

TECH RIDER

Mixing desk setup

Players

One of the following combinations:

- 2x Pioneer CDJ-3000(X) or
- 2x Pioneer CDJ-2000NXS2

Players linked and connected to adjacent channels of the mixer.

Mixer

One of the following:

- Pioneer DJM-A9 / DJM-900NXS2 / DJM-750MK2 or
- Allen&Heath Xone:96 / Xone:92

For the hybrid setup with drums and FX, **2 free channels** are required on the mixer.

Monitoring

Dedicated mono or stereo monitoring speaker(s), volume controllable from mixer.

Hybrid setup

Additional requirements:

- 3 additional power outlets for Type C power plugs.
- 40x40cm space for Roland SPD-SX Pro drumpad on mixing desk. Device and cables are provided by the artist. A floor stand can be provided **on request**.
- 20x20cm space for external FX on mixing desk. Device and cables are provided by the artist.
