X-RAY ELASTIC CONSTANT (XEC) DETERMINATION

AUTOMATED 4-POINT BEND RIG

AUTOMATED CONTROL THROUGH XRDWIN

- X-ray elastic constants (XEC) determination for residual stress measurements.
- Compliant with the ASTM E1426 specification.
- Easy to use automated hardware and control software that is fully integrated with XRDWIN 2.0.
- Automated collection for unattended measurement runs.
- 100 mm x 25 mm x 1.5 mm coupon size
