TOOLS YOU MIGHT NEED

Pencil	Level	Tub & Tile Adhesive	Measuring Tape	Adjustable key	Silicone
					

Please ensure that the ground is flat before installation; otherwise, it will affect the installation effect.

Installation Procedure

Note: Please read all precautions carefully before installation.

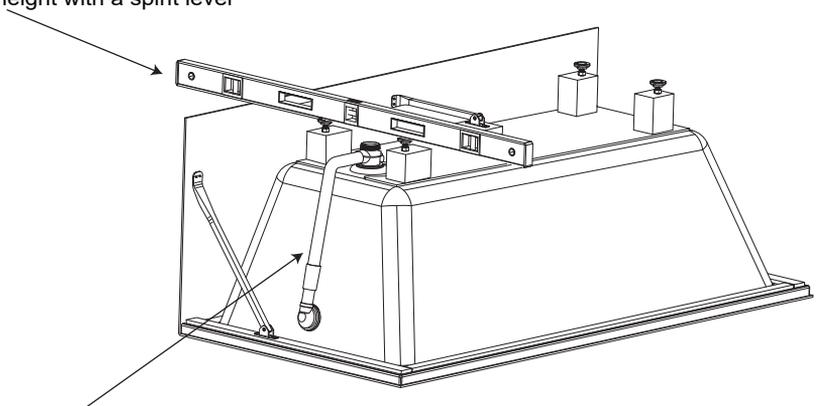

1

1. First, place the bath upside down on a protective mat. Using a spirit level, adjust the feet to the same height as the skirt.

2. Next, install the drain and overflow, ensuring their height does not exceed that of the feet.

Note: Drain and overflow are to be purchased separately according to the bathtub specifications.

Adjust the feet height with a spirit level

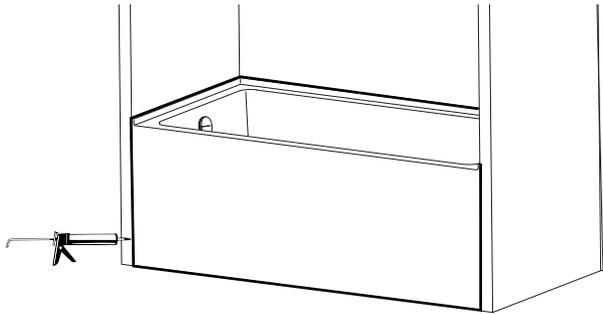

Install the pre-prepared drain and overflow

Installation Procedure

2

1. Place the bathtub into position and ensure it is stable and secure with no wobble.
2. Thoroughly clean the area to remove dust and debris. Apply a continuous fine bead of high-quality silicone sealant along the rear wall edge of the bathtub.

Apply a thick bead of silicone sealant around the perimeter of the bathtub, then allow to cure for 24 hours.

Aftercare:

1. To preserve the polished surface, after using your bath, clean with a soft cloth and warm soapy water.
2. Do not use powders, pastes, crème cleaners, thinners, window cleaning sprays, dry cleaning liquid, etc.
