

## Letter of Continued Interest – College Waitlist

Dear Admissions Committee,

Thank you for continuing to review my application. Being placed on the waitlist gave me the chance to pause, reflect, and confirm something I already felt strongly about - this is the school I hope to attend.

Since submitting my application, I've stayed fully focused on my schoolwork. This semester pushed me to work more steadily, especially in courses where progress came from showing up every day rather than cramming at the last minute. My recent grades reflect that shift. Outside the classroom, I continued committing time and energy to my responsibilities, taking on work that demanded follow-through and initiative. Together, these experiences helped clarify my academic direction.

My interest is rooted in fit. The academic culture, level of intellectual engagement, and sense of direction on campus reflect how I work best. Continued research and conversations with current students have only confirmed that alignment. I would be fully committed to this community, both academically and personally.

If admitted, I would accept the offer right away. This school remains my first choice, and I am fully prepared to enroll.

Thank you again for your time and thoughtful consideration. I appreciate the opportunity to remain under review and am happy to share any further information if needed.

Sincerely,

[Your Name]
