Love to teach? Never stop learning!

A world-class solution for professional development!

Face-to-face workshops

Macmillan Teacher Campus offers face-to-face training on a variety of topics ranging from ECD, Grade R, Foundation Phase, Intermediate Phase, Senior Phase and FET as well as classroom management. We also offer ETDPSETA accredited courses and a formal ECD NQF Level 4 qualification.

Online workshops

Macmillan Teacher Campus uses various online platforms to deliver quality workshops that are interactive, focusing on the latest trends.

Self-study workshops (online)

Macmillan Online Teacher Campus (MOTC) is an asynchronous online platform hosting a range of workshops that are easily accessible and very affordable.

These workshops can be done in your own time, at your own pace and in the comfort of your own home.

A classroom scene with many children in the background, all with their hands raised. In the foreground, two children are clearly visible, looking up and smiling. They are wearing grey school uniforms with white collars and red, green, and white striped ties. The background is a blurred classroom environment with purple decorations.

Early Childhood Development (ECD) & Foundation Phase (Grade R–3)

Here we go!

Big Books

- The **Here we go! Big Book Pack** contains 10 full-colour, A3-size **Big Books**, comprising a range of stories and texts that children can relate to. These titles are also available individually.
- The **Big Books** are graded according to difficulty, starting with one-word-per-page books and moving to one-sentence-per-page books.
- The **Big Books** can be used to facilitate emergent reading by giving learners the opportunity to hold books the right way up, to turn pages correctly when 'reading' and to develop correct eye movement, such as following lines of text from left to right.
- The learners also develop as readers through shared reading when they 'read' the **Big Books** as a class with the teacher.
- Using **Big Books** to 'read' in the classroom gives learners the opportunity to:
 - answer simple questions
 - describe and discuss characters
 - draw pictures, capturing the main ideas of the story
 - retell the story
 - say whether they liked the story
 - say how the story made them feel
 - respond through mime, movement and other drama activities.
- Available in Afrikaans, English, Sepedi, Sesotho, Setswana, isiXhosa and isiZulu.

Here we go!

Poster Pack

- The **Here we go! Poster Pack** contains 20 full-colour, A1-size **Posters** that are aimed at learners from the Early Childhood Development Phase to the Foundation Phase.
- All the **Posters** are in full-colour, with bright colours that grab the learners' attention, stimulate their imagination, and hold their interest.
- Using **Posters** in the classroom context allows for subconscious learning to take place continually, as the learners are exposed to the information on the **Posters** displayed on the classroom walls.
- The **Posters** are used to introduce and stimulate discussion on a particular theme.
- Because they are laminated, the **Posters** are durable and interactive – labels can be attached and removed depending on the theme and the discussion.
- No titles are provided on the **Posters**, as the titles are provided in all 11 languages on the reverse side of the cover sheet.
- The **Posters** reinforce learning, especially in the FAL classroom; for example, learning the names of different body parts, pets, fruits and vegetables, the seasons, and so on.
- The **Posters** can be used interchangeably between learning areas. For example:
 - The **Poster: My body** can be used to count body parts (Mathematics); to identify body parts; and for the learners to see how to use each body part, such as rotating wrists and hopping on one leg (Physical Education – Life Skills).
 - The **Poster: Fruits and vegetables** can be used to learn to count; to learn the names of different colours; and to learn the names of different fruits and vegetables.

Snappy Sounds

Snappy Sounds is a systematic, synthetic phonics series, built by world-class educators, authors and speech pathologists. It has been designed to make teaching phonics as simple and as speedy as possible for you and your class. Watch your pupils quickly build their confidence and develop a lifelong love of reading.

Snappy Sounds helps you deliver effective phonics instruction through:

- a unique and snappy 'I Do – We Do – You Do' teaching routine that will reduce your preparation time
- engaging and modern decodable readers that get students reading independently from week 1
- a mastery teaching sequence that ensures you set the right pace for your students
- dedicated consolidation and catch up lessons enabling every student to progress
- an assessment check that reveals exactly where students need further support
- built-in professional development support including classroom management tips, online support, and video to develop your knowledge of phonics and help you to teach Snappy Sounds with confidence.

Decodable Readers

Fully decodable books, for use from the end of Week 1

Decodable books support learners to learn to read by 'decoding' words: sounding out and blending the sounds to read the word. They are a tool for application, practice and consolidation of phonics knowledge and skills.

Each **Snappy Sounds** decodable book gives learners the chance to practice sounds and letters taught during the week. This means learners have the knowledge and skills to read every book they are given. This builds up confidence in reading and helps develop a love of reading from an early age.

Front cover, Jake and Kate Save the Apes
(**Snappy Sounds** Level 5)

Back cover, Jake and Kate Save the Apes
(**Snappy Sounds** Level 5)

Systematic introduction of letter-sounds correspondences

The **Snappy Sounds** decodable books include:

- **Systematic introduction and revision of the letter-sounds correspondences**, introduced by the series' teaching sequence
- **A wide variety of fiction and non-fiction text types** which are designed to engage all learners' tastes
- **Age appropriate vocabulary** and text that is not highly predictable, so learners are not encouraged to guess
- **Guided reading notes** that include before and after reading activities. These activities provide robust practice of decodable and high frequency words, as well as comprehension and vocabulary checks, and fluency activities
- **Consolidation and revision books**, allowing all learners to practise what they have learnt to date, whilst providing teachers with time to support learners who have not yet mastered the letters and sounds in that level.

All books are available in print and online to suit how you want to teach.

Daily Programme Cards

For ECD Centres and the Grade R Classroom

The Daily Programme

It is a programme that is carefully tailored to balance periods of structured learning with creative activities, ring time and free play.

Available for the following groups:

- 0–18 months
- 18–36 months
- 3–4 years
- Grade R

How to use the Daily Programme Cards in your classroom

- Display the cards on a wall in a straight line from left to right.
- It acts as a timetable. Use a little arrow that children can place on the different cards as they move through the programme during the day.

It helps the children to:

- know what is happening now and what comes next
- feel in control of their environment
- feel safe, secure and comfortable
- know how to do an activity or task
- engage in learning
- follow routines, demonstrate emerging independence, and adjust to change more easily

SMART START

Starting school is a big step!
Get your child ready to thrive in school and beyond!

NEW!

Why prepare for school readiness?

Proper preparation sets the foundation for a positive school experience. It helps the child to feel confident, excited, and ready to thrive in their new environment.

Smart Start School Readiness Guide

The **Smart Start School Readiness Parent & Teacher's Guide** is a practical roadmap filled with expert insights, activities and strategies to seamlessly support every child's journey to school readiness.

Features

Building blocks to school readiness – Explanation of the building blocks needed to get the child school-ready

Perceptual skills – The guide explains each perceptual skill, why it matters, and how it impacts the child's readiness for school.

Sample activities – A variety of sample activities designed to develop each perceptual skill are included in the guide. These activities are not only educational but also fun, making learning an enjoyable experience for the child.

Tracking progress – Each activity comes with step-by-step instructions and expected outcomes, helping you track your child's progress.

Toy integration – The guide features images of toys from the kit, demonstrating how each toy supports different perceptual skills.

Smart Start School Readiness Toy Kit

Ages 3–5

Toys are not just for entertainment or recreation but can also be used as a learning resource for the child's intellectual, physical, social and emotional development. With the extensive range of toys in the **Smart Start School Readiness Toy Kit**, you can teach a child to grow to their true potential.

The **Smart Start School Readiness Guide** demonstrates how each toy in the kit supports different perceptual skills.

Note: The **Smart Start School Readiness Guide** is included in the Toy Kit.
The **Smart Start School Readiness Guide** can be bought separately without the kit.

MCE New Early Bird Kindergarten Maths

The Marshall Cavendish Education New Early Bird Kindergarten Maths series provides a systematic and focused introduction to essential mathematical concepts and basic reasoning skills. It encourages pre-schoolers active participation through hands-on tasks, meaningful activities, and attractive illustrations that are rich in mathematical content.

1. Build a strong mathematics foundation by:
 - a) promoting deep understanding through the Concrete-Pictorial-Abstract (C-P-A) Approach
 - b) reinforcing learning using the Spiral Approach.
2. Enhance learning and teaching of mathematics using digital activities.
3. Enable educators to become effective facilitators with the use of the digital guide.

My Clever Perception Series

CAPS
ALIGNED

Help your learner or child to become sensory aware

Perception is the ability of the brain to interpret whatever we see, hear, feel, taste or smell.

The *My Clever Perception Series* is a series of workbooks that will help learners to master the following perceptual skills:

- visual and auditory discrimination: memory, sequence, closure, foreground-background and analytical synthesis
- laterality, midline crossing and spacial orientation
- gross motor and fine motor skills
- eye-hand and eye-foot coordination
- correct eye movements.

Who will benefit from the *My Clever Perception Series*?

It is important for a learner to master the perceptual skills in his or her **Grade R** year in order to be emotionally, socially, physically and mentally ready for Grade 1.

In order to master the formal reading and writing activities in **Grade 1** a learner is expected to possess a number of perceptual skills.

Every child is unique and develops at his or her own pace. The *My Clever Perception Series* is a valuable tool to give support to **Grade 2 and 3** learners who experience specific problems with the formal work due to a gap in their perceptual skills.

The books in this series:

- have bright, beautiful covers that learners will find very appealing
- have a character who shows the child exactly what to do on each page
- explain the importance of each skill
- have instructions, at the back of each book, on how to facilitate the activities in a clear, easy-to-use way.

The instructions in each book are in the following languages:

Afrikaans • English • isiXhosa • isiZulu • Sepedi • Sesotho • Setswana

The *My Clever Perception Series* comprises:

ubbu – Learn, Code, and Create

Games and coding lessons for 6 to 12-year-olds. Problem-solving and mindful citizenship skills. For families and schools.

Code to create

With ubbu you learn how to code through game-based lessons. Learn how to build games and narratives and to code your own world!

Our age-adapted curriculum is designed for children between 6 and 12 years old, and every one of our lessons aligns with both multidisciplinary, STEAM elements and at least one UN Sustainable Development Goal so that students work on their citizenship skills too!

Our mission

Empower young minds through games and coding, fostering problem-solving, mindful citizenship, and a passion for learning. For families & schools, ubbu offers boundless educational opportunities, preparing learners with 21st-century skills.

Why is ubbu special?

Improved the digital literacy, in the areas of STEAM, of more than 250k users

Our students have improved their math grades by 17%

Our users have interacted with more than 40M activities related to the UN SDG's

Why teach with ubbu?

- **NO COMPUTER SCIENCE BACKGROUND REQUIRED** We guide teachers through the entire computer science curriculum
- **ANALYTICS & CONTROL** Monitor student progress and tailor lessons with precision
- **ADAPTIVE CURRICULUM** Computer science lessons aligned with international standards
- **TEACHER SUPPORT** ubbu Academy offers webinars and materials for educators
- **COMPREHENSIVE LESSON PLANS** Everything you need for effective teaching
- **ENGAGING LEARNING** Explore ubbu World, a favourite among students

Readers are Leaders

The **Readers are Leaders** graded reading scheme for the Foundation Phase enables teachers to help learners on their way to becoming independent readers. This reading scheme emphasises the importance of a balanced approach to teaching language – as well as the value of understanding the role of stories in learners' oral and narrative skills development. The scheme includes 5 readers per grade (there are 3 levels) for Grade 1–3.

Thokozani

Foundation Phase Graded Readers and Big Books

The **Thokozani Foundation Phase Graded Readers** and **Big Books** are a collection of lively, original stories that will develop literacy as well as a love for reading. Each grade has three levels (Beginner, Intermediate and Advanced) and three readers per level to ensure learners progress in their reading abilities. The stories draw from the real world so that learners can associate with the stories. The series is CAPS aligned and each story is accompanied by activities to encourage further learning.

The series is available in isiZulu, isiXhosa, Sepedi, Sesotho and Setswana.

Developmental Reading Stages of Flying Start to Literacy

268 readers (134 pairs of books) organised into 7 developmental stages

Developmental Reading Stages	<i>Flying Start to Literacy</i> Levels	Features of the Programme at each Developmental Reading Stage
Early Emergent Reading Stage	1–2	<ul style="list-style-type: none"> Establishes a full range of concepts about print Introduces common stems and key vocabulary Introduces the first 26 high-frequency words Focuses on phonemic awareness and introduces letters (common sounds)
Emergent Reading Stage	3–6	<ul style="list-style-type: none"> Introduces phonologically regular vocabulary: all words with short vowels Revisits and extends high-frequency words Re-uses key vocabulary
Early Reading Stage	7–10	<ul style="list-style-type: none"> New, phonologically regular vocabulary is carefully introduced Key vocabulary is revisited High-frequency words are revisited and extended
Transitional Reading Stage	11–14	<ul style="list-style-type: none"> New, phonologically regular vocabulary is carefully introduced Language structures become more complex High-frequency words are revisited and extended
Early Fluent Reading Stage	15–18	<ul style="list-style-type: none"> Increased complexity of concepts Phonologically regular words now include more complex vowel combinations
Fluent Reading Stage	19–24	<ul style="list-style-type: none"> Vocabulary now includes less common letter combinations Increased conceptual load More complex language structures
Fluent Plus Reading Stage	25–30	<ul style="list-style-type: none"> Increased conceptual load with some less familiar content More specialised and technical language Increased range of text and language features

The Big News in Early Literacy

Use **Flying Start to Literacy** in your classroom and build a solid foundation in beginning reading.

Features	Benefits
Key vocabulary is introduced systematically.	Key vocabulary is carefully introduced and constantly revisited. Paired books present the same key vocabulary in different text types.
High-frequency words have a high rate of repetition with a low ratio of unfamiliar words.	Connected, paired books present the same high-frequency words in different sentence structures and text types.
A variety of text types enable the development of a range of reading strategies.	A range of text types, with different structures and text features, build reading strategies for texts that have different purposes.
Text complexity is carefully sequenced to build reading strategies.	Flying Start to Literacy is sequenced into 7 Developmental Stages and 30 Guided Reading levels. Reading strategies are developed and consolidated at each level.
The teaching of phonics and phonemic awareness is supported by the program.	Underpinning Flying Start to Literacy is a systematic and explicit sequence of phonemic awareness and phonics. This sequence is matched in the books to provide a context for learning.
Fluency enhances comprehension.	Lesson Plans provide opportunities for oral reading and include the re-reading of books to improve word identification skills and comprehension.
Reading and writing are linked.	The range of text types and the pairing of narrative and informative texts provide models of writing for the readers. Comprehensive Lesson Plans include writing as an integral part of each lesson.
Assessment is ongoing to inform instruction.	Ongoing assessment forms part of each teaching sequence. Assessment checklists are available.

Paired Books

Connected Texts to Reinforce Learning

- 268 readers (134 pairs of books) organised into 7 Developmental Reading Stages.
- Paired books address the same concepts, vocabulary and high-frequency words in different text types and sentence structures.
- There is a high rate of repetition of high-frequency words and a low ratio of unfamiliar words.
- There is a balance of illustrated narrative and photographic informative books.

Access a full list of these titles.

Reading Planet

Transform your approach to reading

Embed essential early reading skills with more than 400 fully decodable books for Grade R and Foundation Phase

- Start the reading journey with beautiful wordless and first words books in *Lift-off* and *Lift-off First Words*.
- Build firm foundations in reading with fresh and fully decodable *Rocket Phonics* books.
- Experience amazing adventures with the action-packed *Comet Street Kids* series.
- Enrich the curriculum with captivating fiction and non-fiction in the *Galaxy* series.

Develop children into confident, independent readers with fiction and non-fiction for Intermediate Phase

- Keep learners hooked on reading with high-quality books created by top authors.
- Broaden knowledge of different curriculum areas with fascinating non-fiction and topic-linked fiction that supports history, geography and more.
- Build essential comprehension and vocabulary skills using the end-of-book quizzes and through rich language used across a range of genres and writing styles.
- Tap into children's interest areas with modern character series and fact-filled non-fiction that explores topics such as coding, music and sports from new angles.
- Bring reading to life with hundreds of eBooks in the *Reading Planet Online Library*.

Reading Planet Online

Bring books to life with Reading Planet Online

Access every Reading Planet book as an eBook with a Reading Planet Online subscription. Our interactive libraries can be accessed in school and at home to develop literacy skills and inspire reading for pleasure.

- Share and explore a story with your whole class with interactive whiteboard compatible eBooks and tools
- Support lower attainers and EAL learners using the synchronised audio and sound effects
- Practise comprehension skills and enrich vocabulary with quizzes aligned to National Curriculum content domains
- Enhance home-school links by allocating eBooks for children to read away from the classroom on any device
- Track progress for every child and save time with the easy-to-use Reporting Tool

A quick guide to Reading Planet Online in school

Try the free
30-day trial

1

Select your chosen eBook or search by title, topic or book band.

2

Scroll and read through the eBook with a whole-class, group or individual children. You can also choose to play the audio.

4

Use the fun checkpoint quizzes to encourage class participation and assess understanding.

3

Use the Teacher Toolkit to highlight key words, zoom in and make notes on the eBooks.

Macmillan English Explorers

✓ FREE TEACHER RESOURCES ONLINE

An eight-level reading scheme, complimented by a four-level phonics scheme.

Macmillan English Explorers is developed for use in Grade R – Grade 6. These books expose children to real language and develop their reading and vocabulary skills.

Macmillan Explorers Phonics complements the first four levels of **Explorers** by teaching children to sound out words and blend sounds to read and spell them accurately.

All the readers have a story which has been written using high-frequency words, plus story-specific words which, as far as possible, are clarified by full-colour illustrations.

Free downloadable teacher notes are available for each level of the series and comprehension material has also been developed for each story to further enhance language learning.

Features

- The rich variety of text types, including non-fiction texts, means any child can enjoy reading, wherever their interests lie
- Comprehension and Vocabulary Workbooks** practise and develop a range of reading skills
- ‘Comprehension Extra’ activities in the Teacher’s Book encourage students to consider aspects of the text such as characterisation, style and plot
- Phonics Workbooks** support systematic teaching of phonics
- Cross-curricular content at higher levels means children can make links to other school subjects
- The stories promote social values such as friendship and respect

Here we go!

Book of Stories, Rhymes and Songs

- The **Here we go! Book of Stories, Rhymes and Songs** is a collection of over 120 well-known and original stories, rhymes and songs, contained in a single volume.
- This book can be used and enjoyed from the Early Childhood Development Phase to Foundation Phase.
- The stories, rhymes and songs use characters that the learners can relate to, to teach life lessons such as the value of teamwork, and the importance of hygiene, having good manners and respecting one's elders, in a fun and creative way.
- This collection enables teachers to implement the vitally important practice of reading a variety of texts to young learners every day.
- The variety of texts in the **Here we go! Book of Stories, Rhymes and Songs** allows for different learning opportunities:
 - The stories give learners the opportunity to appreciate and become familiar with characters, storylines, suspense and the structure (beginning–middle–end) of a story.
 - The wide variety of songs and action rhymes promotes the development of the young learner's listening skills and gross-motor coordination.
 - On each page, there is a note to the teacher, with suggestions on how to use the story, rhyme or song in the most effective way.

Spelling Rules

The **Spelling Rules** programme teaches learners strategies that move spelling from working memory into long-term memory – making spelling stick.

Focuses on

- **Kinaesthetics** – the physical feeling when saying sounds
- **Phonologics** – the sound of spelling
- **Visualisation** – the look and patterns of spelling
- **Morphemics** – the meaning of words or parts of words
- **Etymologics** – the history of words

Grammar Rules

The **Grammar Rules** series covers grammatical structures for particular text types, purposes and audiences. Your students will learn about grammar from the contextual level of the whole text down to the sentence and word level. They'll also learn how to use grammatical knowledge when responding to texts and when constructing their own texts.

- Two Teacher Resource Books available for each series.

These resource books:

- contain practical background information about language development
- utilise teaching tips for each unit
- have extra words lists
- suggest guidelines for assessing spelling and grammar and diagnosing spelling and grammatical errors
- contain support for struggling learners and extended learning
- These series are engaging and fun to use
- Teachers are attracted to the simple layout and obvious progression
- Supplements the curriculum

Macmillan Picture Dictionary

The ideal first dictionary for children aged 6–12. With its colourful illustrations, it is perfect for reinforcing the language learnt in any primary school course. It also includes word games and puzzles to practise vocabulary.

The dictionary includes:

- 550 colourfully illustrated headwords
- 24-page section of thematic pictures
- Word games and puzzles
- A fully illustrated Skills Book providing additional games and activities.

Title	ISBN	Language
Macmillan Picture Dictionary	9780333647912	English

Chambers-Macmillan South African Illustrated Dictionary: Foundation Phase

This is the first dictionary in a series of English school dictionaries developed specifically for learners in South Africa. It is intended for all learners in the first few years of primary school, with special attention paid to the needs of English First Additional Language speakers.

The dictionary includes:

- 2 000 headwords covering the essential vocabulary that learners need
- Over 2 000 example sentences that show how words are used
- Plurals of nouns and parts of verbs, which are shown in full
- A reference section on English grammar for teachers.

My Pals Are Here Mathematics (4th Edition)

My Pals Are Here! Maths (4th Edition) is a six-level primary mathematics series that is widely adopted and highly popular amongst teachers and learners worldwide. Being the main maths package used in Singapore since 2001, it has contributed to Singapore's success in topping international studies such as Trends in Internationals Maths and Science Study (TIMSS) and Programme for International Student Assessment (PISA). It is used in more than 50 countries, 10 of which are using country-specific adaptations of the series. Favoured for its engaging visuals, hands-on activities and digital interactives, My Pals Are Here! Maths makes learning fun and has proven to be effective in developing and honing learners' 21st century competencies. Updated based on the latest mathematical thinking and best practices in the 2021 Singapore Mathematics Syllabus, **My Pals Are Here! Maths (4th Edition)** continues to bring you the very best of what has been provided in the previous editions. The series is now made more suitable for a hybrid classroom with a comprehensive blend of print and digital resources which are designed to be easy to use. With the high-quality resources of the enhanced series, teachers can now better develop their learners into resilient, critical and creative thinkers and future-ready problem solvers.

Learner's Book

The eBook can be annotated and includes interactive digital resources such as animated openers, learn videos and virtual manipulatives.

Workbook

The eBook can be annotated and marked by teachers through the eWorkbook module on EduHub.

Teacher's Guide

The eBook can be annotated and includes printable teacher resources such as schemes of work, lesson plans, class presentations and worked solutions. In addition, teachers are also given access to a question bank.

Mighty Mentals

Building a strong foundation in MENTAL MATHS

A series of four workbooks for learners from Grades 3–6, designed to systematically teach mental computation skills. These workbooks are a valuable resource for teachers, parents and learners alike.

What makes each workbook great!

- Structured to be used over the course of the school year.
- Each unit is designed for weekly completion.
- Can easily integrate into existing lesson plans.
- Can be used as a supplementary homework task to reinforce learning!

Curriculum alignment

- Complements any general maths textbook
- Adds a strong mental computation component
- Covers essential areas of the mathematical curriculum including measurement, space and data

Maths Gaps

Foundation Phase Intervention Programme

(Available in all 11 official languages)

When there's an area of Mathematics that's difficult to understand, it's wonderful to have a helping hand to make things easier. The **Maths Gaps** series offers just that kind of help! The eight **Maths Gaps** books for Foundation Phase will help learners to overcome problem areas so that these don't continue into later years.

Each **Maths Gaps** book covers Grade 1, 2 and 3, and works through all the basics that learners will need. Each book:

- ✓ addresses specific gaps in focused sections
- ✓ briefly describes to the teacher, tutor or parent how to approach the learning under each heading, and what to focus on
- ✓ provides an example of how to do a particular section of work
- ✓ provides lots of practice activities per section
- ✓ offers assessments to use at the end of each grade, and provides a final end-of-phase assessment to make sure that learners have grasped the previously tricky learning area and addressed the Maths Gap!

The series was written and reviewed by Foundation Phase experts and is compliant with the CAPS curriculum.

The **Maths Gaps** series is a useful practice and intervention tool that can be used in the classroom and at home.

Mathematics can improve, with these fun, easy-to-use books.

MCE My Pals Are Here Science International

NEW!

My Pals are Here! Science International (2nd Edition) is a colourful and vibrant six-book series that presents science concepts to young learners in a fun and enjoyable way, catering to learners with a variety of learning styles. At the core of MPAH Science International (2nd Edition) lies the same effective pedagogies that are iconic to the MPAH Science series, which has seen success for almost two decades of supporting primary science teaching and learning. The 2nd Edition continues the Inquiry-based Approach, structured around the 5E (Engage, Explore, Explain, Elaborate, Evaluate) Instructional Model, in order to develop learners' science process skills. Together with a spiral progression in curriculum design and the addition of new features, the series helps learners acquire a deep understanding and appreciation of scientific concepts.

Foundation Phase Poster Pack

30 x full-colour A1 posters linked to Foundation Phase CAPS Life Skills topics

Alphabet Frieze

Full-colour A4 alphabet cards.

Reading Window

The **Reading Window** is an essential tool to make reading focused and fun for learners. Children use it as a guide to read line by line, even word by word. It helps them to focus on the task of reading and to find specific words, phrases, punctuation and sentences. A must-have for every Foundation Phase classroom.

A photograph of four diverse school children (two boys and two girls) smiling outdoors. They are wearing white shirts, and the background shows a bright, cloudy sky.

Intermediate Phase (Grade 4–6)

Thokozani

Intermediate Phase Graded Readers

The **Thokozani Series** is a locally produced reading series, developed by mother tongue speakers, for the Intermediate Phase. It is a collection of lively and original Readers to help learners discover the joy of reading and learn more about the world they live in. The texts in this series expose the learners to a variety of themes that are aligned to the Life Skills CAPS.

The books in this series are graded to cater for different reading abilities. Each grade is divided into Beginner, Intermediate and Advanced Readers. This allows learners to progress and to acquire reading competence at their own pace.

The series is available in isiXhosa, isiZulu, Sepedi, Sesotho and Setswana.

Readers are Leaders

The **Readers are Leaders** graded reading scheme for the Intermediate Phase enables teachers to help learners on their way to becoming independent readers. This reading scheme emphasises the importance of a balanced approach to teaching language – as well as the value of understanding the role of stories in learners' oral and narrative skills development. The scheme includes 12 readers per grade for Grade 4–6.

Readers are available in:

- Home Language (English, isiZulu, isiXhosa, Afrikaans, Sepedi, Sesotho and Setswana)
- English First Additional Language

Fiction for Young Afrika

The **Fiction for Young Afrika** series has been written to excite young readers through local stories which feature children. Beautiful and colourful illustrations help to create meaning from these captivating texts. Each story is followed by questions which develop comprehension and critical thinking through peer and teacher dialogue.

There are six titles in the series available in various languages.

Reading Worlds

Reading Worlds is a reading series for primary schools which encourages children to take an active interest in reading for pleasure and for information. There are exciting activities at the back of each book.

The main aim of **Reading Worlds** is to help children develop into confident, independent readers by the time they leave primary school. Then, as they begin high school, they will be able to study effectively and learn independently – and they will also learn to enjoy reading.

Reading Worlds includes both fiction and non-fiction books. There are three different types of books: Everyday World, Discovery World and Imaginary World.

- Everyday World – contains contemporary, fun and lively stories based on familiar situations and contexts.
- Discovery World – has a diverse collection of fact-based stories drawn from historical, geographical, scientific, sporting and cultural sources.
- Imaginary World – are imaginative modern and traditional African or folktale stories with universal appeal and relevance.

Literacy Network

Literacy Network contains a wide variety of non-fiction stories.

The exciting design and photos from real events will capture the interest of Intermediate Phase learners.

The different text types/literacy genres offer opportunities for cross-curricular learning. The comprehension questions and extension activities at the back of the book provide teachers with tools to assess development and integrate reading into the wider curriculum.

Literacy Network is built on an explicit teaching framework.

The teaching/learning approach provides:

- focused guided reading instruction
- independent reading opportunities
- explicit writing experience
- opportunities for students to critically analyse what they read.

Language Gaps

Intermediate Phase

Improve English proficiency with these fun, easy-to-use books

When there is an area of English that is difficult to understand and that learners struggle with, it is wonderful to have a helping hand to make things easier. The **Language Gaps** series offers just that kind of help!

The five **Language Gaps** books cover some of the core skills that Intermediate Phase learners need as the building blocks of their language journey in English Home Language or English First Additional Language.

Language teaching in the classroom happens in an integrated way. The **Language Gaps** books were developed to give learners the chance to practice one skill at a time to help learners to overcome problem areas so that these don't continue into later years.

Each **Language Gaps** book covers Grade 4, 5 and 6 and works through all the basics that learners will need.

Woordwys

Intermedière Fase

Verbeter in Afrikaans met hierdie prettige, gebruikers-vriendelike boeke

Wanneer daar dele van Afrikaans is wat moeilik is om te verstaan, is dit wonderlik om 'n helpende hand te hê om dinge makliker te maak. Die **Woordwys**-reeks bied presies hierdie soort hulp aan!

Die vyf **Woordwys**-boeke dek Grade 4, 5 en 6, en werk deur al die grondbeginsels wat leerders nodig het vir hulle taalreis vir beide Afrikaans Huistaal en Afrikaans Eerste Addisionele Taal.

Taalonderrig vind op 'n geïntegreerde wyse plaas in die klaskamer. Die **Woordwys**-boeke is ontwikkel om leerders die kans te gee om een vaardigheid of konsep op 'n slag te oefen en onder die knie te kry. Dit help leerders om probleemareas te oorkom sodat dit onmiddellik in die kiem gesmoor word en nie later meer probleme veroorsaak nie.

Elke **Woordwys**-boek dek Grade 4, 5 en 6 en werk deur al die basiese kennis wat noodsaaklik is.

Mighty Mentals

Building a strong foundation in MENTAL MATHS

A series of four workbooks for learners from Grades 3–6, designed to systematically teach mental computation skills. These workbooks are a valuable resource for teachers, parents and learners alike.

What makes each workbook great!

- Structured to be used over the course of the school year.
- Each unit is designed for weekly completion.
- Can easily integrate into existing lesson plans.
- Can be used as a supplementary homework task to reinforce learning!

Curriculum alignment

- Complements any general maths textbook
- Adds a strong mental computation component
- Covers essential areas of the mathematical curriculum including measurement, space and data

Maths Gaps

Intermediate Phase Intervention Programme

(Available in English and Afrikaans)

When there's an area of mathematics that's difficult to understand, it's wonderful to have a helping hand to make things easier. The **Maths Gaps** series offers just that kind of help! The five **Maths Gaps** books for Intermediate Phase will help learners to overcome problem areas so that these don't continue into later years.

Each **Maths Gaps** book covers Grade 4, 5 and 6, and works through all the basics that learners will need. Each book:

- ✓ addresses specific gaps in focused sections
- ✓ briefly describes to the teacher, tutor or parent how to approach the learning under each heading, and what to focus on
- ✓ provides an example of how to do a particular section of work
- ✓ provides lots of practice activities per section
- ✓ offers assessments to use at the end of each grade, and provides a final end-of-phase assessment to make sure that learners have grasped the previously tricky learning area and addressed the Maths Gap!

The series was written and reviewed by Intermediate Phase experts and is compliant with the CAPS curriculum. The **Maths Gaps** series is a useful practice and intervention tool that can be used in the classroom and at home.

Mathematics **can** improve, with these fun, easy-to-use books.

Solutions for all Primary Atlas

Solutions for all Primary Atlas is the ideal atlas for Grade 4 to 7 learners. It is aligned with the CAPS curriculum and reflects all the recent place name and border changes. It offers everything one would expect from a primary school atlas, as well as:

- Accessible and simple design
- A map skills section
- Activities within the atlas
- Full-colour glossy paper throughout
- Modern cartography
- A glossary of important terms used in the atlas and in the CAPS curriculum
- Maps, full-colour photographs and illustrations, simple statistical data, and explanations in easy-to-read and learner-friendly language.

MCE My Pals Are Here Science International

My Pals are Here! Science International (2nd Edition) is a colourful and vibrant six-book series that presents science concepts to young learners in a fun and enjoyable way, catering to learners with a variety of learning styles. At the core of MPAH Science International (2nd Edition) lies the same effective pedagogies that are iconic to the MPAH Science series, which has seen success for almost two decades of supporting primary science teaching and learning. The 2nd Edition continues the Inquiry-based Approach, structured around the 5E (Engage, Explore, Explain, Elaborate, Evaluate) Instructional Model, in order to develop learners' science process skills. Together with a spiral progression in curriculum design and the addition of new features, the series helps learners acquire a deep understanding and appreciation of scientific concepts.

Learn to Code

Exciting coding practice to embed knowledge and skills!

Learn to Code books have fun and engaging creative activities which provide coding practice and are ideal for coding clubs and homework. The step-by-step activities are easy to follow and will help children to become master coders!

- Complete step-by-step, easy-to-follow activities.
- Practice coding with a variety of free software.
- Become master coders with exciting creative activities.

The books include manageable pupil-led projects to suit all abilities, including many open-ended activities to stretch and challenge more able pupils.

There are 12 exciting activities in each book that use free software that children can download and use at home.

ubbu – Learn, Code, and Create

Games and coding lessons for 6 to 12-year-olds. Problem-solving and mindful citizenship skills. For families and schools.

Code to create

With ubbu you learn how to code through game-based lessons. Learn how to build games and narratives and to code your own world!

Our age-adapted curriculum is designed for children between 6 and 12 years old, and every one of our lessons aligns with both multidisciplinary, STEAM elements and at least one UN Sustainable Development Goal so that students work on their citizenship skills too!

Our mission

Empower young minds through games and coding, fostering problem-solving, mindful citizenship, and a passion for learning. For families & schools, ubbu offers boundless educational opportunities, preparing learners with 21st-century skills.

Why is ubbu special?

Improved the digital literacy, in the areas of STEAM, of more than **250k** users

Our students have improved their math grades by **17%**

Our users have interacted with more than **40M** activities related to the UN SDG's

Why teach with ubbu?

- **NO COMPUTER SCIENCE BACKGROUND REQUIRED** We guide teachers through the entire computer science curriculum
- **ANALYTICS & CONTROL** Monitor student progress and tailor lessons with precision
- **ADAPTIVE CURRICULUM** Computer science lessons aligned with international standards
- **TEACHER SUPPORT** ubbu Academy offers webinars and materials for educators
- **COMPREHENSIVE LESSON PLANS** Everything you need for effective teaching
- **ENGAGING LEARNING** Explore ubbu World, a favourite among students

Spelling Rules

The **Spelling Rules** programme teaches learners strategies that move spelling from working memory into long-term memory – making spelling stick.

Focuses on

- **Kinaesthetics** – the physical feeling when saying sounds
- **Phonologics** – the sound of spelling
- **Visualisation** – the look and patterns of spelling
- **Morphemics** – the meaning of words or parts of words
- **Etymologics** – the history of words

Grammar Rules

The **Grammar Rules** series covers grammatical structures for particular text types, purposes and audiences. Your students will learn about grammar from the contextual level of the whole text down to the sentence and word level. They'll also learn how to use grammatical knowledge when responding to texts and when constructing their own texts.

- Two Teacher Resource Books available for each series.

These resource books:

- contain practical background information about language development
- utilise teaching tips for each unit
- have extra words lists
- suggest guidelines for assessing spelling and grammar and diagnosing spelling and grammatical errors
- contain support for struggling learners and extended learning
- These series are engaging and fun to use
- Teachers are attracted to the simple layout and obvious progression
- Supplements the curriculum

Chambers-Macmillan South African Senior Phase Dictionary

The **Chambers-Macmillan South African Senior Phase Dictionary** is the third dictionary in a series of English school dictionaries for learners in South Africa.

This dictionary is intended for all Senior Phase learners, with special attention paid to the needs of those learners for whom English is both an additional language and a language of learning.

Learners can learn correct English usage as they look up the meanings of words.

Special features include:

- Over 18 000 words and phrases
- 21 000 example sentences show how words are used
- South African English content developed in consultation with the English Language Teaching Information Centre (ELTIC)
- Over 600 usage notes give extra help in correct English usage
- Clear illustrations to aid explanations
- Help with pronunciation.

Digitale Afrikaanse Taalkursus vir Generasie-Z

KLIEK is 'n splinternuwe gemengdeleer leermiddel nou beskikbaar vir gebruik in die Afrikaans Eerste Addisionele Taal klaskamer. Die opwindende kursus is ontwerp om 'n liefde vir Afrikaans by leerders aan te wakker.

Afrikaans word op 'n nuwe en vars manier aangebied deur digitale leerwerk, aktiwiteite en toetse – alles ondersteun deur 'n oorvleulende werkboek.

KLIEK stel die onderwyser in staat om die klaskamer te omskep in 'n lewendige, gemengde leerarea. Die onderwyser besluit wanneer en hoe om die tegnologie binne en buite die klaskamer te gebruik.

Die kursus bied die volgende kenmerke en voordele vir leerders en onderwysers:

- Alle onderwerpe in die werkboek word ondersteun en aangevul met interaktiewe oefeninge, speletjies, animasie en toetse.
- Terugvoering op verkeerde antwoorde verskyn onmiddellik en leerders leer uit hulle foute.
- Leerders word beloon met toekennings vir deelname en goeie vordering. Hierdie benadering maak voorsiening vir 'n generasie wat dadelik resultate en terugvoering wil hê.
- Hierdie program maak ook voorsiening vir selfgedrewe leer en probleemoplossing. Die leerder kan dus moeilike konsepte op hy/sy eie tyd bemeester.
- Tegnologie is tweede natuur by Generasie-Z en wakker hulle entoesiasme aan, en daarom kan dit tot voordeel van die leerder, asook Afrikaans as skoolvak aangewend word.

Elke verbruiker regstreer vir 'n twee jaar toegang tot die platform.

Kurrikulum

- KABV-gerig
- IEB-gerig

Tegnologie benodig

Internet-verbinding (2 MBPS) of internet-data (LTE of 4G)

- Slimfoon
- Tablet
- Rekenaar

Komponente

- Harde kopie KLIEK werkboek en KLIEK e-kursus
- OF
- KLIEK e-kursus

Toetse en oefeninge

- Die boek en e-kursus bevat toetse op drie moeilikheidsgrade:
Vlak 1: Graad 6–8
Vlak 2: Graad 9–10
Vlak 3: Graad 11–12
- Die onderwyser kan 'n leerder se vordering op die platform monitor en fokus op die areas wat aandag nodig het.
- Aan die einde van die e-kursus is daar eksamenvraestelle en toetse vir onderwysersgebruik beskikbaar.
- Luistertoetse vir alle grade is ook vir die onderwyser beskikbaar.
- Memorandums is op die onderwyser platform beskikbaar.

Solutions for all Map Skills Grades 7, 8 and 9

Solutions for all Map Skills is an exciting, CAPS-aligned guide for geography learners in Grades 7, 8 and 9. Its content has been developed by teachers, examiners and lecturers who have an intimate knowledge of the geographical skills and techniques section of the CAPS geography curriculum.

This book provides learners with instruction and guidance supported by a range of practice activities to help them develop competence in the following areas:

- Mapwork skills and techniques
- Atlas use
- Satellite images
- Aerial photographs
- 1:50 000 topographic maps
- Orthophoto maps

Key features

- Simple **definition** of key terms, as well as explanations of the **key concepts** related to each topic
- Opportunities to **apply** and integrate map skills with the geography topics outlined in the CAPS curriculum
- Useful **tips** to help with exam questions
- **Exercises** to practise and develop specific skills
- Clear, **step-by-step** explanations of how to master the skills associated with specific topics
- A selection of grade-specific assessment questions, including **sample exam papers**

Sample pages

Topic 2: Orthophoto maps

Important words

Topographic map a detailed map that shows natural features, especially relief, urban areas, and human-made features such as roads and spot heights

Spot height a dot and a number on a map or orthophoto map to show height in metres, e.g. 69

An orthophoto map looks like a vertical aerial photograph (VAP) with some map features marked on it, particularly contour lines, place names and heights.

An orthophoto map of a part of southern Johannesburg, Gauteng

Useful tips

- Always check the position of the height numbers given on contour lines. If the numbers are the same, then the slope is descending in the direction of the numbers, that is, up the slope towards higher ground.
- When the numbers are upside down, the slope is descending towards lower ground.

Section 8

Key concepts

- An orthophoto map contains elements of a VAP and a topographic map.
- A height is shown using **spot heights** and contour lines.
- Contour lines may be blue, yellow or black and white.
- Contour lines are spaced at regular intervals (e.g. 5 m intervals).
- Only some of the contour lines have height numbers marked on them.
- Orthophoto maps display the following information: place names, road names, railways, power lines, and constructed features such as schools and police stations.
- Cartographers use VAPs to make orthophoto maps. They connect the scale on a VAP to make it accurate for every point on the image.

Key skill 1: How to interpret an orthophoto map

- The pattern made by contour lines helps to identify landscape features such as hills, valleys, spurs and slopes.
- The spacing of contour lines (how far apart they are) shows the gradient of a slope.
- The shape and size of shadows on orthophoto maps provide clues about the height of buildings and the steepness of mountain peaks.
- Cloud shadows and shadows from trees help you to identify landscape features.
- Dark colours or shades are usually used for these features: rivers, deep water, dense vegetation, rivers, a wetland, ploughed fields.
- Lighter shades are usually used for these features: limestone, shallow or muddy water, sand, roads, foot paths, exposed soil.
- Straight or even lines generally represent features that people have created, such as roads, paths, fences and field boundaries.
- Natural features such as mountains, rivers, lakes and coasts have uneven or irregular shapes.
- Large buildings may be schools, factories, blocks of flats or shopping centres.
- Informal settlements normally have an irregular street pattern. Buildings may have different sizes. There are often winding paths between the buildings.

Practice questions 111 marks

Study the extracts A, B and C from the orthophoto maps on page 92.

- Identify the highest point on Map A. (1)
- Imagine a line of height numbers between points X and Y in Map A. (2)
- In which direction is the river in Map B flowing? Give two pieces of evidence to support your answer. (2)
- Describe the area close to the river in Map B. (2)
- Suggest a height for the contour lines at P and at Q in Map C. (2)
- Identify steep and gentle slopes on each of the orthophoto maps A, B and C. (6)

Grade 8

Revision questions

Maps, atlases and scale

Total: 100 marks

1. Consider the three maps A, B and C.

Guidelines Grammar for the Senior Phase Study Guides

The **Blue Book Series** has been helping learners pass since 1971.

There is a new set of **Grammar Guidelines for the Senior Phase**. These are CAPS compliant and easy to use. They offer brief, clear explanations of every grammatical construct, in simple language. Each topic is explained clearly and simply, with the aid of suitable examples. In addition to this useful reference material, there are practice activities for each topic, as well as solutions to the activities at the end of each study guide. Senior Phase learners will find these study guides an invaluable tool in preparing for tests, exams, or for completing classwork and homework tasks.

These study guides can be used by learners studying Home Language or First Additional Language.

Guidelines Mathematics for the Senior Phase Study Guides

The new **Guidelines Mathematics for the Senior Phase** consists of a set of 5 study guides, one for each learning area of the Senior Phase curriculum. They are CAPS compliant and easy to use. Each study guide offers brief, clear explanations of each maths topic and outlines of all concepts. There are summaries that are easy to understand, as well as definitions of difficult terms. Apart from offering frequent examples with solutions, each study guide also provides lots of questions and answers to help you prepare for exams, and a handy section for note-taking.

Each **Mathematics for the Senior Phase** study guide is also available in Afrikaans.

Solutions for all: A Practical Guide to Teaching Early Childhood Development

Ideas for activities and resources to teach Early Childhood Development

- Teaching resources are an integral component in every learning environment.
- Children learn about the world through their senses, so they learn best by being active and interactive, rather than through rote learning.
- Learning through play and using good-quality resources are important for children's physical, intellectual and social development.
- The activities in this guide provide teachers, practitioners, parents and caregivers with suggested resources, as well as guidance on how to use these resources effectively to stimulate learning.

Solutions for all: A Practical Guide to Teaching Early Childhood Development

Solutions for all: A Practical Guide to Teaching Early Childhood Development contains activity ideas and suggested resources for the following age groups:

- 0–18 months
- 18–36 months
- 3–4 years

The activities in this guide are aligned to the six Early Learning and Development Areas.

Making Resources

Let your child learn through play

A step-by-step guide for teachers, parents and caregivers showing how to make low-cost resources and how to use these resources in various learning situations.

Features of books

Materials	Instructions	Activities
A list of all the materials you will need to make each resource	Step-by-step instructions on how to make each resource	There are a number of suggested activities illustrating how the resources can be put to good use.

Skills
The 'Skills' section lists the various skills to be practised during the given activities. The importance or benefits of practising these skills are also often discussed.

Did you know?
The 'Did you know?' section presents important and interesting facts about various activities or skills included in the book.

Tip
There are occasional 'Tips' throughout the book. These give practical suggestions related to the resources or activities.

Links to the curriculum
The activities in this book are linked to The South African National Curriculum Framework for Children from Birth to Four Years (NCF) and the Curriculum and Assessment Policy Statements (CAPS) in terms of the skills covered.

Go Green!
The 'Go Green!' box provides information about environmental awareness and gives suggestions on how to be proactive in terms of conservation. These sections recommend simple actions that even children can follow to care for our world.

Step into Science

Grade R and ECD / Foundation Phase

Step into Science is Macmillan's new series of science activity books. The books in this series include a range of fun activities, each based on a scientific or technological principle. You don't need to be a science teacher to use this book – the activities are presented in a clear, easy-to-use way, listing the resources needed and the steps to follow for each activity.

These features have been carefully designed to help teachers bring scientific learning into the classroom.

Features of books

Links to the curriculum	Artwork	Resources	Science sum up
The activities link to the South African CAPS topics for Life Skills. They help the learners to see that scientific or technological principles can be seen in all aspects of everyday life.	The full-colour artwork and photos make it easy to understand how to set up each activity.	The resources listed are generally common household objects, and are easy and inexpensive to source.	Each activity includes a 'Science sum up', which explains the objective of the activity.

Notes	Integrated development skills	Observation sheets
Additional notes explain some scientific principles, where necessary.	The activities list the integrated developmental skills that learners will practise through the activity.	The book includes several observation sheets that teachers may copy and adapt for their own classes.

Step into Science

Intermediate Phase Resource Book for Practical Activities

Features of book

Links to the curriculum

The activities link to the natural science aspect of the Specific Aim 1: 'Doing science and technology' in the CAPS for IP Natural Sciences and Technology Grade 4–6.

Assessment tools and guidelines

Assessment tools and guidelines including rubrics where relevant and a marking memorandum to assess the worksheet have been provided for each practical activity.

List of scientific terminology

There is a list of scientific terminology for each activity which encourages learners to use the language of science.

An introduction to practical work

This explains the purpose and aim of practical work, the 6 steps of the scientific method, as well as the process skills which should be developed through practical work.

Step into Science

Guidelines to safety in the classroom

There are comprehensive notes on safety when doing practical work. Science experiments can pose dangers and safety risks for learners, as learners are often working with unfamiliar equipment and materials.

Photocopyable worksheets

Photocopyable worksheets for each practical activity that the learners must complete are included.

Resources required

Where resources as listed in the CAPS for IP Natural Sciences and Technology Grade 4–6 are not available or where equipment is limited, improvised resources are suggested in the teacher support section of each worksheet.

Practical activities

There are two practical activities per knowledge strand per grade.

This gives the teacher a choice of eight well-designed practical activities per year that can be used for informal (formative) assessment and formal assessment.

Teacher support

The teacher support page provides information on how each activity links to the CAPS content and concepts, as well as the required prior knowledge, objectives, advance preparation, safety precautions and improvised resources.

Step into Science

Senior Phase Resource Book for Practical Activities

Features of the book

Links to the curriculum

The activities link to Specific Aim 1 'Doing science' in the CAPS for Senior Phase Natural Sciences Grade 7–9.

Assessment tools and guidelines

Assessment tools and guidelines including rubrics where relevant and a marking memorandum are included for each worksheet.

The nature of science

A table is provided that summarises the nature of science and how people gain knowledge to understand and explain the natural world through science.

Step into Science

Senior Phase
Resource Book
for Practical Activities

Portia Kavai
Jeanette Merchant
Kimera Moodley
Mmapaseka Stephen

An introduction to practical work

An introduction to practical work that explains the purpose and aim of practical work, the scientific process, and the process skills which should be developed through practical work. A table is provided that summarises the steps of the scientific and related processes and inquiry skills.

List of scientific terminology

A list of scientific terminology with explanations is included in each worksheet which encourages the learners to use the language of science. Teachers need to model this in order for learners to recognise, understand and use the vocabulary.

Photocopiable worksheets

There is a photocopiable worksheet for each practical task. The worksheet provides a format for the learners to follow instructions to plan and/or conduct the investigations, record observations and findings and make conclusions. The worksheet also encourages safety during practical work by asking learners to suggest safety precautions.

Guidelines to safety when doing practical work

Science is all about hands-on learning, and is full of interesting lessons and fun experiments. However it also poses some unique dangers and safety hazards for learners. Teachers should have knowledge of and understand safety issues to enable them to anticipate, recognise, control, and eliminate any possible dangers and hazards. This section provides comprehensive notes on safety when doing practical work.

Practical activities

There are two activities for each knowledge strand for each grade. This gives the teacher a choice of eight well-designed practical activities per year that can be used for informal (formative) assessment and for formal assessment as part of the formal Programme of Assessment.

Teacher support

The teacher support page indicates how each activity links to the CAPS content and concepts, as well as the required prior knowledge, the objectives, advance preparation, resources, and safety precautions.

Resources required

Where resources as listed in the CAPS for natural sciences are not available or where resources are limited, improvised resources are suggested in the teacher support section.

Teaching Physical Education in the Foundation Phase

A step-by-step guide for Foundation Phase teachers to teach the Physical Education component of Life Skills.

Features of book

CAPS Aligned	Rubrics	Sports and Games
<p>The book is designed around the skills that are required by the Life Skills CAPS document:</p> <ul style="list-style-type: none"> • Locomotor skills • Rhythm • Balance • Laterality • Perceptual motor skills • Coordination • Spacial orientation skills • Non-locomotor movements. 	<p>As Physical Education is a CAPS requirement, teachers need to assess how learners are progressing. Sample rubrics are provided for teachers to use, as well as guidelines to create their own rubrics to assess the learners' abilities.</p>	<p>The CAPS document for Life Skills mentions a number of sports and games that teachers should facilitate during the year. This section of the book gives details on the objectives, rules and resources needed to play these sports and games.</p>

Resources	Teaching Physical Education in the Foundation Phase	Liggaamsopvoeding-onderrig in die Grondslagfase	Ball Handling Skills and Games
<p>A useful table in the Introduction summarises most of the equipment that a PE teacher will need. It also gives alternatives to each item – these alternatives are inexpensive and can often be made from commonly available objects.</p>			<p>Handling balls requires many of the physical literacy skills to be combined. This section describes the skills, and gives examples of how the practice can be made more challenging.</p>

Weekly Planner	Warm-up and Cool-down Exercises	Adaptations for Learners with Disabilities
<p>With a sample weekly planner, teachers can see at a glance what will be covered in that week.</p>	<p>Warming up and cooling down are important to prevent injury. This section describes the importance of these activities, and gives suggested programmes for both.</p>	<p>All learners need to take part in Physical Education, but teachers may find it hard to adapt activities for learners with disabilities. This section gives them practical ideas on how to do so.</p>

Expert Educator Series

A Professional Development Kit for Educators

- The **Expert Educator Series** is written by experienced South African educators who are experts in their respective fields.
- This series of books provides a solid base and understanding of what it means to teach in South African schools.
- All the titles in this series meet the requirements of the NCS and incorporate the principles behind the CAPS.
- The series covers a wide range of topics to equip educators with the knowledge and practical know-how to handle a variety of situations inside and outside the classroom.

Features:

- Case studies
- Practical tips for the classroom
- Clear explanations of concepts relevant to the topic
- Learning tasks including answers

Bloom's and Barrett's Cognitive Levels Wheel

Unlock the full potential of your learners' minds using these powerful tools designed for educators. MTC's Bloom's Cognitive Level Wheel provides a dynamic framework to enhance critical thinking and intellectual skills, guiding your lesson plans and assessments to new heights. Complementing this, Barrett's Cognitive Level Wheel offers a roadmap for teaching and assessing language and comprehension on different cognitive levels. Empower your learners to acquire lifelong critical-thinking skills.

Bloom's and Barrett's Cognitive Levels Wheel	Pack of five wheels	9781779974549

The Writing Process/Teaching Tenses Wheel

Transform writing lessons with MTC's Writing Process Wheel!

Empower yourself to guide your learners seamlessly through the writing journey. From brainstorming to polishing final drafts, our dynamic wheel simplifies the teaching of the writing process. On the flip side of the wheel we deal with tenses. Tenses are essential for effective and clear communication, maintaining consistency and coherence, structuring narratives, and meeting the expectations of different writing contexts. Whether in academic, professional, or creative writing, a solid grasp of tenses enhances the overall quality of written expression. Master English tenses effortlessly with MTC's Tenses Wheel!

THE researchED GUIDE TO SPECIAL EDUCATIONAL NEEDS

An evidence-informed guide for teachers

By Karen Wespieser, Tom Bennett

ISBN: 9781912906406

researchED is an educator-led organisation with the goal of bridging the gap between research and practice. This accessible and punchy series, overseen by founder Tom Bennett, tackles the most important topics in education, with a range of experienced contributors exploring the latest evidence and research and how it can apply in a variety of classroom settings. In this edition, Karen Wespieser examines the latest research surrounding pupils with special educational needs, editing contributions from writers including Richard Selfridge; Katherine Walsh; Oliver Caviglioli; Matthew Parker and Rob Webster; Kenny Wheeler; Nicole Dempsey; Cassie Young; Sabrina Hobbs; Barney Angliss; and Cath Murray.

THE BULLY IN THE GREENHOUSE

Why children bully others and what schools can do about it

By Dr Graham Ramsden

ISBN: 9781912906932

Are children born to bully others or is upbringing and schooling to blame? The answer is clearly not straightforward. Dr Graham Ramsden addresses these and other important questions in an attempt to explore what schools can do to address this very damaging and endemic social act.

The Bully in The Greenhouse puts the child who bullies at the very centre of this exploration and scrutinises the act of bullying from a range of perspectives. As we circle the greenhouse – a metaphor for looking at things from different perspectives – the book explores how societies create their own bullies as well as what some of the key components of child development tell us about why some children choose to bully others.

Written in an easy-to-read and often humorous style, The Bully in the Greenhouse uses social and psychological research to identify what schools, parents, and children themselves can do to reduce bullying in schools.

WHAT EVERY TEACHER NEEDS TO KNOW ABOUT PSYCHOLOGY

By David Didau and Nick Rose

ISBN: 9781909717855

David Didau and Nick Rose attempt to lay out the evidence and theoretical perspectives on what they believe are the most important and useful psychological principles of which teachers ought to be aware.

LOVE TO TEACH

Research and resources for every classroom

By Kate Jones

ISBN: 9781911382959

Love To Teach: Research & Resources for every classroom is an exciting book that combines the latest educational research with examples of what this can look like in the classroom. Filled with research-informed ideas to support all teachers and leaders in both Primary and Secondary this book would be great for NQTs and more experienced teachers and leaders alike. The educational research is presented in a format which is accessible, helpful and informative and will help inform educators about cutting-edge research in practical and applicable ways. The practical resources are easily adaptable and ready to be implemented in any classroom and are grounded in Kate's own classroom practice.

TOOLS FOR TEACHERS

How to teach, lead, and learn like the world's best educator

By Oliver Lovell

ISBN: 9781915261069

Over the past five years, Ollie Lovell has spoken to 60 of the world's most prominent teachers, leaders, and education researchers. This book summarises the most useful techniques, tactics and mental models from these conversations, and presents them in a clear, practical, and actionable form for you to start improving your teaching and learning.

THE THINKING SCHOOL

Developing a dynamic learning community

By Dr Kulvarn Atwal

ISBN: 9781912906024

In this book, headteacher and professional learning expert Dr Kulvarn Atwal presents a model that maximises both formal and informal opportunities for staff development. Through peer learning, modelling, coaching and mentoring, engagement in research and other professional growth activities, the thinking school creates a dynamic collaborative culture that permeates the entire learning community.

THE REVISION REVOLUTION

How to build a culture of effective study in your school

By Helen Howell and Ross Morrison McGill

ISBN: 9781913622930

Have you ever wondered why your students don't revise? Or why they revise ineffectively? Often, they simply don't know how. This is where The Revision Revolution comes in. This book guides you step by step through how to start and sustain a revision revolution in your school, building a culture of effective study.

PRESERVING POSITIVITY

Choosing to stay in the classroom and banishing a negative mindset

By Haili Hughes

ISBN: 9781913622008

Thousands of amazing, experienced teachers are choosing to leave the profession, depriving generations of students of their passion and expertise. But it doesn't need to be this way.

Preserving Positivity explores the reasons why people are choosing to leave the classroom and draws on the voices of other experienced teachers who tell us how they turned their careers around and give practical, adaptable strategies that will help you reignite your passion for teaching and bring the positivity back into your classroom.

Access Reading Test

NEW!

Access Reading Tests helps compare learners aged 10–16 against their cohort at a school and national level, understand their reading skills and areas where they can improve, and provide targeted interventions throughout their education. They are available in online, interactive tests or print tests format.

Age range covered: Form 1 (Age 10–12); Form 2 (Age 12–14); Form 3 (Age 14–16)

Number of Tests: 3 sets of parallel forms (6 papers in total)

Ideal testing time: The assessment can be used at the beginning and the end of a period of interventions.

Content assessed: The New Access Reading Tests (ART) work alongside all major curricula and focus on reading ability and comprehension.

Access our value-added reporting tool

With Access Reading Tests, automatically get access to Boost Insights, our free online enhanced reporting tool that enables successful learning experiences.

- Bulk mark results.
- Analyse at the individual or group level.
- Download reports as a spreadsheet or pdf.
- Identify gaps in learning.

By accessing valuable data for interventions, you can track impact and create successful learning experiences for every learner.

If you want to learn more about Access Reading Tests, scan the QR code to view the brochure.

Access Mathematics Test

Access Mathematics Tests is a progress test that helps compare learners aged 10–16 against their cohort at a school and national level, understand their mathematical skills and areas where they can improve, and provide targeted interventions throughout their education.

Age range covered: 10–16 years

Number of Tests: 3 sets of parallel forms (6 test papers in total)

Ideal testing time: The assessment can be used at the beginning and end of a period of interventions.

Content assessed: AMT works alongside all major curricula and focuses on mathematical ability and comprehension.

Access our value-added reporting tool

Access Mathematics Tests come with free access to our brand-new online assessment and reporting tool, Boost Insights.

- Quickly analyse results and gaps in learning to inform targeted teaching.
- Bulk upload results from paper tests.
- Effortlessly generate reports for individuals and groups to view and compare learner progress.
- Easily download visual reports that can be shared as PDFs with teachers, senior leaders, MAT leaders, school board members, and parents.
