100+

High schools visited

20,000+

In person student engagements

60+

Leading global institutions

300%

increase in student interest following a tour

"My expectations were surpassed as we met many students and counselors. Students' expectations and exposure levels were different from city to city - I learned the importance of understanding these differences and targeting our university marketing plans accordingly."

- University of Surrey, United Kingdom

"Explore makes things smooth and easy when it comes to planning and navigating international recruitment travel. This allowed me to focus my efforts on understanding the needs of students and counselors, building relationships, and helping them better understand what we can offer."

- Reed College, United States
