

## Key Instant Recall Facts Year 2 Summer 1

I can choose and use appropriate standard units to measure.

**length** – metres, centimetres, kilometres

**mass** – grams, kilograms

**capacity** – millilitres, litres

**temperature** - °C

### Example Questions

What **unit** should we use to **measure the length** of this room?

What is the **temperature** today?

**How much** liquid is in this bottle?

### Activity Suggestions

**Supermarket spotter** – look at items and their measures in the shops.

**Practical** – when following a recipe, look at the different measures. If completing any projects at home, involve the children with measuring (e.g. furniture sizes, filling drinks bottles etc).
