

GUIDANCE FOR OFF-CAMPUS STUDENTS WHO ARE COVID POSITIVE or SYMPTOMATIC

Undergraduate
Student

Graduate
Student

Professional
Student

If you have symptoms or have been exposed, message the 'COVID-19 Assessment Provider' on your status and access care through the **Student Health Patient Portal**.

If you tested positive off campus, **IMMEDIATELY** load positive test result into **Student Health Portal**.

We encourage you to also communicate with your professor to let them know that you need to be out of class for a while. You do not need to disclose your status.

Reach out to your school's **Academic Continuity Liaison** if you need help contacting the professor. If you are asymptomatic or have mild symptoms, we encourage you to keep up with class to the extent possible.
