

INTRODUCING UBBU

A BEGINNERS BLOCK-BASED CODING PROGRAMME FOR PRIMARY SCHOOL

OVER 1 000 000 USERS WORLDWIDE

CODING MADE EASY WITH ubbu BLOCK BASE CODING

Coding is a basic literacy in the digital age, and it is important to prepare the young learners for the future. Coding equips the young learners with computational thinking skills, logical thinking skills, problem-solving skills and helps to stimulate creativity.

ubbu can be used for both individual learners or in a classroom situation.

ubbu has a 12 month licence – but is not limited per level. As you complete a level, you can continue to the next level in the duration of the licence time frame.

ubbu is a beginner programme starting from level 1 through to level 6.

There are currently **over 1,000,000 ubbu users worldwide**, for good reason!

SPECIAL OFFER: Launch price for expo – reduced from R695 to R520.
