

# ENDORSED CAMBRIDGE MATERIAL FOR PRIMARY 1 - 6

We are very excited to introduce you to the latest series by Marshall Cavendish.

The Marshall Cavendish Cambridge Primary Maths is endorsed by the Cambridge Assessment International Education supports the latest Cambridge International Examinations Primary Mathematics Curriculum Framework. It uses a rigorous approach that has been tried and tested over many years in Singapore and has proven effective in helping pupils master mathematics.

Besides integrating problem solving at the heart of learning and using approaches such as the Concrete-Pictorial-Abstract approach, heuristics, bar modelling and metacognition, pupils learn new concepts in a highly scaffolded manner and build a strong foundation through spiral progression. This series also includes mathematical variation and perceptual variation to engage and challenge pupils to use their mathematical skills flexibly to suit the situation and gain fluency in mathematics. This is available for Cambridge stages 1 - 6.

The Marshall Cavendish Cambridge Primary Science is a complete classroom solution that supports the latest Cambridge International Examinations Primary Science Curriculum Framework. This series has been carefully developed to deepen conceptual understanding and scientific skills. It is well-designed to engage and captivate learners. This is available for Cambridge stages 1 - 6.

These series are both endorsed by Cambridge.
