amend or provide assurance that your existing practices and ASP are effective by considering industry wide information, procedures and areas of concern, increasing your knowledge of all AvSec entities.

Following the new DfT syllabus our ASM course will also provide you with information and guidance to enable you to effectively implement security procedures that not only manage your risk but enhance your operation and full comply with international and national requirements. The course will target your specific areas of responsibility in relation to the mandatory requirements

Content

- The Threat to Aviation
- Security Culture and Human Factors
- International and National Objectives of Aviation Security and Legislation
- Quality management
- Implementing the National Aviation Security Programme
- Contingency Planning and incident response
- RFX and Technology
