

## Letter of Continued Interest – Academic Updates

Dear Admissions Committee,

Thank you for continuing to review my application. I am writing to share recent academic updates and to reaffirm my interest in your institution.

Since submitting my application, my academic performance has shown clear progress. This term required sustained focus, particularly in coursework built around cumulative assignments and long-term projects. My recent grades reflect a more consistent approach to study and a stronger command of the material. These results more accurately reflect my academic ability and preparation for college-level work.

Alongside coursework, I have continued to take on responsibilities that require organization, follow-through, and independent work. Balancing these commitments with academic demands has strengthened my time management skills and helped clarify my academic priorities moving forward.

What draws me back to your school is the consistency between its academic approach and how I learn most effectively. Engaged coursework and thoughtful inquiry create an environment where I thrive. Learning more about the program has strengthened my confidence that this is the right place for my academic growth.

I would like to state my intentions clearly. If I am offered admission, I would accept it immediately. Your institution remains my first choice, and I am fully prepared to enroll.

Thank you for reviewing these updates and for your continued consideration. I would be glad to provide any further information if needed.

Sincerely,

[Your Name]
