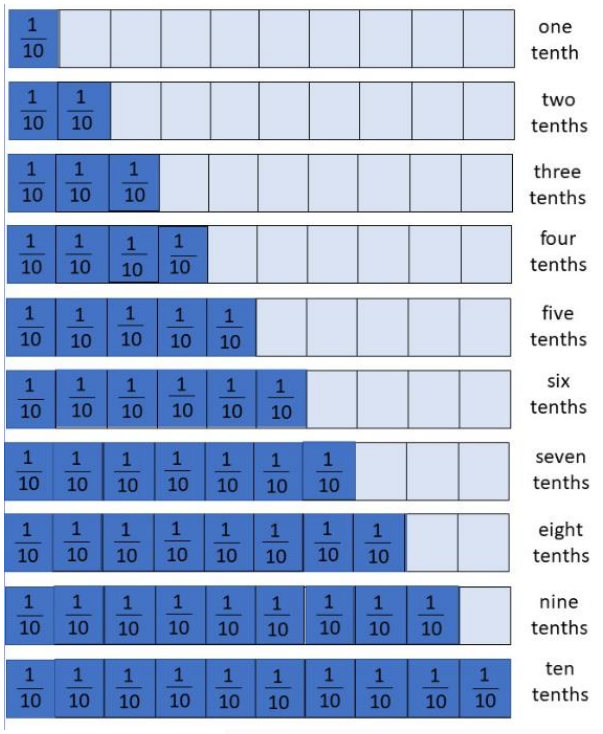
Key Instant Recall Facts
Year 3 Summer 1

I can count up and down in tenths. I can recognise and show, equivalent fractions with small denominators, using diagrams.

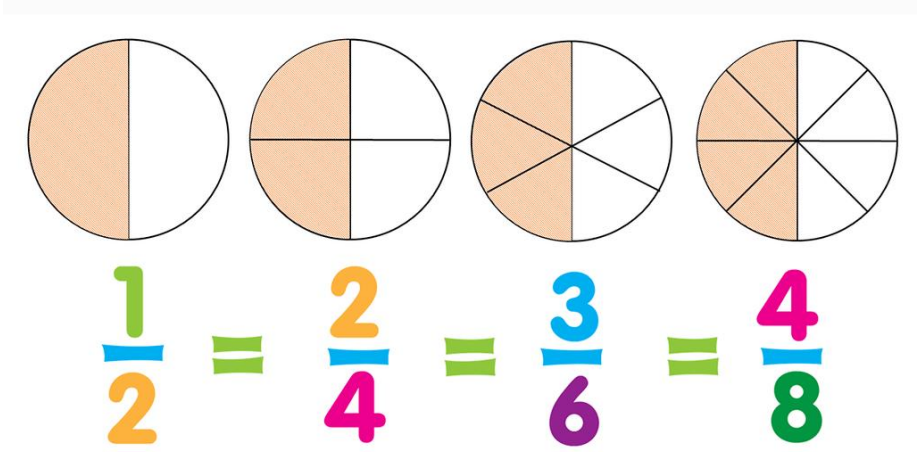


Example Questions

What are three sixths **equivalent** to?

How many tenths make one whole?

Five tenths **are equal to** ...



Activity Suggestions

Paper folding – cut some paper into equal length strips. Fold the first in half. Fold the second in half and then half again. Keep repeating this to find equivalent fractions.
