

Seeking A Board Member with Lived Experience

Of Color Inc was founded by an African American female in 2016 and incorporated in 2019. Our agency is female operated but serves all people across the city of Chicago. We seek a diverse board of directors to add to our portfolio (please view our website at www.ofcolorinc.org). Skillsets needed for this opportunity are those individuals with notable expertise and networking resources that will help to advance the organization.

We are currently a board of 7 and are seeking to grow to 11 with **one young professional director having "lived experience" in one of our service areas**. Our board meets 4 times per year with Officers meeting 4 additional times. Meetings are after work hours, and board membership fees are \$250 per year for the board member with lived experience. Board terms are for two three-year periods.

Our board meets virtually three times per year but once in person for our July meetings. The agency We save lives and continues to seek strong mission and passionate board members to help us to increase our reach as we work towards completing the goals of our new (2026) and upcoming five-year strategic plan.

Please contact Renita White, Founding Executive Director if interested at rwhite@ofcolorinc.org
