TSCA RESTRICTED SUBSTANCES DECLARATION

The United States Toxic Substances Control Act (TSCA) is a federal chemicals management regulation. Under TSCA, certain substances and substance families are reportable or restricted from distribution in U.S. commerce. Reporting requirements or restrictions may vary by industry, product type, or substance use, and include substances as identified in Assent's Supplier Portal declarable substance list (DSL) for the TSCA Restrictions Module. This DSL is available for download from the Supplier Portal (for suppliers of Assent clients).

To whom it may concern,

We hereby send you information related to substances restricted under TSCA. This communication applies to all products sold or otherwise placed on the market by Sunshine Global Circuits Co., Ltd. prior to the signature date of this declaration.

[For the purposes of this declaration, substances restricted only in certain product types or situations need NOT be reported in other product types or situations. For instance, formaldehyde is only restricted in composite wood products; otherwise it does not need to be reported. However, substances restricted without reference to specific product types or use situations must always be reported.]

If no products contain any of the restricted substances, this option must be selected:

Checking this box certifies that none of the products referenced above contain any substances currently restricted under TSCA.

OR, if any products contain any restricted substances, this table must be completed. Each product listed contains one or more restricted substances, either without exemption or with the listed applicable exemption(s).

Product(s)	Substance Name or CAS Number	Concentration (%)	Exemption
