

Letter of Continued Interest – Medical School Waitlist

Dear Admissions Committee,

Thank you for continuing to review my application. The time since the waitlist decision gave me space to think carefully about where I want to train and why. That reflection has only strengthened my interest in your medical school.

Since submitting my application, my days have stayed anchored in learning and patient-facing work. This term required steady effort, especially in coursework where understanding came through repetition rather than speed. Outside the classroom, time spent in clinical and service settings continued to shape how I approach responsibility, communication, and care. Those experiences clarified the kind of physician I hope to become and reinforced my commitment to medicine.

What stands out most to me is how naturally clinical work fits into the learning process. Patient interaction feels purposeful, and the science behind it is tied closely to real clinical judgment. Hearing students describe their daily experiences confirmed that this is a place where curiosity is supported, and responsibility is taken seriously. That environment fits the way I learn best.

I want to be clear about my intentions. If offered admission, I would accept immediately. Your medical school remains my first choice, and I am ready to commit.

Thank you for the time and care you bring to this process. I appreciate the opportunity to remain under consideration and would be glad to provide any additional information if helpful.

Sincerely,

[Your Name]
