

AUTOCLAVE WATER

Features

- Reverse osmosis purification technology
- Chemical free
- Six stage production process
- AS5369 compliant
- Organically pure
- Extremely low mineral content
- Sealed and sanitised bladder

Benefits

- Consistent high quality, long shelf life
- Confidence in the product meeting your industry requirements
- Meets warranty requirements of autoclave units
- No mineral or fouling deposits
- Prolongs working life of equipment
- Reduces cleaning time and frequency of servicing units

Application

- For autoclave equipment that utilises steam sterilisation

Production process

- Chemical-free reverse osmosis purification technology

Packaging

- Recyclable 10 litre bladder in a recyclable cardboard carton

Product description and part number

- Autoclave water 10 litre cask
- Part number 126

Water that ensures proper sterilisation of your RMDs.

Rowater's autoclave water meets the ADA's Infection Control Guidelines specifications to AS5369 standard.

Using incorrect water in your autoclave can result in scaling, leading to poor temperature control, reduced pressure and inadequate sterilisation.

Rowater autoclave water will ensure your expensive practice equipment is maintained in premium condition, while ensuring you are meeting the highest quality standards in your practice

Rowater autoclave water is packaged in a fully-sealed, 10 litre bladder to eliminate exposure to the atmosphere, ensuring your water remains bacteria-free.

	AS5369 7.4	AS5369 7.2	Typical analysis
Evaporative Residue	≤10.0mg/L	N/A	≤10.0mg/L
Cadmium	≤0.005mg/L	N/A	≤0.001mg/L
pH	5.0-7.5	5.5-8.0	6.0
Conductivity	≤5.0μS/cm	≤30μS/cm	<0.6μS/cm
Total Hardness	≤2.0mg/L	≤10.0mg/L	<2.0mg/L
Chloride	≤0.5mg/L	≤10.0mg/L	<0.5mg/L
Iron	≤0.2mg/L	≤0.2mg/L	<0.0005mg/L
Phosphates (molybdate reactive)	≤0.5mg/L	≤0.2mg/L	<0.2mg/L
Silicates (molybdate reactive)	≤1.0mg/L	≤1.0mg/L	<0.05mg/L
Total Viable Count	N/A	≤100cfu/100mL	<10cfu/100mL
Endotoxin	N/A	≤0.25EU/mL	<0.2EU/mL
Lead	≤0.06mg/L	N/A	≤0.001mg/L
Heavy Metals (excluding Iron, Cadmium, Lead)	≤0.1mg/L	N/A	≤0.04mg/L
