

Impaq's Grade R – 3 learning programme

A comprehensive Foundation Phase programme
to develop your child's full potential

Set the foundation for happy learning

At Impaq, we know that a successful learning journey begins with a solid foundation. That is why we provide young learners with the building blocks they need to develop to their full potential.

Impaq's unique programme

Our comprehensive Foundation Phase programme equips learners with a broad range of skills and abilities.

In Grade R, your child will start with active play to develop their motor skills, and learn basic maths and phonics in a fun and informal way. This sets the foundation for Grades 1 – 3 when formal language skills and basic maths principles are developed.

Four fundamental principles guide our unique programme

Critical thinking

Children develop critical thinking skills by testing how things work.

Problem-solving

Children hone their problem-solving skills through play.

Step-by-step guidance

Children receive instruction to steer their learning journey in the right direction.

Learning at their own pace

Children learn by exploring the world around them at their own pace.

Learning is fun

The CAPS-aligned lesson material is specially developed by our education specialists to ensure that learning is fun, exciting, and engaging.

In Grade R, our unique programme integrates the three core learning areas, namely:

- Home Language (English or Afrikaans)
- Mathematics
- Life Skills

Please note: your child must be at least four years old to be registered for Grade R and must turn five or older by at least 30 June of their Grade R year.

In Grades 1 – 3, we focus on four compulsory subjects:

- At least one Home Language (English or Afrikaans)
- A First Additional Language (English, Afrikaans, or isiZulu)
- Mathematics
- Life Skills

Please note: your child must be registered for Grade 1 in the year that they turn seven.

Additional resources

We also offer other resources to supplement learning, including:

Bible Education for Grades R – 3. The lesson material helps children discover their unique identity and God-given gifts, talents, and blessings.

LEGO® Robotics and Coding for Grades 1 – 3. This is the perfect tool to introduce learners to robotics, engineering, and programming. Children will be able to build their own robot and bring it to life.

Please note: Bible Education and LEGO® Robotics and Coding are offered as non-examinable additional subjects.

Lesson plans

Take a sneak peek at our lesson plans.

Learning unit 4
Week 7

Session 1: Patterns
Complete activity 64 in workbook 1. The learners complete the spider sums and try to recognise the number patterns.

Session 2: 2D shapes
The facilitator draws the shapes below on the board. The learners must name the properties of each shape.

Activity 8: Match the words and pictures
Cut the sentences from the activity page. Paste the sentences next to the matching faces.

Everything you need

We make it easy for you, as the parent, to teach by providing everything you need, including:

Lesson material (printed)

Your child will receive everything they need to complete each subject, including learner aids and age-appropriate readers.

Facilitator's guides (printed and/or e-books)

You will receive everything you need to make learning fun, including a subject plan, suggested timetable, and lesson guidance.

Support services

We will guide you every step of the way with access to our dedicated Foundation Phase experts who will provide you with academic support and expertise. We also host free online classes to assist all Grade R – 3 learners.

Assessment elements and services

You will receive all the formal assessment components you need to evaluate your child and monitor their progress.

Supplementary subject support

If your child decides to take isiZulu as a First Additional Language, you will receive English instructions and a DVD to guide you on the correct pronunciation of words.

Assessments in the Foundation Phase

In Grade R:

It is not compulsory for Grade R learners to complete any formal assessments. Nonetheless, Impaq will provide all the formal assessment components you need if you want to monitor your child's progress.

In Grades 1 – 3:

You will receive all the formal assessment components and memorandums required to assess your child at home easily. If you do not want to mark the assessments yourself, you have two other options, namely:

- Asking a qualified teacher or tutor to assist. Impaq supports independent tutors throughout the country who make use of our products and services. They can help you with administrative and educational tasks. See a list of tutors on our website (www.impaq.co.za).
- Sending the formal worksheets to Impaq. We will mark the assessments for you. Do note that you will still have to do the oral tasks with your child as Impaq does not mark oral tasks in the Foundation Phase.

Learners in Grades 1 – 3 must complete the formal assessments before they can move on to the next grade.

Foundation Phase programme goals from start to end

FROM (START OF GRADE R) TO (END OF GRADE 3)

	Basic reading skills	Reading with understanding
	Writing own name	Writing paragraphs
	Basic numerical skills	A full understanding of basic maths concepts
	Developing gross motor skills	Advanced physical education
	Developing fine motor skills	Writing for long periods of time
	Learning basic pencil grip	Writing in cursive

Above all, we want to ensure that your child is happy, confident, and has a positive learning experience throughout the Foundation Phase.

Annual cost per learner

Grade R	Assessments	R639
	Assessments & printed lesson material & electronic facilitator's guides	R2 605
	Assessments & printed lesson material & printed facilitator's guides	R3 767
Grades 1 – 3	Assessments	R2 556
	Assessments & printed lesson material & electronic facilitator's guides	R4 780
	Assessments & printed lesson material & printed facilitator's guides	R5 424
