

How can I be sustainable in my local area? – Knowledge Organiser - Year 1 Spring 2					
Vocabulary		What is sustainability?		How could we reduce what we throw away?	
<b>Environment</b>	Everything that is around us.			   	
<b>Sustainable</b>	Looking after the environment so that resources will continue to be available in the future.			   	
<b>Transport</b>	To take something from one place to another.				
<b>Pollution</b>	When waste or chemicals are released into the environment.				
<b>Electricity</b>	A form of energy that can give things the ability to move and work.	<b>Reduce</b>	Create a lower amount of waste.	<p style="text-align: center;"><b>How can I reduce my electricity use?</b></p>   	
<b>Waste</b>	Rubbish that is thrown away.	<b>Reuse</b>	Reuse old items again.		
<b>Landfill</b>	A big hole in the ground that is filled with rubbish.	<b>Recycle</b>	Create new products from waste.		
What items can be recycled?					
 <p style="text-align: center;"><b>PLEASE RECYCLE THESE ITEMS</b></p>				<p style="text-align: center;"><b>SUSTAINABLE TRAVEL</b></p>
